* The Company's Memorandum and Articles of Association, the Prospectus, the Key Investor Information Documents, the unaudited semiannual reports, as well as the audited annual reports can be obtained free of charge from the office of the information agent via regular mail or by e-mail. The net asset value of each of the relevant Funds and the subscription and redemption prices of the shares of the Funds are published jointly and daily on "www.fundinfo.com" for information purposes only and do not constitute an invitation to subscribe for or repurchase the Company's shares at those prices.

**** ADDITIONAL INFORMATION FOR QUALIFIED INVESTORS IN SWITZERLAND**

Only the Russell Investments Multi-Factor Global Equity Fund of OpenWorld plc is compliant with Swiss law for distribution to qualified investors in Switzerland. The Russell Investments Multi-Factor Global Equity Fund did not launch during the financial year ended 30 June 2020.

The Company and the Fund mentioned above are compliant with Swiss law for distribution to qualified investors in Switzerland. The Swiss representative is Carnegie Fund Services S.A., 11, rue du Général-Dufour, 1204 Geneva, Switzerland. The Swiss paying agent is Banque Cantonale de Genève, 17, quai de l'Ile, 1204 Geneva, Switzerland. Investors in Switzerland can obtain documents of the Company, such as the Prospectus, the Articles of Association, the Key Investor Information Documents (KIIDs) and the financial reports free of charge from the Swiss representative. This document may only be issued, circulated or distributed so as not to constitute an offering to the general public in Switzerland. Recipients of the document in Switzerland should not pass it on to anyone without first consulting their legal or other appropriate professional adviser, or the Swiss representative.

Each time performance data is published, it should be noted that the past performance is no indication of current or future performance, and that it does not take account of the commissions and costs incurred on the issue and redemption of shares.

The list of the purchases and sales and further information can be obtained free of charge from the representative in Switzerland. For the shares of the Fund distributed to qualified investors in Switzerland, the place of jurisdiction is Geneva.

Background to the Company

OpenWorld plc (the "Company") was incorporated in Ireland as a public limited company on 12 June 2008, under registration number 458665. The Company operates under the Companies Act, 2014 (the "Companies Act") and has been authorised since 19 November 2008 by the Central Bank of Ireland (the "Central Bank"), under reference number C51189.

The Company is an open-ended investment company with variable capital and is authorised by the Central Bank under the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the "UCITS Regulations") and under the Central Bank (Supervision & Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations").

The Company is organised in the form of an umbrella fund with segregated liability between sub-funds and as at 30 June 2020 had six constituent sub-funds available for investment (each a "Fund" collectively the "Funds"). Russell Investments Global Focus Growth Equity, Russell Investments Global Focus Value Equity and Russell Investments Multi-Factor Global Equity Fund remained unfunded as at 30 June 2020.

The Adviser, the Manager and their affiliated group companies are referred to collectively as "Russell Investments" in these financial statements.

The net assets under management for the Company as at 30 June 2020 amounted to EUR 590,683,825 (30 June 2019: EUR 629,298,458) and are broken down as follows:

Fund	Funded during the financial year ended	Functional Currency	Net Assets 30 June 2020 '000	Net Assets 30 June 2019 '000
Russell Investments Global High Dividend Equity	30 June 2010	USD	243,064	259,368
Russell Investments Global Listed Infrastructure	30 June 2009	USD	370,156	402,312
Russell Investments Global Low Carbon Equity Fund	30 June 2018	USD	50,236	54,965

All shares in Russell Investments Multi-Strategy Alternative UCITS Fund, Russell Investments Euro Credit, Europe Focus Equity, Global Focus Equity and Russell Investments US Credit have been redeemed and the funds have been closed and are no longer available for investment. The Company intends to apply to the Central Bank to revoke the Fund's approval following final disbursement of assets in the Fund.

Each of the Funds may issue income class shares, accumulation class shares, hybrid accumulation class shares or roll-up class shares. All share classes listed throughout this report are accumulation class shares unless otherwise indicated in the name of the share class.

All references to "net assets" throughout this document refer to net assets attributable to holders of redeemable participating shares unless otherwise stated.

U.K. Reporting Fund Status

The Company conducts its affairs so as to enable U.K. reporting fund status to be obtained under the United Kingdom Income and Corporation Taxes Act, 1988 for the purposes of U.K. taxation for each applicable Fund.

Directors' Report

The Directors submit their report together with the audited financial statements for the financial year ended 30 June 2020.

Directors' responsibilities

The Directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable Irish law and Generally Accepted Accounting Practice in Ireland ("Irish GAAP") including the accounting standards issued by the Financial Reporting Council ("FRC").

Irish company law requires the Directors to prepare financial statements for each financial year that gives a true and fair view of the assets, liabilities and financial position for OpenWorld plc (the "Company") and of the profit or loss of the Company for that financial year. In preparing the financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent; and
- prepare the financial statements on a going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors confirm that they believe that they have complied with the above requirements in preparing the financial statements.

The Directors are responsible for the maintenance and integrity of the corporate and financial information relating to the Company which may be included on the Adviser's website. Legislation in the Republic of Ireland governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

In carrying out the above requirements, the Directors have appointed Russell Investments Ireland Limited as manager (the "Manager") and the Manager has appointed State Street Fund Services (Ireland) Limited to act as administrator (the "Administrator") of the Company.

Transactions involving Directors

In respect of the 2020 financial year, the Directors are not aware of any contracts or arrangements of any significance in relation to the business of the Company in which the Directors or their connected persons had any interest as defined by the Companies Act, other than those disclosed in Note 5, "Transactions with Related Parties".

Accounting Records

The Directors are responsible for maintaining adequate accounting records which correctly explain and record the transactions of the Company, enable at any time the assets, liabilities, financial position and profit or loss of the Company to be determined with reasonable accuracy, enable them to ensure that the financial statements and Directors' Report comply with the Companies Act and enable the financial statements to be audited. They are also responsible for ensuring that the financial statements are prepared in accordance with accounting standards generally accepted in Ireland and comply with the Companies Act and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the "UCITS Regulations"). The Directors are also responsible for safeguarding the assets of the Company pursuant to the terms of a depositary agreement. The Directors have a responsibility for taking such steps as are reasonably open to them to prevent and detect fraud and other irregularities. The Directors believe that they have complied with the requirements of the Companies Act, with regard to accounting records by employing an experienced administrator with appropriate expertise and by providing adequate resources to the financial function. The accounting records of the Company are maintained by the Administrator at 78 Sir John Rogerson's Quay, Dublin 2, Ireland.

Distributions

Please refer to Note 8 to the financial statements for details of the distribution policy of each of the Funds.

Connected Person's Transactions

Regulation 43 of the Central Bank UCITS Regulations "Restrictions of transactions with connected persons" states that "A responsible person shall ensure that any transaction between a UCITS and a connected person is, conducted a) at arm's length; and b) in the best interest of the unit-holders of the UCITS".

As required under the Central Bank UCITS Regulation 81(4), the Directors, as responsible persons are satisfied that there are arrangements in place, evidenced by written procedures, to ensure that the obligations that are prescribed by Central Bank Regulation 43(1) are applied to all transactions with a connected person; and all transactions with a connected person that were entered into during the period to which the report relates complied with the obligations that are prescribed by Central Bank Regulation 43(1).

Directors' Report - continued

Review of performance of the business, principal activities and future developments of the business

As of reporting date, the Directors have no reason to believe that the Company is not able to continue as a going concern.

A detailed performance review of the business and its principal activities is included in the Manager's Report for each Fund.

Principal risks and uncertainties

Beginning in January 2020, global financial markets have experienced and may continue to experience significant volatility resulting from the spread of a novel coronavirus known as COVID-19. The outbreak of COVID-19 has resulted in travel and border restrictions, quarantines, supply chain disruptions, lower consumer demand and general market uncertainty. COVID-19 has and may continue to adversely affect the global economy, the economies of certain nations and individual issuers, all of which may negatively impact the Funds' performance.

The Directors and the Company's delegates are closely monitoring the developments and the advice relating to the spread of the COVID-19. The Russell Investments Group has a robust global business continuity programme that includes incident management/crisis management, life safety and facilities. The business continuity programme contains over 65 individual plans, one for each key global or regional business unit. The Group has implemented and continues to implement measures to maintain the ongoing safety and well-being of employees.

The United Kingdom left the European Union (EU) in January 2020 following the approval of the withdrawal agreement negotiated between the UK government and the EU. An implementation period was agreed that will run until December 2020.

The Russell Investments Group continues to work through updated legal advice from counsel in the main jurisdictions in the EU 27 where Russell Investments carries out regulated activity. There is continued uncertainty as to the extent to which Russell Investments Limited and Russell Investments Implementation Services, LLC will be able to provide MiFID services in EU 27 countries at the end of the transition period.

A detailed analysis of the risks facing each Fund and the use of financial instruments is included in Note 11 and Note 12 of the financial statements.

Throughout the financial year, the Company maintained the aim of spreading investment risk in accordance with the Companies Act.

Results and dividends

The results for the financial year are set out in the Profit and Loss Account for each Fund. Dividends were declared during the financial year as detailed in Note 8 of the financial statements.

Significant events during the financial year

Significant events during the financial year are disclosed in Note 16 of the financial statements.

Significant events since the financial year end

Significant events since the financial year end are disclosed in Note 17 of the financial statements.

Voluntary adoption of the Corporate Governance Code

The Irish Funds Industry Association ("Irish Funds") in association with the Central Bank has published a corporate governance code (the "Irish Funds Code") that may be adopted on a voluntary basis by Irish authorised collective investment schemes. The Board of Directors voluntarily adopted the Irish Funds Code as the Company's corporate governance code effective from 31 December 2012. The Company has been in compliance with the Irish Funds Code since its adoption.

Directors

The name and nationality of persons who were Directors at any time during the financial year ended 30 June 2020 are set out below. All Directors are non-executive directors. Except where indicated all acted as Directors for the entire financial year.

- Mr. James Firn (American and British) (Chairman)
- Mr. James Beveridge (British) (resigned 18 October 2019)
- Mr. Peter Gonella (British)
- Mr. Neil Jenkins (British)
- Mr. Joseph Linhares (American)
- Mr. John McMurray (American)
- Mr. Tom Murray (Irish)
- Mr. William Pearce (British) (appointed 13 February 2020)
- Mr. William Roberts (British and Irish resident)
- Mr. David Shubotham (Irish)
- 6 Directors' Report

Directors' Report - continued

Directors' and Secretary's interests

None of the Directors or the Company Secretary hold or held any beneficial interest in the shares of the Company during the financial year. Each of the Directors is employed by Russell Investments entities except for Mr. Tom Murray, Mr. William Roberts, Mr. David Shubotham and Mr. James Firn. Mr. Firn is a former employee of Russell Investments who retired in June 2014. He continues to act as a director of the Manager and the investment funds managed by the Manager.

No Director had, at any time during the financial year or at the financial year end, a material interest in any contract of significance in relation to the business of the Company.

Compliance statement

The Directors acknowledge that they are responsible for securing the Company's compliance with its relevant obligations. These include all requirements of the Company under Section 225 of Companies Act 2014 and all tax law within the Republic of Ireland (the "relevant obligations").

In keeping with this responsibility, the Directors have:

- drawn up a compliance policy statement setting out the Company's compliance with the relevant obligations;
- appointed the Adviser, and relies on the Adviser's risk and compliance departments to implement these procedures and secure material compliance with the relevant obligations; and
- performed a review of this policy statement, and its implementation by the Adviser.

Audit Committee

The Audit Committee of the Manager will oversee the Company's audit related affairs according to the Terms of Reference of the Audit Committee of the Manager. The membership of the Audit committee is disclosed in the Administration of the Company on page 2.

Relevant audit information

So far as the Directors are aware, there is no relevant audit information of which the Company's auditors are unaware and the Directors have taken all the steps that should have been taken as Directors in order to make themselves aware of any relevant audit information and to establish that the Company's auditors are aware of that information.

Independent Auditors

The Auditors, PricewaterhouseCoopers, will be re-appointed in accordance with section 383 of the Companies Act.

On behalf of the Board

William Roberts Tom Smarry Tom Murray

13 October 2020

Depositary's Report

We have enquired into the conduct of OpenWorld plc (the "Company") for the financial year ended 30 June 2020, in our capacity as depositary to the Company.

This report including the opinion has been prepared for and solely for the shareholders in the Company as a body, in accordance with the Regulation 34, (1), (3) and (4) in Part 5 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 as amended, (the "UCITS Regulations") and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Depositary

Our duties and responsibilities are outlined the Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations. One of those duties is to enquire into the conduct of the Company in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion, the Company has been managed in that financial year in accordance with the provisions of the Company's Memorandum and Articles of Association and the UCITS Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not so complied, we as Depositary must state why this is the case and outline the steps which we have taken to rectify the situation.

Basis of Depositary Opinion

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations and to ensure that, in all material respects, the Company has been managed (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of its constitutional documentation and the UCITS Regulations and (ii) otherwise in accordance with the Company's constitutional documentation and the appropriate regulations.

Opinion

In our opinion, the Company has been managed during the financial year, in all material respects:

- in accordance with the limitations imposed on the investment and borrowing powers of the Company by the (i) Memorandum & Articles of Association, the UCITS Regulations and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 ('the Central Bank UCITS Regulations') and
- (ii) otherwise in accordance with the provisions of the Memorandum & Articles of Association, the UCITS Regulations and the Central Bank UCITS Regulations.

13 October 2020

Independent auditors' report to the members of OpenWorld plc

Report on the audit of the financial statements

Opinion

In our opinion, OpenWorld plc's financial statements:

- give a true and fair view of the Company's and Funds' assets, liabilities and financial position as at 30 June 2020 and of their results for the year then ended;
- have been properly prepared in accordance with Generally Accepted Accounting Practice in Ireland (accounting standards issued by the Financial Reporting Council of the UK, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and Irish law); and
- have been properly prepared in accordance with the requirements of the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

We have audited the financial statements, included within the Annual Report and Audited Financial Statements, which comprise:

- the Balance Sheet of the Company and each of its Funds as at 30 June 2020;
- the Profit and Loss Account of the Company and each of its Funds for the year then ended;
- the Statement of Changes in Net Assets Attributable to Redeemable Participating Shareholders of the Company and each of its Funds for the year then ended;
- the Schedule of Investments for each of the Funds as at 30 June 2020; and
- the notes to the financial statements for the Company and for each of its Funds, which include a description of the significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)") and applicable law.

Our responsibilities under ISAs (Ireland) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, which includes IAASA's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which ISAs (Ireland) require us to report to you where:

- the directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the Company's and Funds' ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the Company's and Funds' ability to continue as going concerns.

Reporting on other information

The other information comprises all of the information in the Annual Report and Audited Financial Statements other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of the report that fact. We have nothing to report based on these responsibilities.

With respect to the Directors' Report, we also considered whether the disclosures required by the Companies Act 2014 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (Ireland) and the Companies Act 2014 require us to also report certain opinions and matters as described below:

- In our opinion, based on the work undertaken in the course of the audit, the information given in the Directors' Report for the year ended 30 June 2020 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.
- Based on our knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified any material misstatements in the Directors' Report.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Directors' Responsibilities set out on page 5, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view.

The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's and Funds' ability to continue as going concerns, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA website at:

https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description of auditors responsib ilities for audit.pdf.

This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the Company's members as a body in accordance with section 391 of the Companies Act 2014 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2014 opinions on other matters

- We have obtained all the information and explanations which we consider necessary for the purposes of our audit.
- In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited.
- The financial statements are in agreement with the accounting records.

Companies Act 2014 exception reporting

Directors' remuneration and transactions

Under the Companies Act 2014 we are required to report to you if, in our opinion, the disclosures of directors' remuneration and transactions specified by sections 305 to 312 of that Act have not been made. We have no exceptions to report arising from this responsibility.

Manager's Report

Investment Manager as at 30 June 2020

Russell Investment Limited

Money Manager as at 30 June 2020

Janus Capital International Limited

Investment Objective

Russell Investments Global High Dividend Equity (the "Fund") aims to provide long-term capital appreciation from a portfolio comprised predominantly of equities and equity-related instruments.

Fund Performance

During the financial year ended 30 June 2020, the Fund (Class P US\$ Income) returned -9.9 per cent on a gross-of-fee basis* (-10.5 per cent on a net-of-fee basis), while the benchmark** returned 2.1 per cent.

Market Comment

The benchmark was flat in the third quarter of 2019. Political tensions were prominent throughout the period. Trade concerns between the US and China, mixed Brexit developments and a late impeachment inquiry into US President Donald Trump, were drivers of market uncertainties. the Federal Reserve (Fed) cut its interest rate in July and September (to 2.0 per cent). The Fed also injected a further USD 75 billion into the US financial system. Unsurprisingly, Donald Trump repeated criticism against the Fed's monetary policy, labelling Fed Chair Powell "clueless". However, President Trump had his own problems, as a late impeachment inquiry added a cloud over market sentiment. The Bank of England (BoE) unanimously held rates at 0.75 per cent but warned of "entrenched uncertainty" over Brexit. This came as Boris Johnson experienced a tough time as UK's new Prime Minister. He lost all seven of his Commons votes, as well as finding his decision to prorogue Parliament as unlawful by the Supreme Court. The European Central Bank (ECB) also cut its interest rate to a record low of -0.5 per cent and is set to restart quantitative easing at a rate of EUR 20 billion worth of bonds per month from November. In Japan, the Bank of Japan kept its monetary policy on hold but recognised that it may have to step in amid slowing global growth. Prime Minister Shinzo Abe is also set to increase the country's consumption tax from 8 per cent to 10 per cent on 1 October, in order to address ballooning social security costs.

The benchmark increased 9.0 per cent in the fourth quarter of 2019. The trade spat between the US and China dominated the period, let alone the whole year. However, over the final quarter, a "phase one" of a trade deal was reached between the world's two largest economies, boosting global investor sentiment. China aided this development by taking measures such as announcing intentions to reform its intellectual property (IP) laws in order to curtail IP theft. The Fed cut its benchmark interest rate for the third time this year in October by 25 basis points (bps) to 1.75 per cent. This marked the end of its mid-cycle adjustment approach. The Fed explained that no further adjustments were necessary "as long as incoming information about the economy did not result in a material reassessment of the economic outlook". Meanwhile, the BoE continued to voice concerns about Brexit, however it did announce that the UK banking system was "resilient" to even the most disorderly exit. UK Prime Minister Boris Johnson's Conservative Party won a commanding majority in the general election, easing political uncertainty. The probability that the UK would leave the European Union before 31 January 2020 deadline also increased, after Parliament passed Prime Minister Johnson's amended Brexit Withdrawal Agreement - which prevented any further extension to trade negotiations beyond the end of the transition period (31 December 2020). Meanwhile, new ECB President Christine Lagarde kept rates unchanged in her first policy meeting and revised the eurozone's 2020 growth forecast downwards to 1.4 per cent.

The benchmark decreased 21.4 per cent in the first quarter of 2020. experiencing one of the worst quarters since 2008. The S&P 500, for example, experienced the fastest fall into a bear market on record, whilst the FTSE 100 had its worst quarter since 1987. As the quarter progressed, the World Health Organisation characterised the global spread of the Covid-19 as a pandemic. Over the period, oil prices slumped owing to a price war between Russia and Saudi Arabia and the US dollar strengthened on the back of its perceived "safe-haven" status. In response to the obvious deterioration of the economy, the Fed dropped interest rates to a range of 0 to 0.25 per cent and added an extra USD 700 billion in asset purchases (amongst other supportive measures). The US government also managed to agree to a USD 2.2 trillion fiscal stimulus deal. Meanwhile, the BoE slashed its interest rate to a record low of 0.1 per cent and expanded its quantitative easing programme by GBP 200 billion. The UK government also revealed several packages including a job retention scheme that pays up to 80 per cent of employees' salaries. The ECB, meanwhile, did not have much room to manoeuvre with its zero percent interest rate position. However, it unleashed an emergency EUR 750 billion package called the Pandemic Emergency Purchase Programme. Additionally, eurozone governments, including Germany, have also promised large fiscal stimulus programmes. In January, China and the US finally signed "phase one" of a potential wider trade agreement, buoying global markets. Any market optimism was short lived as Chinese authorities had to lock down the Hubei province, where the coronavirus outbreak began, in order to help contain the spread.

Manager's Report - continued

The benchmark increased by 19.2 per cent in the second quarter of 2020. Despite the painful economic fallout from the lockdowns, the severe "risk-off" market environment in the first quarter largely reversed over the second quarter. The concerted support of monetary policy and a further opening of fiscal taps drove a rapid recovery in risk appetite. For example, the S&P 500 index experienced the largest rise since the final quarter of 1998. The market also latched onto positive news regarding potential vaccines and treatments against Covid-19. Additionally, after a record collapse in oil demand, oil prices crawled upwards over the period, largely helped by agreed production cuts. Fears of a second wave of coronavirus infections, as well as escalating tensions between the US and China on trade, the origins of Covid-19 and China's new security law on Hong Kong, remained in investors' thoughts. The Fed kept rates unchanged over the quarter, it continued to expand its support programmes and by doing so, "crossed a lot of red lines, that had not been crossed before", according to Fed Chair Jerome Powell. For example, the Fed added a further USD 2.3 trillion monetary stimulus to be used as loans for small businesses and consumers, as well as for states, cities and municipalities. The BoE kept rates unchanged at 0.1 per cent, but expanded its quantitative easing programme by GBP 100 billion to a total of GBP 745 billion by the end of the year. Additionally, UK Chancellor of the Exchequer, Rishi Sunak, extended the country's furlough scheme until October and announced that small firms will be able to get interest free "bounce-back" loans worth up to GBP 50,000 under a new emergency micro-loans scheme – which will crucially be 100 per cent guaranteed by the government. In mainland Europe, the German Constitutional Court's spat with the ECB over its stimulus programme, seemed to cool off towards the end of the quarter.

General Comment on Managers Performance

The Fund finished behind the benchmark in the third quarter of 2019. In factor performance, the Fund's selection of higher yielding stocks failed to find traction over the period. In sectors, meaningful gains were generated through stock selection within the financials (Wells Fargo), communication services (Alphabet) and industrials (BAE Systems) sectors. However, these were offset by holdings within the health care, technology and consumer discretionary sectors.

The Fund finished behind the benchmark in the fourth quarter of 2019. In factor performance, the Fund's high yield bias failed to find traction over the period. In sectors, meaningful gains were generated through stock selection within the communication services (Z Holdings) and industrials (Travis Perkins) sectors. These were offset, however, by holdings within the technology, health care and financials sectors.

The Fund finished behind the benchmark in the first quarter of 2020. The Fund's high dividend yield bias was not suited to the prevailing market environment. An overweight allocation towards deeper value and the small-cap spectrum was also negative. In sectors, an underweight allocation to energy, overweight allocation to health care and stock selection within the real estate sector, generated meaningful gains. However, these were offset by overall holdings within the financials and consumer discretionary sectors. An underweight to technology was also negative.

The Fund was positive in absolute terms but finished behind the benchmark in the second quarter of 2020. Dividend styles lagged owing to doubts over dividend sustainability in the prevailing market environment. In sectors, holdings within health care and technology drove underperformance, through names such as Pfizer and Johnson & Johnson, as well as an underweight position to technology company Apple.

Past performance is no indication of present or future performance.

Manager's Report

Investment Manager as at 30 June 2020

Russell Investments Management, LLC

Money Manager as at 30 June 2020

Cohen & Steers Capital Management, Inc. Colonial First State Asset Management Limited Nuveen Asset Management LLC

Investment Objective

Russell Investments Global Listed Infrastructure (the "Fund") aims to provide long-term capital appreciation from a portfolio comprised predominantly of equities, equity-related instruments and trust units.

Fund Performance

During the financial year ended 30 June 2020, the Fund (Class I US\$) returned -11.1 per cent on a gross-of-fee basis* (-12.0 per cent on a net-of-fee basis), while the benchmark** returned -15.4 per cent.

Market Comment and Fund's Performance

The benchmark finished with a positive return during the third quarter of 2019 (+0.4 per cent), underperforming the broader market as fluctuating trade tensions continued to impact investor sentiment. In the U.S., the 10-year Treasury yield decreased 32 basis points (bps) during the quarter, while falling sharply to the lowest levels since July 2016 in August and rising in September as the White House discussed the possibility of a limited trade agreement with China. In this environment, both electric and multi-utilities were the strongest and only positive performers, outperforming the broader infrastructure index by a wide margin. The transport sector finished with large declines during the quarter on increasing trade and political tensions between the U.S. and China. At the regional level, North America led the index with strong positive performance followed by UK, while EMEA ex UK, Asia ex Japan and Emerging Market (EM) finished in the negative territory.

The benchmark finished with a strong positive return during the final quarter of 2020 (+4.90 per cent), while underperforming the broader market as major equities ended the period at new record highs and investor sentiment improved on a phase one U.S.-China trade deal as well as political certainty in the UK. The more cyclical sectors, such as transportation were the best performers benefitting from strong performance within Emerging Markets (EM), followed by energy pipelines as West Texas Intermediate (WTI) prices advanced amid improving macroeconomic sentiment, which supported demand expectations. At the regional level, all global markets posted positive returns with EM and UK in the lead with double digit performance, followed by Asia ex Japan and EMEA ex UK while North America finished with weakest performance.

The benchmark declined (-29.31 per cent) in first quarter of 2020, while underperforming the broader equity market, which experienced its worst quarter since the financial crisis as the coronavirus chilled economic activity and rattled investor confidence. In the U.S., the 10-year Treasury yield hit record lows, down 122bps ending at 0.70, as investors have turned to 'safe-haven' assets. In this environment, all sectors posted negative performance with utilities ahead of the broader index while the transportation and energy sectors were the weakest as a result of weak travel volumes and large declines in energy prices. At the regional level, all regions posted negative performance. UK and North America outperformed the index, followed by Continental Europe, Asia ex Japan and Emerging Markets finished with the weakest performance.

The benchmark delivered positive returns (13.6 per cent) in the second quarter of 2020, although infrastructure stocks on average lagged the broader global equity market. While overall performance was quite positive, an environment of elevated volatility persisted through the quarter. Ongoing concerns over reduced volumes of travel and trade were ultimately overwhelmed by the tailwinds of policy support, recovering energy prices, and a gradual pivot toward the reopening of businesses. With respect to infrastructure sub-sector, asset categories with more defensive or heavily regulated businesses tended to underperform relative to more cyclically sensitive sectors. Transportation infrastructure was on average the strongest category, while energy pipelines and utilities posted more modest but still positive results. At the regional level, all major markets outside of Japan posted positive returns. Asia ex-Japan and Continental Europe registered the strongest gains, while North America and the United Kingdom logged more modest results and Japan finished the quarter slightly down.

OpenWorld plc Russell Investments Global Listed Infrastructure

Manager's Report - continued

General Comment on Managers/Performance

The Fund outperformed the benchmark over the third quarter of 2019, driven by an underweight to the transportation infrastructure sector and overweight to the equity real estate investment trust sector. An overweight to the construction & engineering sector and stock selection within the gas utilities sector was also rewarded. However, this was moderated by an underweight to electric utilities and negative stock selection within the oil gas & consumer fuels sector. At the country level, stock selection in Spain, Brazil and Canada was positive. Conversely, stock selection in the US detracted and partially offset this positive effect.

The Fund underperformed the benchmark for the last quarter of 2019, as geopolitical tensions eased and pushed investors towards riskier assets. An underweight to the transportation infrastructure sector and negative stock selection within the oil gas & consumable fuels sector drove underperformance. An overweight to real-estate investment trusts (REITs) was also negative. However, positive stock selection within the electric utilities sector partially offset this negative effect. At the country level, an overweight to Japan and stock picking within Australia and the US detracted. However, this was moderated by positive stock picking within the UK. An underweight to Italy also proved beneficial.

The Fund outperformed the benchmark for the first quarter of 2020. An underweight to the transportation sector drove performance, as the airports and passenger rail subsectors struggled due to the globally enforced lockdowns owing to the spread of the COVID-19 pandemic. An overweight to real-estate investment trusts (REITs) and the diversified telecommunication services sector also contributed. This was moderated however, by an underweight to the electric utilities sector and negative stock selection within the gas utilities sector. At the country level, stock selection in Canada, Australia and the UK generated strong gains. Stock picks in France, Italy, Mexico and US also contributed to excess returns.

The Fund marginally outperformed, driven by an underweight to the electric utilities sector. An overweight to the construction & engineering sector also contributed to excess returns. However, an underweight to the transportation sector detracted, as economies began opening up, increasing the activity within the airports and passenger rail subsectors. At the country level, an overweight to China and strong stock selection in the US was rewarded. This was moderated, however, by an underweight to Australia. Australia's positive performance can be somewhat tied to the loosening of restrictions as the country managed to contain the virus and return to 'business as usual' in most facets of life.

Past performance is no indication of current or future performance.

Manager's Report

Investment Manager as at 30 June 2020

Russell Investments Limited

Investment Objective

Russell Investments Global Low Carbon Equity Fund (the "Fund") seeks to achieve capital appreciation by investing predominantly in equities and equity-related instruments that are listed, traded or dealt in on any regulated market worldwide. The Fund will not concentrate on any specific markets, industry sectors, countries or companies with a certain market capitalisation but will pursue a policy of active stock allocation on the regulated markets in which it invests.

Fund Performance

During the financial year ended 30 June 2020, the Fund (Class A US\$) returned 3.8 per cent on a gross-of-fee basis* (3.3 per cent on a net-of-fee basis), while the benchmark** returned 2.8 per cent.

Market Comment

The benchmark rose 0.5 per cent in the third quarter of 2019. Political tensions were prominent throughout the period. Trade concerns between the US and China, mixed Brexit developments and a late impeachment inquiry into US President Donald Trump, were drivers of market uncertainties. The US Federal Reserve (Fed) cut its interest rate in July and September (to 2.0 per cent). The Fed also injected a further USD 75 billion into the US financial system. Unsurprisingly, Donald Trump nepeated criticism against the Fed's monetary policy, labelling Fed Chair Powell "clueless". However, President Trump had his own problems, as a late impeachment inquiry added a cloud over market sentiment. Across the pond, the Bank of England (BoE) unanimously held rates at 0.75 per cent but warned of "entrenched uncertainty" over Brexit. This comes as Boris Johnson experienced a tough time as UK's new Prime Minister. He lost all seven of his Commons votes, as well as finding his decision to prorogue Parliament as unlawful by the Supreme Court. The European Central Bank (ECB) also cut its interest rate to a record low of -0.5 per cent and is set to restart quantitative easing at a rate of EUR 20 billion worth of bonds per month from November. In Japan, the Bank of Japan kept its monetary policy on hold but recognised that it may have to step in amid slowing global growth. Prime Minister Shinzo Abe is also set to increase the country's consumption tax from 8 per cent to 10 per cent on October 1st, in order to address ballooning social security costs.

The benchmark increased by 8.6 per cent per cent in quarter four in 2019. The trade spat between the US and China dominated the period, let alone the whole year. However, over the final quarter, a "phase one" of a trade deal was reached between the world's two largest economies, boosting global investor sentiment. China aided this development by taking measures such as announcing intentions to reform its intellectual property (IP) laws in order to curtail IP theft. The Fed cut its benchmark interest rate for the third time this year in October by 25 basis points (bps) to 1.75 per cent. This marked the end of its mid-cycle adjustment approach. The Fed explained that no further adjustments were necessary "as long as incoming information about the economy did not result in a material reassessment of the economic outlook". Meanwhile, the BoE continued to voice concerns about Brexit, however it did announce that the UK banking system was "resilient" to even the most disorderly exit. UK Prime Minister Boris Johnson's Conservative Party won a commanding majority in the general election, easing political uncertainty. The probability that the UK would leave the European Union before the 31 January 2020 deadline also increased, after Parliament passed Prime Minister Johnson's amended Brexit Withdrawal Agreement - which prevented any further extension to trade negotiations beyond the end of the transition period (31 December 2020). Meanwhile, new ECB President Christine Lagarde kept rates unchanged in her first policy meeting and revised the eurozone's 2020 growth forecast downwards to 1.4 per cent.

The benchmark decreased 21.1 per cent in the first quarter of 2020, experiencing one of the worst quarters since 2008. The S&P 500, for example, experienced the fastest fall into a bear market on record, whilst the FTSE 100 had its worst quarter since 1987. As the quarter progressed, the World Health Organization characterised the global spread of the Covid-19 as a pandemic. Over the period, oil prices slumped owing to a price war between Russia and Saudi Arabia and the US dollar strengthened on the back of its perceived "safe-haven" status. In response to the obvious deterioration of the economy, the Fed dropped interest rates to a range of 0 to 0.25 per cent and added an extra USD 700 billion in asset purchases (amongst other supportive measures). The US government also managed to agree to a USD 2.2 trillion fiscal stimulus deal. Meanwhile, the BoE slashed its interest rate to a record low of 0.1 per cent and expanded its quantitative easing programme by GBP 200 billion. The UK government also revealed several packages including a job retention scheme that pays up to 80 per cent of employees' salaries. The ECB, meanwhile, did not have much room to manoeuvre with its zero percent interest rate position. However, it unleashed an emergency EUR 750 billion package called the Pandemic Emergency Purchase Programme. Additionally, eurozone governments, including Germany, have also promised large fiscal stimulus programmes. In January, China and the US finally signed "phase one" of a potential wider trade agreement, buoying global markets. Any market optimism was short lived as Chinese authorities had to lock down the Hubei province, where the coronavirus outbreak began, in order to help contain the spread.

Manager's Report - continued

The benchmark increased by 19.4 per cent in the second quarter of 2020. Despite the painful economic fallout from the lockdowns, the severe "risk-off" market environment in the first quarter largely reversed over the second quarter. The concerted support of monetary policy and a further opening of fiscal taps drove a rapid recovery in risk appetite. For example, the S&P 500 index experienced the largest rise since the final quarter of 1998. The market also latched onto positive news regarding potential vaccines and treatments against Covid-19. Additionally, after a record collapse in oil demand, oil prices crawled upwards over the period, largely helped by agreed production cuts. Fears of a second wave of coronavirus infections, as well as escalating tensions between the US and China on trade, the origins of Covid-19 and China's new security law on Hong Kong, remained in investors' thoughts. The Fed kept rates unchanged over the quarter, it continued to expand its support programmes and by doing so, "crossed a lot of red lines, that had not been crossed before", according to Fed Chair Jerome Powell. For example, the Fed added a further USD 2.3 trillion monetary stimulus to be used as loans for small businesses and consumers, as well as for states, cities and municipalities. The BoE kept rates unchanged at 0.1 per cent, but expanded its quantitative easing programme by GBP 100 billion to a total of GBP 745 billion by the end of the year. Additionally, UK Chancellor of the Exchequer, Rishi Sunak, extended the country's furlough scheme until October and announced that small firms will be able to get interest free "bounce-back" loans worth up to GBP 50,000 under a new emergency micro-loans scheme – which will crucially be 100 per cent guaranteed by the government. In mainland Europe, the German Constitutional Court's spat with the ECB over its stimulus programme, seemed to cool off towards the end of the quarter.

General Comment on Managers Performance

The Global Low Carbon Fund outperformed over the financial year ended June 2020. Its systematic underweight to the more carbon-intensive sectors was the main driver of performance, particularly the underweight to the energy sector which underperformed due to falling oil prices. An underweight to materials, as well as a bias towards precious metals companies within the sector was also beneficial as industrial metal prices fell due to COVID-19 related slowdown fears. Performance is in-line with expectations for the strategy which aims to replicate the returns of the MSCI World Index while halving the portfolio's carbon footprint and carbon reserves, and increasing the ESG score and exposure to green energy.

Past performance is no indication of current or future performance.

*Class A ** Benchmark source: MSCI World Net

Notes to the Financial Statements

30 June 2020

1. Basis of Preparation

a) Statement of Compliance

The Company's financial statements are prepared in accordance with accounting standards generally accepted in Ireland ("Irish GAAP") including Financial Reporting Standard 102 ("FRS 102"), the financial reporting standard applicable in the UK and Republic of Ireland, Irish statute comprising the Companies Act and the provisions of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the "UCITS Regulations"). Irish GAAP, in preparing financial statements which present a true and fair view, are those issued by the Financial Reporting Council ("FRC"). The Companies Act prescribed formats for financial statements have been adapted to make them more applicable to investment funds.

The financial statements are prepared on a going concern basis for all Funds.

The Company has availed of the exemption available to open ended investment funds that hold a substantial proportion of highly liquid and fair valued investments under Section 7 of FRS 102 and is not presenting cash flow statements. The information required by FRS 102 to be included in a statement of comprehensive income, is, in the opinion of the Directors, contained in the Profit and Loss Account of each Fund.

Investments on each individual Schedule of Investments less than 500 in value in the presentation currency of the respective Fund are rounded to zero. The transferable securities listed on each Fund's Schedule of Investments are listed in the order of country of incorporation of the respective security.

b) Combined Financial Statements

The combined financial statements of the Company are measured using Euro, being the functional currency of the primary economic environment in which it operates. The Company has also adopted Euro as the presentation currency. The financial statements of each Fund are prepared in the functional currency of the respective Fund, U.S. Dollar (USD). The accounts of the individual Funds are translated into Euro and accumulated for preparation of the combined financial statements.

For the purpose of producing the Combined Balance Sheet, respective financial year end exchange rates are used. For the purpose of producing the Combined Profit and Loss Account and the Combined Statement of Changes in Net Assets Attributable to Redeemable Participating Shareholders, the average exchange rates for the respective financial year are used. The currency gain or loss on retranslation of opening net assets, and the average rate difference arising on the translation of the Combined Profit and Loss Account and the Combined Statement of Changes in Net Assets Attributable to Redeemable Participating Shareholders, is included in the Combined Statement of Changes in Net Assets Attributable to Redeemable Participating Shareholders. This translation adjustment does not impact the net asset value per share of any of the individual Funds.

c) Estimates and judgements

The preparation of financial statements in conformity with Irish GAAP requires the use of certain critical accounting estimates. It also requires the Board of Directors, based on the advice of the Manager, to exercise its judgement in the process of applying the Company's accounting policies. Management also makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are determining fair values of certain financial instruments, as discussed in section a) of Note 2 to the financial statements and determining the functional currency of the Company and individual Funds as discussed in section d) of Note 2 to the financial statements.

Notes to the Financial Statements - continued

30 June 2020

2. Accounting Policies

The significant accounting policies adopted by the Company for the financial year ended 30 June 2020 are as follows:

a) Financial Instruments at Fair Value through Profit or Loss

This category has two sub-categories: financial assets and liabilities held for trading, and those designated by Directors at fair value through profit and loss at inception. All instruments on each Fund's Schedule of Investments are classified at fair value through profit or loss. Subsequent to initial recognition, all instruments classified at fair value through profit or loss are measured at fair value with changes in their fair value recognised in the Profit and Loss Account.

i) Investments

Securities listed on a recognised stock exchange or traded on any other regulated market are valued at the current last traded market price on the stock exchange or market which constitutes the principal market for such securities. When applicable, the Manager or a delegate of the Manager i.e. Russell Investments Securities Valuation Committee EMEA (the "SVC") will assess unlisted and suspended securities for their net realisable value or the last traded price from broker-dealers for non-exchange-trade purposes. In some cases, fair value techniques may be adopted. Such techniques involve significant estimations and assumptions which means that the value from the technique may differ from the value when it is eventually realised.

The SVC will review any stale price securities and may consider adjustments should the stale price be deemed not the fair value of the security based on market information provided.

Investments in open-ended investment funds are valued at fair value at the latest available unaudited net asset value for the shares or units obtained from the relevant administrator. The changes in the daily net asset value of these shares are recognised as net gain (loss) on investment activities in the Profit and Loss Account.

ii) Forward and Spot Foreign Currency Exchange Contracts

The fair value of open forward foreign currency exchange contracts, and open foreign currency exchange spot contracts, is calculated as the difference between the contracted rate and the current forward rate that would close out the contract on the balance sheet date. For each relevant Fund, gains or losses on open foreign currency exchange spot contracts are included in cash at bank in the Balance Sheet and gains or losses on open forward foreign currency exchange contracts are included in financial assets or liabilities at fair value through profit or loss, as appropriate, on the Balance Sheet and Schedule of Investments.

iii) Futures Contracts

Initial margin deposits are made upon entering into futures contracts and are generally made in cash or cash equivalents. The fair value of futures contracts is based upon their current quoted daily settlement prices on the relevant exchange as of the balance sheet date. Changes in the value of open futures contracts are recognised as unrealised gains or losses on futures contracts until the contracts are terminated, at which time realised gains and losses are recognised. For each relevant Fund, gains or losses on open futures contracts are shown in the Schedule of Investments of each relevant Fund and as appropriate, on the Balance Sheet as financial assets or liabilities at fair value through profit or loss.

Notes to the Financial Statements - continued

30 June 2020

2. Accounting Policies - continued

b) Net Gain (Loss) on Investment Activities

In respect of each instrument type classified as financial instruments at fair value through profit or loss, the movement in unrealised gains (losses) since the prior year end and realised gains (losses) are recognised within net gain (loss) on investment activities in the Profit and Loss Account for each relevant Fund.

See Note 4 for details of realised gains (losses) and movement in unrealised gains (losses) since the prior financial year end. Gains and losses on foreign currency exchange contracts are included in foreign currency exchange gains (losses).

c) Accounting for Investment Transactions, Income and Expenses

Purchases and sales of investments are recognised on trade date, the date on which the Fund commits to purchase or sell the asset, provided the trade instructions have been received by the Depositary prior to the calculation of the Fund's net asset value, being 2.30pm (Irish time) on each dealing day (the "Valuation Point"). Any trade instructions received by the Depositary after the Valuation Point will be recognised on the next dealing day. Investments are initially recognised at fair value and transaction costs for all financial assets and financial liabilities carried at fair value through profit or loss are expensed as incurred.

Investments are recognised when the rights to receive cash flows from the investments are transferred to the Fund or the Fund has exposure to substantially all risks and rewards of ownership. Investments are derecognised when the rights to receive cash flows from the investments have expired or the Fund has transferred substantially all risks and rewards of ownership.

Realised gains and losses on investment transactions are calculated using the average cost method. Gains and losses realised on the sale of all financial assets and financial liabilities carried at fair value through profit or loss are recognised in the Profit and Loss Account.

Dividends are credited to the Profit and Loss Account on the dates on which the relevant securities are listed as "ex dividend". Income is accounted for gross of any non-reclaimable/irrecoverable withholding taxes and net of any tax credits. The withholding tax is shown separately in the Profit and Loss Account.

The Funds may be subject to taxes imposed by certain countries on capital gains on the sale of investments. Taxes may be imposed by countries including Brazil, India, Indonesia, Bangladesh and Colombia. Capital gains taxes are accounted for on an accruals basis for these countries and are shown as a separate item under taxation in the Profit and Loss Account.

Each Fund pays all of its expenses and such proportion of the Company's expenses as is allocated to that Fund, other than those expressly assumed by the Manager. The costs and gains (losses) of any hedging transactions will be attributable to the relevant Share Class. To the extent that expenses are attributable to a specific Share Class of a Fund, that Share Class bears such expenses. All expenses, as disclosed in the Profit and Loss Account, with the exception of Professional and Other fees, are accrued on a daily basis. Professional fees and Other fees recognised in the Profit and Loss Account are generally charged and paid when billed to the Funds.

Notes to the Financial Statements - continued

30 June 2020

2. Accounting Policies - continued

d) Foreign Currency Transactions

In accordance with Section 30 of FRS 102, items included in the individual Fund's financial statements are measured using the currency of the primary economic environment in which it operates (functional currency). The Directors' selection of the functional currency is attributable to the functional currency being: (a) the major component of the Fund's benchmarks; or (b) the common currency of monies received on subscriptions and paid out on redemptions of shares for most clients in the Fund's varied client base or (c) the common currency of the majority of the investments held on the Fund. The functional currency assessment is done on a Fund by Fund basis. The functional currency of the Company is the Euro.

Each individual Fund has also adopted its functional currency as the presentation currency. Foreign currency transactions are translated to the functional currency of the relevant Fund at the rate of exchange ruling on the date of the transaction.

For each relevant Fund:

- (i) Currency gains and losses can arise where there is a difference between the amounts of foreign dividends and interest recorded on the Fund's books and the Fund's functional currency equivalent to the amounts actually received or paid. These gains or losses are included where appropriate in the dividend and interest income figure in the relevant Fund's Profit and Loss Account;
- (ii) Currency gains and losses realised on securities purchase and sales transactions are included in net gain (loss) on investment activities in the relevant Fund's Profit and Loss Account;
- (iii) Unrealised currency gains and losses on securities held at year end are included in net gain (loss) on investment activities in the relevant Fund's Profit and Loss Account;
- (iv) Monetary assets and liabilities denominated in currencies other than the Fund's functional currency are translated at the rate of exchange ruling at the close of business on the relevant reporting date and exchange differences are included in net gain (loss) on investment activities in the relevant Fund's Profit and Loss Account; and
- (v) Share transactions which are settled in a currency other than the functional currency of a Fund are settled using the applicable foreign currency exchange rate as of the trade date. As a result, there is no foreign currency impact on the Funds for such transactions.

e) Redeemable Participating Shares

Redeemable participating shares are redeemable at the shareholder's option and are classified as financial liabilities. The redeemable shares can be repurchased by the Company at any time for cash equal to a proportionate share of the Company's net asset value. The redeemable share is carried at the redemption amount that is payable at the balance sheet date if a shareholder exercised his or her right to have the Company repurchase his or her share. In accordance with the Prospectus, for the relevant Funds, the Company is contractually obliged to redeem shares at dealing prices and the liability to redeemable participating shareholders has been adjusted to reflect this. Monetary value share transactions during the financial year are recognised in the Statement of Changes in Net Assets Attributable to Redeemable Participating Shareholders of the relevant Fund.

f) Distributions

Distributions on Income Class Shares and deemed distributions on Accumulation Class Shares with an ex-date during the financial year are included as a finance cost in the Profit and Loss Account. The reinvestment of the deemed distributions on the Accumulation Class Shares are included as a share transaction in the Statement of Changes in Net Assets Attributable to Redeemable Participating Shareholders.
30 June 2020

2. Accounting Policies - continued

g) Swing Pricing/Dilution Adjustments

Swing pricing (also known as dilution adjustment) is applied to a Fund once net subscriptions or redemptions for a Fund relating to a Fund's net asset value for a given dealing day is determined by the Administrator to exceed certain predetermined percentage thresholds. In calculating the swing pricing, the net asset value of a Fund is swung by a "swing factor" on the following basis:

Net subscriptions - the price used to process all transactions is adjusted upwards by the swing factor to a notional offer price.

Net redemptions - the price used to process all transactions is adjusted downwards by the swing factor to a notional bid price.

If the net asset value of a Fund is swung on a specific dealing day the official price for a Fund will be the derived swing price. In addition, all dealing activity for this dealing day will be dealt at the swing price. Swing pricing applied to a Fund during the financial year is recognised within the share transactions figure on the Statement of Changes in Net Assets Attributable to Redeemable Shareholders. The swing factor rate, as discussed in Note 10, are reviewed by the Adviser on a quarterly basis.

h) Collateral

i) Collateral Pledged by Funds

A Fund's assets may be deposited by or on behalf of the Fund for collateral purposes with brokers, for options and futures contracts, and counterparties, in respect of over-the-counter FDIs ("OTC FDIs"), held on the Funds. Such assets remain in the ownership of the relevant Fund and are recorded as an asset on the Balance Sheet. Cash pledged by the Funds as collateral is recognised on the Balance Sheet within 'Cash held with brokers and counterparties for open financial derivative instruments'.

See Note 3 for details of cash collateral received and pledged by the Funds to and from counterparties for FDIs.

ii) Impairment of Collateral

The Adviser has considered the recoverability of collateral due from relevant brokers and counterparties at financial year end/prior financial year end and has considered the need to write-down the value of such collateral. The Adviser is satisfied that the full value of the collateral is recoverable from all brokers and counterparties at the respective financial year end dates.

i) Transaction Costs

Transaction costs are defined as the incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument. When a financial asset or financial liability is recognised initially, an entity shall measure it at its fair value through profit or loss plus, transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

Transaction costs relating to the brokers commission on the purchase and sale of a financial asset or financial liability, are included in its purchase and sale price. Transaction costs of the Depositary or sub-custodian as the case may be are embedded in the relevant fees in the Profit and Loss Account.

30 June 2020

3. Cash at Bank and Cash Held with/due to Brokers and Counterparties

a) Cash at Bank

Cash at bank balances are comprised of cash balances held within State Street Bank and Trust Company's ("State Street") custodian network*, unrestricted margin accounts held by brokers for exchange traded derivative instruments held by the Funds and net unrealised gains and losses on open spot foreign currency exchange contracts. The names of brokers used by each individual Fund can be found at the base of each relevant Fund's Schedule of Investments.

The tables in this section of the note to the financial statements details all such cash held on the Funds, including relevant broker and location of broker, as of 30 June 2020 and 30 June 2019. For Funds where all cash is held in State Street's custodian network, the Funds are not listed below.

Cash held in U.S. Dollar bank accounts with State Street automatically transfer into the demand deposit account at State Street Bank and Trust New York in the name of State Street Bank and Trust Company - London.

As at 30 June 2020

Broker	Location	Russell Investment Global Low Carbon USD '000	Total EUR '000
State Street Bank & Trust Company UBS Securities LLC	London, United Kingdom	396 25	353 22
		421	375

* Certain cash balances may be held by sub-custodians, as approved and appointed by State Street, in markets where State Street does not operate as a depositary.

b) Cash held with brokers and counterparties for open financial derivative instruments

Cash may also be deposited by or on behalf of the Funds for initial margin purposes with brokers for options and futures contracts and as collateral with counterparties in respect of OTC FDIs held on the Funds. As this amount is the minimum deemed by the brokers and counterparties for collateral requirements the cash is as such restricted and is reported separately to the unrestricted cash on the Funds' Balance Sheets.

All such cash held on the Funds, including relevant broker and location of broker, as of 30 June 2020 and 30 June 2019 are detailed in the tables below.

As at 30 June 2020 Broker	Location	Russell Investments Global High Dividend Equity USD '000	Russell Investment Global Low Carbon USD '000	Total EUR '000
UBS Securities LLC	London, United Kingdom	5,588	232	5,182
		5,588	232	5,182

5. Transactions with Related Parties

a) Related Parties

Parties are considered to be related if one party has the ability to control the other party or is able to exercise significant influence over the other party, in making financial or operational decisions. The following entities were related parties to the Company during the financial year ended 30 June 2020 and the financial year ended 30 June 2019.

Relation to the Company	Name of entity	Details disclosed in section of this note
Manager	Russell Investments Ireland Limited	b), i)
Adviser	Russell Investments Limited	b), ii)
Investment Managers	Affiliated Russell Investments entities	b), iii)
Affiliated Broker	Russell Investments Implementation Services	b), iv)
Directors of the Company	As listed in the Administration of the Company page	b), v)
	Affiliated Russell Investments entities and Russell Investments managed Irish domiciled funds	b), vi)

b) Related Party Transactions

i) Manager, Management Fee and Performance Fee

The Company has appointed the Manager to act as manager of the Company. The Manager is a wholly owned subsidiary of Russell Investments Ireland Holdco Limited, which is in turn indirectly owned by Russell Investments Group, Ltd. Russell Investments Group, Ltd. is majority owned by funds managed by TA Associates with minority stakes being held by funds managed by Reverence Capital Partners and Russell Investments' management. The Manager provides investment management and administrative services to the Company. The Manager has appointed the Adviser to, amongst other things, advise it on the investment programmes and strategies of the Funds. The Adviser also acts as Distributor for the Funds. The Manager has appointed the Administrator to act as administrator of the Company.

a) Management Fee

For services rendered under the management agreement, the Company pays the Manager a fee, accrued daily and paid monthly in arrears, at the following annual rates (since 01 October 2019) based on the respective average daily net asset values of each class of shares.

Russell Investments Global H Dividend Equity	ligh	Russell Investments Global Listed Infrastructure		Russell Investment Global Low Carbon Equity Fu	nd
Class B EURO Income	1.80%	Class A US\$	1.60%	Class A EURO	0.30%

		Class N STG£	1.40%		
		Class P US\$	0.70%		

30 June 2020

5. Transactions with Related Parties - continued

The following management fee rates were effective from 1 July 2019 to 30 September 2019:

Russell Investments Global I Dividend Equity	High	Russell Investments Global Listed Infrastructure		Russell Investment Global Low Carbon Equity Fu	nd
Class B EURO Income	1.90%	Class A US\$	1.60%	Class A EURO	0.30%
Class B STG£ Income	1.90%	Class B EURO Income	2.00%	Class A US\$	0.30%
Class B US\$ Income	1.90%	Class B STG£ Income	2.00%	Class B Euro	1.00%
Class C EURO	2.60%	Class B US\$	2.00%		
Class I EURO Income	0.70%	Class C EURO	2.90%		
Class I STG£	0.70%	Class I EURO Income	0.80%		
Class I STG£ H	0.76%	Class I STG£	0.80%		
Class I STG£ Income	0.70%	Class I STG£ Income	0.80%		
Class I US\$	0.70%	Class I US\$	0.80%		
Class P US\$ Income	0.55%	Class I US\$ Income	0.80%		
		Class N STG£	1.40%		
		Class P US\$	0.70%		

Rates for classes of shares not yet funded as at 30 June 2020 are not listed.

b) Performance Fee

In addition to the applicable management fee, a performance fee may be payable from the assets of a Fund (other than in respect of Russell Investments Global Low Carbon Equity Fund).

A performance fee may accrue for each relevant Fund on each business day. The change in the cumulative performance fee accruing in respect of the Manager and a Money Manager's performance on each business day will never exceed 20 per cent of Positive Daily Performance (as defined in the Prospectus).

Performance fees of EUR 2,336,691 were charged of Russell Investments Global Listed Infrastructure Fund during the financial year under review (financial year ended 30 June 2019: EUR Nil).

ii) Adviser

The Manager discharges all fees payable to the Adviser out of its management fee. The Adviser does not receive a fee in its capacity as Distributor and UK Facilities Agent.

iii) Investment Managers and Money Managers

Russell Investments Limited and Russell Investment Management, LLC, are affiliated group companies to the Manager. Russell Investments group companies can be appointed as Investment Managers or Money Managers to the Funds.

The appointment of Russell Investments group companies as Investment Managers or Money Managers to the Funds is subject to the same procedures as appointing an external Money Manager or Investment Adviser and an intercompany agreement and investment guidelines are put in place.

The Manager shall discharge all fees payable to the Investment Managers and Money Managers, other than performance fees payable to the Investment Managers and Money Managers as described above, out of its management fee. The Manager shall arrange for the reimbursement of Investment Managers and Money Managers by the Company for reasonable out of pocket expenses properly incurred by them out of the relevant Fund's assets. Such reimbursement may be paid to the Manager who will in turn pay the Investment Managers and Money Managers.

Please refer to Administration section for the list of Investment Managers and Money Managers as of 30 June 2020.

30 June 2020

5. Transactions with Related Parties - continued

iv) Affiliated Broker

The Funds effect certain transactions through RIIS (Russell Investments Implementation Services, LLC and Russell Investments Implementation Services Limited, collectively called RIIS) and its global network of unaffiliated correspondent brokers. Trades placed through RIIS and its correspondents are made (i) to manage trading associated with changes in Money Managers, rebalancing across existing Money Managers, cash flows and other portfolio transitions or (ii) to execute portfolio securities transactions for each Fund's assets.

RIIS may also be engaged by the Company to carry out foreign currency implementation trading for which a fee of 0.02 per cent per trade is included in individual transactions.

For the financial year ended 30 June 2020, the total commission earned by RIIS, encompassing the range of services provided, amounted to EUR 65,440 (financial year ended 30 June 2019: EUR 66,236).

v) Directors and Directors' Fees

The Articles of Association provide that the Directors are entitled to a fee by way of remuneration at a rate to be determined from time to time by the Directors. Directors' fees are paid to non-executive Directors not employed by Russell Investments group companies. Directors' fees shall not exceed the limits contained in the Prospectus and the Directors are entitled to certain additional expenses as listed in the Prospectus. Directors' fees charged during the financial year ended 30 June 2020 were EUR 9,715 (financial year ended 30 June 2019: EUR 9,111), these amounts are included in other fees in the Combined Profit and Loss Account.

All of the Directors of the Company are also directors of the Russell Investments Funds discussed in section vi) of this note.

All of the Directors of the Company are also directors of the Manager. The following Directors of the Company are employed by Russell Investments group companies: Mr. Peter Gonella, Mr. Neil Jenkins, Mr. John McMurray, Mr. Joseph Linhares and Mr. William Pearce.

The Adviser operates a defined contribution pension plan for its employees which invests in Russell Investments managed funds including the Funds. The pension fund is subject to a management fee rebate. The Directors who are employed by Russell Investments group companies may be indirectly exposed to the Company through the pension scheme.

vi) Related Party Investors and Investees

a) Investment in other Russell Investments Funds

The Funds invest in the sub-funds of other investment funds managed by the Manager as listed in the table below. Details of the Fund's investments in these sub-funds can be found in the Schedule of Investments of each relevant Fund.

Fund Structure Name	Type of Fund Structure	Management Fee Rate
Russell Investment Company III plc	UCITS Umbrella	0.05% - 0.20%

30 June 2020

5. Transactions with Related Parties - continued

b) Related Party Shareholders of the Company

During the financial year ended 30 June 2020 and the financial year ended 30 June 2019, certain funds of openended investment funds also managed by the Manager were invested in the Funds. In accordance with Section 33 of FRS 102 these entities are deemed related party shareholders to the Company.

The table below discloses the value of related shareholders in the Company and the percentage of this value against the Company's combined net asset value as at the respective balance sheet dates.

Related Party Shareholder	30 June 2020 EUR '000	Company %	30 June 2019 EUR '000	Company %
FP Russell Investments ICVC	9,207	1.24	16,479	4.10
Russell Investments Institutional				
Funds plc	36,981	4.97	39,192	9.74
Russell Investment Company plc	2,774	0.37	3,957	0.98
Russell Investment Company V plc	8,682	1.17	7,514	1.87

6. Significant Agreements

i) Depositary

State Street Custodial Services (Ireland) Limited is the Company's depositary (the "Depositary"). The Depositary has appointed its parent, State Street, Bank and Trust Company, as its global sub-custodian who in turn has appointed a network of local sub-custodial agents. The sub-custodian fees are paid at annual rates based on the total assets held in each individual country in which the Funds invest plus applicable transaction charges. In line with the UCITS V Regulations, the Depositary also provides depositary services.

Depositary fees accrue daily and are paid monthly in arrears.

ii) Administrator and Transfer Agency

State Street Fund Services (Ireland) Limited is the Company's administrator. The Administrator is responsible for the daily determination of net asset value, maintaining the books and records of the Funds in respect of the Company and other administrative services. The Manager has also appointed the Administrator as the Company's transfer agent.

Such fees accrue daily and are paid monthly in arrears. The Manager shall discharge reasonable out of pocket expenses payable to the Administrator out of the Funds' assets.

The Administrator is also entitled to unitholder services fees as disclosed in the Administration Agreement and reporting services fees of USD 7,000 per Fund per annum.

Transfer agency fees are charged based on the number of Funds in the umbrella structure, the number of shareholders, number of statements issued, number of share classes and volume of shareholder transactions in a period and are subject to adequate thresholds. Transfer agency fees are charged and paid on a monthly basis and are recognised within Administration and transfer agency fees in the Profit and Loss Account for each Fund.

The depositary and administration fees disclosed in the Profit and Loss Account. If the total of the minimum fees is in excess of the combined administration and depositary percentage charges, the share class fee, the reporting service fee and the shareholder service fee, after the deduction of any discount, then this minimum will apply. The minimum fee for new Funds will be waived for one year from the launch of the new Fund.

The aggregate of the administration and depositary fees per Fund will not exceed 0.50 per cent of the Net Asset Value of any Fund.

30 June 2020

6. Significant Agreements - continued

iii) Transaction Costs

Transaction costs relating to the broker commission on the purchase and sale of bonds, equities, exchange traded FDIs and OTC FDIs, are included in the purchase and sale price of the investment.

Transaction costs on the purchase and sale of bonds and OTC FDIs are embedded in the cost of the investment. Transaction costs on purchases and sales of equities and exchange traded FDIs are readily identifiable. Investments are initially recognised at fair value and transaction costs for all financial assets and financial liabilities carried at fair value through profit or loss are expensed as incurred.

Total transaction costs, incorporating broker commissions and transaction costs of the Depositary and sub-custodians are as follows:

Fund	Functional Currency	Year ended 30 June 2020 <u>'000</u>	Year ended 30 June 2019 '000
Russell Investments Global High Dividend Equity	USD	137	141
Russell Investments Global Listed Infrastructure	USD	885	826
Russell Investment Global Low Carbon Equity Fund	USD	12	40

iv) Auditors' Remuneration

The remuneration for all work carried out by the statutory audit firm in respect of the financial year under review and prior financial year is as follows:

	2020	2019
	EUR '000	EUR '000
Statutory audit of accounts*	34	39
Tax advisory services **	14	21
Total	48	60

* The fees for statutory audit of the accounts disclosed in the table above are exclusive of VAT. The audit fees recognised in the Profit and Loss Account are inclusive of VAT.

** Exclusive of VAT.

There were no fees for other assurance services or other non-audit services during the financial year ended 30 June 2020 (financial year ended 30 June 2019: Nil).

7. Soft Commissions, Directed Brokerage Services and Commission Recapture

As disclosed in the Prospectus for the Company, each of the Money Managers and/or the Investment Managers may enter into transactions on a soft commission basis, i.e. utilise the services and expertise of brokers in return for the execution of trades through such brokers.

Where appropriate, any such arrangements will comply with the requirements of Article 11 of the MiFID II Delegated Directive and any such transaction must be entered into on the principle of best execution and be in the best interests of Shareholders and must provide benefits that will assist in the provision of investment services to the Company.

During the financial years ended 30 June 2020 and 30 June 2019, the Investment Managers and/or the Money Managers may have effected transactions through brokers with whom it had arrangements whereby each broker agreed to use a proportion of the commission earned on such transactions to discharge the broker's own costs or the costs of third parties providing certain services to the relevant Investment Manager and/or Money Managers, as the case may be. The services which were paid for under such arrangements were those permitted under regulatory rules applicable to the relevant Investment Manager and/or Money Manager, namely those that relate to the execution of transactions on behalf of customers or the provision of investment research to the relevant Investment Manager and/or Money Manager.

30 June 2020

7. Soft Commissions, Directed Brokerage Services and Commission Recapture - continued

The Money Managers may participate in the Russell Investments' soft commission and commission recapture programme (the "Programme") by executing a portion of their securities transactions through certain brokers (the "Correspondent Broker Networks"). Any such participation in the Programme is not mandatory and the appropriate participation percentage target is determined on a Money Manager by Money Manager basis, based upon asset class, investment mandate, trading habits, and tolerance for participation and is always subject to a Money Manager's ability to obtain best execution. The Programme, including the Correspondent Broker Network, is administered by Recapture Services, a division of BNY ConvergEx Execution Solutions LLC ("BNY") and State Street Global Markets ("SSGM"). A portion of the commission earned by the Correspondent Broker Network as a result of this trading activity is set aside in the Programme as "credits". These credits are then earmarked for purchase of third party research ("Soft Commission Credits") or commission recapture ("Commission Credits"). All soft commission use through the Programme is overseen by Russell Investments' soft commission committee (the "Committee") which is made up of senior level investment personnel. The Committee, with the guidance of Russell Investments' investment strategy committee, establishes an annual soft commission research budget for the use of the Soft Commission Credits. Soft Commission Credits are used to purchase third party research that will aid Russell Investments in its investment decision-making process. Research purchased through the Programme is obtained from unaffiliated third parties at market rates. Once the soft commission research budget has been met the Committee will instruct BNY and SSGM to recapture the Commission Credits which are then rebated directly back to the relevant Fund from which the commission was generated. Russell Investments does not receive any revenue (directly or indirectly from BNY or any broker) from the commission recapture component of the Programme.

The Investment Committee of the Manager oversees any directed brokerage services or similar arrangements and associated costs to the fund on an annual basis.

There were no fees for directed brokerage services during the financial year ended 30 June 2020 (financial year ended 30 June 2019: Nil).

8. Distributions

The distribution policy of each Fund is to declare distributions out of net income. Distributions declared by Income Class Shares are paid in cash unless the shareholder chooses to reinvest part or all of the amount in the capital of the relevant Share Class. Accumulation Class Shares declare a distribution which is then reinvested in the capital of the relevant share class.

The amount of any distribution on different Classes of Income Class Shares in a Fund may vary to reflect any differing charges and expenses suffered by such Share Classes. Any such distribution shall be made from Net Income. It should be noted that Net Income is calculated differently in relation to Funds which prioritise the generation of income over capital growth and in such Funds any applicable fees and expenses are charged to the capital of the Fund rather than the income of the Fund. An investor in Income Class Shares shall have the choice of investing the distribution in additional Income Class Shares or receiving payment by telegraphic transfer in the Class Currency of the Income Class Shares in which the investor is invested. The investor will indicate a preference in writing to the Administrator at the time of the investor's application for Income Class Shares. It should be noted that the declaration of distributions in those Funds which charge fees (including management and performance fees) and expenses to capital rather than income could result in the erosion of capital in those Funds and that increased income will be achieved by foregoing some of the potential for future capital growth. The distributions are calculated and declared on a calendar quarterly basis (i.e. quarterly periods ended 31 March, 30 June, 30 September and 31 December) and a monthly basis.

See below breakdown which distribute on a quarterly basis and those which Funds distribute on a monthly basis.

30 June 2020

9. Taxation

Under current law and practice the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended (the "TCA"). On that basis, it is not chargeable to Irish tax on its income or gains.

However, Irish tax may arise on the occurrence of a "chargeable event". A chargeable event includes any distribution payments to shareholders or any encashment, redemption, transfer or cancellation of shares and any deemed disposal of shares for Irish tax purposes arising as a result of holding shares in the Company for a period of eight years or more.

No Irish tax will arise in respect of chargeable events in respect of a shareholder who is an Exempt Irish Investor (as defined in Section 739D of the TCA) or who is neither Irish resident nor ordinarily resident in Ireland for tax purposes at the time of the chargeable event, provided, in each case, that an appropriate valid declaration in accordance with Schedule 2B of the TCA is held by the Company and the Company is not in possession of any information which would reasonably suggest that the information contained therein is no longer materially correct or where the Company has been authorised by Irish Revenue to make gross payments in absence of appropriate declarations.

Distributions, interest and capital gains (if any) received on investments made by the Company may be subject to withholding taxes imposed by the country of origin and such taxes may not be recoverable by the Company or its shareholders.

10. Number of Shares in Issue and Net Assets Attributable to Redeemable Participating Shareholders

a) Authorised Share Capital

The authorised share capital of the Company is 39,000 subscriber shares of no par value and 500 billion shares of no par value. Subscriber shares do not form part of the net asset value of the Company. They are disclosed in the financial statements by way of this note only.

Holders of subscriber shares are not entitled to dividends or any surplus of assets over liabilities upon the winding-up of the Company. The subscriber shares are held by Russell Investments.

b) Redeemable Participating Shares

Each of the shares entitles the holder to participate equally on a pro rata basis in the profits and dividends of the relevant Fund attributable to such shares and to attend and vote at meetings of the Company and of the relevant Fund represented by those shares. No class of shares confers on the holder thereof any preferential or pre-emptive rights or any rights to participate in the profits and dividends of any other class of shares or any voting rights in relation to matters relating solely to any other class of shares.

Each share represents an individual beneficial interest in the Company. The shares are not debt obligations or guaranteed by the Company. The return on an investment in the Company will depend solely upon the investment performance of the assets of the relevant Fund and the increase or decrease (as the case may be) in the net asset value of the shares. The amount payable to a shareholder in respect of each share upon liquidation of the Company or a Fund will equal the net asset value per share. However, in a relatively illiquid market, a Fund may not be able to dispose of its investments quickly and as such a Fund may experience adverse price movements upon liquidation of its investments. Settlement of transactions may be subject to delay and administrative uncertainties and the price repaid to the shareholders in such circumstances will not equal the final published net asset value per share.

Net assets attributable to shareholders represent a liability on the Balance Sheet, carried at the redemption amount that would be payable at the balance sheet date if the shareholder exercised the right to redeem the shares in the Company.

30 June 2020

10. Number of Shares in Issue and Net Assets Attributable to Redeemable Participating Shareholders - continued

Participating Share Transactions

All cash amounts are in the functional currency of the relevant Fund not the currency of the class.

c) Swing Pricing/Dilution Adjustments

Swing pricing (also known as dilution adjustment) is applied to a Fund once net subscriptions or redemptions for a Fund for a given dealing day is determined by the Administrator to exceed certain predetermined percentage thresholds relating to a Fund's net asset value. In calculating the swing pricing, the net asset value of a Fund is swung by a "swing factor". Swing prices will be calculated, and reviewed by the Securities Valuation Committee for the EMEA's fixed income funds, on a weekly basis to best reflect and compensate the cost of trading.

The swing factors applied during the financial year ended 30 June 2020 ranged from 0.00 per cent to 0.20 per cent on both subscriptions and redemptions.

The swing factors applied during the financial year ended 30 June 2019 ranged from 0.00 per cent to 0.20 per cent on both subscriptions and redemptions.

Russell Investments Global Listed Infrastructure	1	USD	75,126	20.30
Russell Investments Global Low Carbon Equity	2	USD	31,956	63.61

The following table details the number of shareholders with significant holdings of at least 20 per cent of the relevant Fund's net asset value, the aggregate monetary value and percentage (of that Fund's net asset value) of that holding as at 30 June 2019.

Fund	Number of Significant Shareholders		alue of ding '000	Aggregate Shareholding as <u>a % of the Fund</u>
Russell Investments Global High Dividend Equity	1	USD	207,821	80.12
Russell Investments Global Listed Infrastructure	3	USD	251,846	62.61
Russell Investments Global Low Carbon Equity	2	USD	32,685	59.47

11. Efficient Portfolio Management

The Company may enter into securities lending arrangements and repurchase agreements (together "Efficient Portfolio Management Techniques") and may invest in OTC FDIs, subject to the restrictions set forth the Prospectus and to the extent consistent with the Fund's investment objective and policies.

The use of techniques and instruments relating to transferable securities, money market instruments and/or other financial instruments in which the Funds invest for efficient portfolio management purposes will generally be made for one or more of the following reasons:

- i) the reduction of risk;
- ii) the reduction of cost; or
- iii) the generation of additional capital or income for the relevant Fund with an appropriate level of risk, taking into account the risk profile of the Fund and the risk diversification rules set out in the UCITS Regulations issued by the Central Bank.

All the revenues arising from Efficient Portfolio Management Techniques employed shall be returned to the relevant Fund following the deduction of any direct and indirect operational costs and fees arising. Such direct and indirect operational costs and fees, (which are all fully transparent) which shall not include hidden revenue, shall include fees and expenses payable to repurchase/reverse repurchase agreements counterparties and/or securities lending agents engaged by the Company from time to time. Such fees and expenses of any repurchase/reverse repurchase agreements counterparties and/or stocklending agents engaged by the Company, which will be at normal commercial rates together with VAT, if any, thereon, will be borne by the Company or the Fund in respect of which the relevant party has been engaged. None of the Funds entered into securities lending arrangements or repurchase agreements during the period under review or prior financial year.

None of the Funds entered into securities lending arrangements or repurchase agreements during the financial year ended 30 June 2020 or 30 June 2019.

Money Manager(s) and Investment Managers on behalf of a Fund may employ techniques and instruments relating to transferable securities, money market instruments and/or other financial instruments in which they invest for efficient portfolio management purposes. At any time a Fund may hold a combination of derivative instruments such as futures, forward contracts, options, swaps and swaptions, forward foreign exchange contracts, caps, floors and credit derivatives, any of which may be listed or over-the-counter.

30 June 2020

11. Efficient Portfolio Management - continued

Please refer to Note 2 a) Financial Instruments at Fair Value through Profit or Loss for a range of FDIs that the Company may employ for the purpose of efficient portfolio management.

12. Financial Risks

The activities of each Fund expose them to various financial risks such as market risk (including market price risk, interest rate risk, and currency risk), credit risk and liquidity risk. The portfolio management process seeks to manage risk in a manner consistent with each Fund's objectives.

The Manager may appoint one or more Investment Managers and/or Money Managers to manage the whole or a portion of a Fund's assets. The Manager may appoint one or more Investment Managers to manage the whole or a portion of a Fund's assets. The Investment Manager(s) may appoint one or more Investment Advisers. The Investment Manager(s) may appoint one or more Investment Advisers.

The Adviser primarily monitors and manages market risk (including market price risk, interest rate risk, and currency risk), credit risk and liquidity risk by the following techniques:

- The Adviser monitors each Fund's characteristics in detail with the Money Manager(s), Investment Manager and/or Investment Adviser(s) at least quarterly and in some cases monthly.
- The Adviser also reviews the portfolio characteristics of each Fund in its entirety.
- This review may include as appropriate a review of country allocations, country weights, capitalisation, distribution, industry sector weights, price/book levels, currency exposure, portfolio maturity, portfolio duration, sector exposure and quality exposure and other key risk measures.
- In addition to monitoring investment activity and exposure by a Money Manager(s), Investment Manager and/or Investment Adviser(s), the Adviser also receives daily exposure reporting from the Administrator and Money Manager(s), Investment Manager and/or Investment Adviser(s), with which they can review various event exposures on the Funds.
- The Adviser also oversees and monitors the overall level of risk in a Fund.

a) Global Exposure

The Funds will use advanced risk measurement methodology, namely Value at Risk ("VaR") as a risk measurement technique, in addition to other techniques, to measure, monitor and manage market risk. The absolute or relative VaR approach will be executed in accordance with the CESR (Committee of European Securities Regulators) 10/788 guidelines. VaR quantifies the estimate of the maximum potential loss due to market risk at a given confidence level over a specified time period under the prevailing market conditions.

VaR is a model-based estimate. As with any model-derived figure, it is subject to imprecision due to such factors as data and measurement errors and model risk. The calculation of VaR is based on daily unaudited accounting book of record position data. In addition, VaR assumes that future asset return distributions and correlations remain stable and consistent with the prevailing market conditions. The Funds utilise additional measures such as stress testing analysis and exposure measurement to provide a holistic view to the Funds' market risk that includes tail risk and derivative exposure quantification. Furthermore, accuracy of the VaR models is regularly checked via out-of-time/out-of-sample back testing.

For calculations of global exposure under the advanced risk measurement approach Monte Carlo VaR using the granular Modelling approach based on 1000 simulations is used. The approach estimates VaR by simulating random scenarios for each relevant pricing inputs (e.g., specific equity, commodity prices, foreign exchange and interest rates, implied volatility, etc.) used in valuing securities held in the portfolio and revaluing the positions for each of the paths generated for pricing inputs. For Funds using the absolute VaR approach, the VaR of the Fund shall not exceed 3.16 per cent of the Net Asset Value of the Fund, based on a 1 day holding period and a "one-tailed" 95 per cent confidence interval using observation period of at least 1 financial year. For Funds using the relative VaR approach, the VaR of the Fund shall not exceed twice that of the VaR of the reference portfolio based on a 1 day holding period and a "one-tailed" 95 per cent confidence interval using historical observation period of at least 1 financial year. A Fund VaR of 1 per cent means that there is a 5 per cent chance that the Fund will lose more than 1 per cent of its value over any given day, assuming that the prevailing market conditions continue into the future.

30 June 2020

12. Financial Risks – continued

The below table details the VaR expressed as a percentage of the NAV at financial year end 30 June 2020 and financial year end 30 June 2019, VaR approach for each Fund and for those Funds utilising the relative VaR methodology, the reference portfolio is also listed.

Global Exposure Calculation Methodology and VaR as at the financial year end							
Fund Name	Approach	Reference Portfolio	VaR as at 30 June 2020	VaR as at 30 June 2019			
Russell Investments Global High Dividend Equity	Relative	MSCI ACWI Index USD	2.46%	1.14%			
Russell Investments Global Listed Infrastructure	Relative	S&P Global Infrastructure USD	3.16%	0.98%			
Russell Investments Global Low Carbon Equity Fund	Relative	MSCI World Index USD	3.17%	1.64%			

VaR utilisation measures the Fund's VaR relative to the Fund's VaR limit. The below table details the minimum, maximum and average daily VaR utilisation that occurred during the one financial year ending 30 June 2020 and the one financial year ending 30 June 2019.

Daily VaR Utilisation*							
		30 June 2020		30 June 2019			
Fund Name	Minimum	Maximum	Average	Minimum	Maximum	Average	
Russell Investments Global High Dividend Equity	<0%	6.8%	<0%	<0%	1.7%	<0%	
Russell Investments Global Listed Infrastructure	<0%	6.7%	<0%	<0%	5.1%	<0%	
Russell Investments Global Low Carbon Equity Fund	1.5%	39.2%	25.7%	<0%	42.3%	16.3%	

* Absolute VaR Limit Utilisation = VaR (95% CI, 1 day) / 3.16% Relative VaR Limit Utilisation = [Fund VaR / Benchmark VaR] - 1

Relative var Limit Utilisation = [Fund var / Benchmark var]. Utilisation $\geq 1000/$ equates to breaking the limit

Utilisation >100% equates to breaking the limit

The Daily VaR Utilization calculation excludes VaR values occurring during Fund opening or closing due to accounting and timing issues.

The below table details the Fund's VaR relative to the Fund's VaR limit at the financial year end 30 June 2020 and 30 June 2019.

VaR Utilisation		
	Year ended 30 June 2020	Year ended 30 June 2019
Fund Name	Level	Level
Russell Investments Global High Dividend Equity	<0%	<0%
Russell Investments Global Listed Infrastructure	<0%	2.7%
Russell Investments Global Low Carbon Equity Fund	19.2%	28.0%

The average level of leverage figures provided below are calculated as the sum of the absolute value of notionals of the derivatives used as is required by the UCITS Regulations. This figure does not take into account any netting and hedging arrangements that the Funds may have in place at any time even though these netting and hedging arrangements are used for risk reduction purposes. As these netting and hedging arrangements, if taken into account, may reduce the level of leverage, this calculation may not provide an accurate measure of the Funds' actual leverage position. Below is the daily average level of leverage for each Fund during the one financial year ending 30 June 2020 and 30 June 2019.

Level of Leverage*					
Fund Name	Year ended 30 June 2020	Year ended 30 June 2019			
Russell Investments Global High Dividend Equity	51.3%	58.3%			
Russell Investments Global Listed Infrastructure	0.4%	0.3%			
Russell Investments Global Low Carbon Equity Fund	2.7%	2.9%			

* The Daily Average Leverage calculation excludes distorted daily leverage values occurring during Fund opening or closing due to accounting and timing issues.

30 June 2020

12. Financial Risks - continued

b) Market Price Risk

Market price risk is defined in FRS 102 as the risk that the fair value of a financial instrument or its future cash flows will fluctuate because of changes in market prices other than those caused by interest rate risk or currency risk.

All investments present a risk of loss of capital. The Funds' investments are susceptible to market price risk arising from uncertainties about future prices of the instruments. Except for derivatives, maximum risk resulting from financial instruments is determined by fair value of the financial instruments. Possible losses from certain derivatives can be unlimited. The Adviser moderates this risk by diversifying the management of its assets by allocating them between one or more Money Managers and/or Investment Manager. The Funds' Money Managers monitor their portfolio holdings on a daily basis.

The market prices of a Fund's securities may go up or down, sometimes rapidly or unpredictably, due to general market conditions, such as overall economic trends or events, government actions or interventions, market disruptions caused by trade disputes or other factors, political factors or adverse investor sentiment. Such events include the recent pandemic spread of the novel corona virus known as COVID-19, the duration and full effects of which are still uncertain. The market prices of securities also may go down due to events or conditions that affect particular sectors, industries or issuers. Adverse market conditions may be prolonged and may not have the same impact on all types of securities. If the market prices of the securities owned by the Fund fall, the value of an investment will go down. A Fund may experience a substantial or complete loss on any individual security.

i) Fair valuation hierarchy

FRS 102 Section 11.27 on "Fair Value: Disclosure" requires the Company to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements.

The fair value hierarchy of inputs is summarised in the three broad levels listed below.

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3: Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

No significant transfers occurred between the levels during the financial year and prior financial year under review.

The determination of what constitutes 'observable' requires significant judgement by the Directors. The Directors consider observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

Investments whose values are based on quoted market prices in active markets, and therefore classified within Level 1, include active listed equities and exchange traded derivatives. The Funds do not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. These include stale priced listed equities, certain fixed income investments, bonds, investment funds, bank loans and OTC FDIs.

30 June 2020

12. Financial Risks - continued

Investments classified within Level 3 have significant unobservable inputs, as they trade infrequently. Level 3 securities are securities that may be priced by a single pricing vendor or may have prolonged stale prices or may have no valid market information (indications or comparable security types) available.

Please refer to the base of each Fund's Schedule of Investments for analysis, within the fair value hierarchy, of each Fund's financial assets and liabilities (by investment type) measured at fair value at 30 June 2020 and 30 June 2019.

c) Interest Rate Risk

The Funds' interest bearing financial assets and liabilities expose it to risks associated with the effects of fluctuations in the prevailing level of interest rates. The Funds may employ investment techniques and FDIs in order to hedge against interest rate risk or gain exposure to the underlying market. In addition, mortgage and asset backed securities are also subject to prepayment risk, which is the risk that borrowers pay off the debt underlying the mortgage backed/asset backed securities sooner than anticipated and therefore shorten the average maturity of the Funds.

The Funds currently open are mainly investing in non-interest bearing assets or its investments have a very short time to maturity. As a result, the Funds are not subject to significant amounts of risk due to fluctuations in the prevailing levels of market interest rates.

d) Currency Risk

The Funds may hold assets and liabilities denominated in currencies other than the functional currency of the Fund. They are therefore exposed to currency risk, as the value of the securities denominated in other currencies will fluctuate due to changes in exchange rates. A Fund may utilise financial instruments to hedge against fluctuations in the relative values of their portfolio positions in addition to making active currency selections.

No Fund had monetary assets or liabilities with material monetary foreign currency exposures as at 30 June 2020 or 30 June 2019.

e) Credit Risk

The Funds take on credit risk which is the risk that a counterparty or issuer will be unable to pay amounts in full when due. Impairment provisions are provided for losses that have been incurred by the balance sheet date, if any.

The Funds' main credit risk concentrations arise from trading equity and debt securities, investment funds and FDIs in addition to cash balances held at the Depositary.

The Funds minimise concentrations of credit risk by undertaking transactions with a large number of counterparties. The Company's Prospectus and the UCITS Regulations list various investment restrictions with regard to issuer and counterparty concentration limits and minimum counterparty credit ratings. Each relevant Fund's Money Managers conduct periodic reviews of the counterparties with whom they conduct transactions. The Adviser also monitors each Fund's counterparty exposures. In addition, risk exposure to a counterparty may be reduced by collateral provided to the Fund by the counterparty in accordance with the UCITS Regulations.

The Adviser employs a credit research team that performs robust quantitative and qualitative analysis on banks, insurance companies, and other counterparties. The credit research analyst assigned to a particular counterparty performs full credit analysis and writes a credit research report and subsequently sets investment parameters on OTC counterparty ratings and exposures where appropriate. The credit research team only reviews counterparties for those assets directly managed by Russell Investments. The individual Money Managers have their own research process for the assets under their management. Each relevant Fund's Money Managers monitor each credit position on a daily basis.

Each Fund may enter transactions in OTC markets that expose it to the credit of its counterparties and their ability to satisfy the terms of such contracts. Where the Funds enter into credit default swaps and other swap arrangements and derivative techniques, they will be exposed to the risk that the counterparty may default on its obligations to perform under the relevant contract. In the event of a bankruptcy or insolvency of a counterparty, the Funds could experience delays in liquidating the position and may incur significant losses. There is also a possibility that ongoing derivative transactions will be terminated unexpectedly as a result of events outside the control of the Company, for instance, bankruptcy, supervening illegality or a change in the tax or accounting laws relative to those transactions at the time the agreement was originated.

30 June 2020

12. Financial Risks - continued

The names of brokers and counterparties used by each individual Fund can be found at the base of each relevant Fund's Schedule of Investments. The total unrealised gains and losses exposure by investment type for each of the brokers and counterparties can also be found at the base of each relevant Fund's Schedule of Investments. When there are more than five brokers and counterparties used by each of the relevant Fund's, the top five have been disclosed with the remainder included in "other" category.

Collateral may be pledged by the Funds, generally by way of cash or cash equivalents (generally highly liquid G8 issued government debt instruments) and held by the counterparties. Amounts of cash collateral held at year-end by counterparties are disclosed on the Balance Sheet of the Funds. See Note 3 to the financial statements for full details of cash collateral pledged to or by the relevant Funds as at 30 June 2020 and 30 June 2019.

All securities, cash at bank balances and cash or non-cash collaterals received by the Funds are held by the Depositary through its affiliate, State Street or through a sub-custodian within the State Street custodial network. All OTC FDIs, investment funds, time deposits margin or other similar investments/monies deposited by or entered into on behalf of the Company with a counterparty, options exchange, clearing broker or other parties are not held within the State Street custodial network. The Depositary are therefore not liable in any way for the default of any counterparty.

Bankruptcy or insolvency of the Depositary or a State Street affiliate company may cause the Company's rights with respect to cash and securities held by State Street to be delayed or limited and the Company would be treated as a general creditor of that entity in respect of its cash balances. Periodic monitoring and an annual credit review are performed on the Depositary by the Adviser. This review may include as appropriate an assessment of the Depositary's liquidity position, income streams, asset quality and credit ratings. The long term credit rating of State Street as of 30 June 2020 was Aa2 (30 June 2019: Aa2), as rated by Moody's rating agency.

f) Liquidity Risk

The liquidity risks associated with the need to meet shareholders' requests for redemptions are mitigated by maintaining a pool of cash to satisfy usual levels of demand. Generally, the Funds' assets comprise publicly traded securities with various degree of liquidity. In highly volatile market conditions, the Funds may not easily liquidate assets needed for redemption or settlement. In such conditions, the Manager may adopt a number of liquidity management tools, as detailed in the Company's prospectus, such as restrictions on redemptions, borrowing arrangements on a temporary basis, in-specie redemption, temporary suspension of valuation, issue and repurchase of shares and review of the Funds' swing pricing policy. Swing prices will be calculated, and reviewed by the Securities Valuation Committee for the EMEA's fixed income funds, on a weekly basis to best reflect and compensate the cost of trading.

The Manager, in consultation with the Adviser, employs an appropriate liquidity management system and has adopted procedures which enable it to monitor the liquidity risk of the Company and each Fund. The liquidity management system ensures that each Fund maintains a level of liquidity appropriate to its underlying obligations based on an assessment of the relative liquidity of the Fund's assets in the market, taking account of the time required for liquidation and the price or value at which those assets can be liquidated and their sensitivity to other market risks or factors. The Manager, in consultation with the Adviser, monitors the liquidity profile of the portfolio of assets having regard to the profile of the investor base of the Fund, the relative size of investments and the repurchase terms to which these investments are subject. The Manager, in consultation with the Adviser (and affiliates), implements and maintains appropriate liquidity measurement arrangements and procedures to assess the quantitative and qualitative risks of positions and intended investments which have a material impact on the liquidity profile of the Fund's portfolio of assets. This enables effects on the overall liquidity profile to be appropriately measured and to put into effect the tools and arrangements necessary to manage the liquidity of the Company.

As at 30 June 2020 and 30 June 2019, the Funds' liabilities, including net assets attributable to redeemable participating shareholders, were payable within three months.

30 June 2020

12. Financial Risks - continued

15. Segregated Liability

Each Fund will be responsible for paying its fees and expenses regardless of the level of its profitability. The Company has availed of the segregated liability provisions of the Companies Act. The adoption of segregated liability ensures that liability incurred on behalf of a Fund will generally be discharged solely out of the assets of that Fund and there can generally be no recourse to other Funds to satisfy these liabilities. Notwithstanding the foregoing there can be no guarantee that should an action be brought against the Company in the court of another jurisdiction that the segregated nature of the Funds would necessarily be upheld.

16. Significant Events During the Financial Year

Mr. James Beveridge resigned from the Board of Directors on 18 October 2019.

Mr. William Pearce was appointed to the Board of Directors on 13 February 2020.

On 11 March 2020, the Director-General of the World Health Organisation announced that it had assessed the worldwide outbreak of COVID-19 as a pandemic. This event continues to create significant market volatility across global financial markets.

The United Kingdom left the European Union (EU) in January 2020 following the approval of the withdrawal agreement negotiated between the UK government and the EU. An implementation period was agreed that will run until December 2020.

30 June 2020

16. Significant Events During the Financial Year - continued

There were no other significant events however the following prospectus and Memorandum & Articles of Association updates were made during the financial year.

A revised prospectus was issued on 27 August 2019. The following principal changes, inter alia, were made:

- i) Updates to the "References to Benchmarks" section to reflect the European Union regulation;
- ii) Inclusion of a section entitled "Impact of EU Securitisation Rules" to include disclosure relating to Regulation (EU) 2017/2402;
- iii) Enhancement of the risk factor disclosure relating to Operational Risks;
- iv) Updates to the Directory and directors bios to reflect a change of directors in the Board. Please note that the retirement of Mr. Kenneth Willman and the appointment of Mr. Joseph Linhares. Please also note minor updates to the bios of Mr Neil Jenkins, Mr John McMurray and Mr Pete Gonella;
- v) Minor updates to The Regulated Markets List to reflect an impending Brexit;
- vi) Additional disclosure the description of "The Manager", to state that the Manager is the Responsible Person and to also adjust the disclosure to reflect the Manager's role as Promoter which is no longer a formal role;
- vii) Changes to the performance fee section of "Fees and Expenses" as requested by the Central Bank as part of a thematic review and inspection process;
- viii) Amendments to the long and short exposure percentages in respect of certain funds within the Companies; and
- ix) Miscellaneous tidy up amendments:

A revised prospectus was issued on 27 September 2019. The following principal changes, inter alia, were made:

- i) To reflect the reduction in management fee for certain share classes of Russell Investments Global High Dividend Equity (namely, Class I STG£, Class I STG£ INCOME, Class I EURO INCOME, Class B US\$ INCOME, Class B EUR INCOME and Class B STG£ INCOME) and Russell Investments Global Listed Infrastructure (namely, Class B EURO INCOME, Class B STG£ INCOME, Class B US\$, Class I STG£, Class I STG£ Income and Class I EURO Income) with effect from 1 October 2019; and
- ii) Minor clarificatory updates including reference to the possibility of the UK being outside the EEA in light of an impending Brexit

Amendments to the Company's Memorandum & Articles of Association were approved by shareholders at the annual general meeting held on 20 December 2019. The principal amendments were;

- i) Minor update to the definition of "Duties and Charges" to include reference to the repurchase of shares;
- ii) Inclusion of wording in the sub-funds and segregation of liability section to state that records and accounts of each Sub-Fund shall be maintained separately;
- iii) Inclusion of wording to state that an anti-dilution levy may be added when calculating the price per share to cover costs and preserve the value of the underlying assets;

30 June 2020

16. Significant Events During the Financial Year - continued

- iv) Update to the qualified holders section to include a reference to U.S. Persons regarding disapplication of the relevant Article;
- v) Addition of wording to allow the Company to repurchase and or transfer of Subscriber shares to a qualified holder after the initial offer period;
- vi) Update to the wording of the Transfer and Transmission of Shares section to state that the Directors may decline to register a transfer where the transferee would be precluded from holding shares in the Company; and
- vii) Inclusion of wording to allow investment of up to 100 per cent of the Company's assets assets in transferable securities and money market instruments issued by or guaranteed by the government of the United Kingdom.

17. Significant Events Since the Financial Year End

COVID-19 continues to create market volatility across global financial markets. Given the successful suppression efforts and increased health care capacity within several countries and regions, government officials are beginning to outline plans for a gradual reopening of local economies.

The SVC continues to monitor the potential impact of COVID-19 across the EMEA Funds including the new process for calculating swing factors for the fixed income funds. Liquidity in some fixed income sectors has improved, with bid-ask spreads and transaction costs on a downward trend. As a result, swing factors for the EMEA fixed income funds have been decreasing.

There have been no other significant events affecting the Company since financial year end however the following prospectus updates were made since the financial year.

A first addendum to the prospectus was issued on 6 July 2020. The following principal changes, inter alia, were made;

- i) That the definition of "Initial Offer Period" on page 77 was replaced;
- ii) The current table for Russell Investments Global High Dividend Equity was replaced; and
- iii) The current table for Russell Investments Global Listed Infrastructure

18. Approval of the Financial Statements

The financial statements were approved by the Directors on 13 October 2020.

Appendix I - Remuneration (unaudited)

For the financial year ended 30 June 2020

Remuneration of the Company's Directors

Regulation 89(3A) of the UCITS Regulations (as introduced pursuant to the UCITS V Regulations on 21 March 2016) requires that the annual report of the Company contains certain disclosures on remuneration paid by the Manager to its staff during the financial year and details of any material changes to the Manager's remuneration policy made during the period, and this requirement applied as of 18 March 2016. In this regard, the following points are to be noted:

- The Manager has prepared a remuneration policy outlining how it adheres to the remuneration requirements set out in the UCITS Regulations.
- The Company has a Board of Directors, four of whom are employees of Russell Investments and receive no remuneration from the Company. The remaining four directors, each of whom is independent, receive a fixed fee only (for the year ended 30 June 2020: EUR 9,715) and do not receive variable remuneration. These fees are set at a level that reflects the qualifications and contribution required taking into account the Company's size, internal organisation and the nature, scope and complexity of its activities.
