** ADDITIONAL INFORMATION FOR QUALIFIED INVESTORS IN SWITZERLAND

Only the Russell Investments China Equity Fund of The Russell Investment Company II Plc (the "Fund") is compliant with Swiss law for distribution to qualified investors in Switzerland.

The Company and the Fund mentioned above are compliant with Swiss law for offering to qualified investors in Switzerland. Investors in Switzerland can obtain the documents of the Company, such as the prospectus, the Articles of Association, the Key Information Documents, and the financial reports free of charge from the Swiss representative.

This document may only be issued, circulated or distributed so as not to constitute an offering to the general public in Switzerland. Recipients of the document in Switzerland should not pass it on to anyone without first consulting their legal or other appropriate professional adviser, or the Swiss representative.

Administration of the Company - continued

Each time performance data is published, it should be noted that the past performance is no indication of current or future performance, and that it does not take account of the commissions and costs incurred on the issue and redemption of shares.

The list of the purchases and sales and further information can be obtained free of charge from the representative in Switzerland.

Background to the Company

Russell Investment Company II plc (the "Company") was incorporated in Ireland as a public limited company on 1 November 2000. The Company operates under the Companies Act, 2014 (the "Companies Act") and has been authorised since 8 November 2000 by the Central Bank of Ireland (the "Central Bank") under registration number incorporated in Ireland with registration number C25353.

The Company is an open-ended investment company with variable capital which is authorised by the Central Bank under the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the "UCITS Regulations") and under the Central Bank (Supervision & Enforcement) Act 2013 (Section 48(1) (Undertakings for Collective Investment in Transferable Securities)) Regulations 2019 (the "Central Bank UCITS Regulations").

The Company is organised in the form of an umbrella fund with segregated liability between sub-funds and as at 31 March 2025, has six constituent sub-funds available for investment, Russell Investments Emerging Market Debt Local Currency Fund, Russell Investments Euro Fixed Income Fund, Russell Investments Pan European Equity Fund, Russell Investments U.S. Quant Fund, Russell Investments World Equity Fund and Russell Investments China Equity Fund (each a "Fund", collectively the "Funds").

Russell Investment Limited (the "Principal Money Manager"), and its affiliate group companies are referred to collectively as "Russell Investments" in these financial statements.

The Company has appointed Carne Global Fund Managers (Ireland) Limited (the "Manager") to act as manager to the Company and each Fund.

The net assets under management for the Company as at 31 March 2025 amounted to EUR 1,694,519,531 (as at 31 March 2024: EUR 1,727,262,006) and are broken down as follows:

Fund	Funded during the financial year ended	Functional currency	Net Assets 31 March 2025 '000	Net Assets 31 March 2024 '000
Russell Investments Emerging Market Debt Local Currency Fund	31 March 2013	USD	69,853	72,959
Russell Investments Euro Fixed Income Fund	31 March 2002	EUR	55,733	81,467
Russell Investments Pan European Equity Fund	31 March 2002	EUR	47,661	46,026
Russell Investments U.S. Quant Fund	31 March 2002	USD	125,956	87,205
Russell Investments World Equity Fund	31 March 2005	USD	1,488,748	1,520,011
Russell Investments China Equity Fund	31 March 2018	USD	34,178	47,575

All shares in Russell Investments Global Bond (Euro Hedged) Fund, Russell Investments Emerging Markets Extended Opportunities Fund, Russell Investments Global Defensive Equity Fund, Russell Investments U.K. Equity Plus Fund, Russell Investments U.S. Growth Fund and Russell Investments U.S. Value Fund have been redeemed and the Funds have been closed and are no longer available for investment. The Company intends to apply to the Central Bank to revoke each closed Fund's approval following final disbursement of assets in the relevant Fund.

Each of the Funds may issue income class shares, accumulation class shares or roll-up class shares. All share classes are accumulating unless otherwise indicated in the name of the share class. All references to "net assets" throughout this document refer to net assets attributable to holders of redeemable participating shares unless otherwise stated.

U.K. Reporting Fund Status

The Company conducts its affairs so as to enable U.K. reporting fund status to be obtained under the United Kingdom Income and Corporation Taxes Act, 1988 for the purposes of U.K. taxation for each applicable Fund.

Directors' Report

The Directors submit their report together with the audited financial statements for the financial year ended 31 March 2025.

Directors' responsibilities

The Directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable Irish law and Generally Accepted Accounting Practice in Ireland ("Irish GAAP") including the accounting standards issued by the Financial Reporting Council ("FRC").

Irish company law requires the Directors to prepare financial statements for each financial year that give a true and fair view of the assets, liabilities and financial position for Russell Investment Company II plc (the "Company") and of the profit or loss of the Company for that financial year. In preparing the financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent; and
- prepare the financial statements on a going concern basis unless it is inappropriate to presume that the Company will
 continue in business.

The Directors confirm that they believe that they have complied with the above requirements in preparing the financial statements.

The Directors are responsible for the maintenance and integrity of the corporate and financial information relating to the Company which may be included on the Principal Money Manager's website. Legislation in the Republic of Ireland governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

In carrying out the above requirements, the Directors have appointed Carne Global Fund Managers (Ireland) Limited as manager (the "Manager") and the Manager has appointed State Street Fund Services (Ireland) Limited to act as administrator (the "Administrator") of the Company.

Transactions involving Directors

In respect of the 2025 financial year, the Directors are not aware of any contracts or arrangements of any significance in relation to the business of the Company in which the Directors or their connected persons had any interest as defined by the Companies Act, other than those disclosed in Note 5, "Transactions with Related Parties".

Accounting Records

The Directors are responsible for maintaining adequate accounting records which correctly explain and record the transactions of the Company, enable at any time the assets, liabilities, financial position and profit or loss of the Company to be determined with reasonable accuracy, enable them to ensure that the financial statements and Directors' Report comply with the Companies Act and enable the financial statements to be audited. They are also responsible for ensuring that the financial statements are prepared in accordance with accounting standards generally accepted in Ireland and comply with the Companies Act and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the "UCITS Regulations"). The Directors are also responsible for safeguarding the assets of the Company. In this regard they have appointed State Street Custodial Services (Ireland) Limited (the "Depositary") as Depositary to the Company pursuant to the terms of a depositary agreement. The Directors have a responsibility for taking such steps as are reasonably open to them to prevent and detect fraud and other irregularities. The Directors believe that they have complied with the requirements of the Companies Act, with regard to accounting records by employing an experienced administrator with appropriate expertise and by providing adequate resources to the financial function. The accounting records of the Company are maintained by the Administrator at 78 Sir John Rogerson's Quay, Dublin 2, Ireland.

Distributions

Please refer to Note 8 to the financial statements for details of the distribution policy of each of the Funds.

Connected persons transactions

Regulation 43 of the Central Bank UCITS Regulations "Restrictions of transactions with connected persons" states that "A responsible person shall ensure that any transaction between a UCITS and a connected person is conducted a) at arm's length; and b) in the best interest of the unit-holders of the UCITS".

As required under the Central Bank UCITS Regulation 81(4), the Directors, as responsible persons are satisfied that there are arrangements in place, evidenced by written procedures, to ensure that the obligations that are prescribed by Central Bank Regulation 43(1) are applied to all transactions with a connected person; and all transactions with a connected person that were entered into during the period to which the report relates complied with the obligations that are prescribed by Central Bank Regulation 43(1).

Directors' Report - continued

Review of performance of the business, principal activities and future developments of the business

As of reporting date, the Directors have no reason to believe that the Company is not able to continue as a going concern.

A detailed performance review of the business and its principal activities is included in the Principal Money Manager's Report for each Fund.

Principal risks and uncertainties

Geopolitical Risk is increasingly recognised as a principal risk for organisations operating in a globally interconnected environment. It encompasses the potential for political instability, regulatory shifts, conflict or diplomatic tensions to disrupt markets, supply chains, and strategic operations. As a principal risk, it is monitored closely due to its potential to cause significant financial, operational and reputational impact. The risk team assess geopolitical risk through ongoing intelligence gathering, scenario analysis and targeted stress testing, enabling leadership to understand exposure and build resilience.

A detailed analysis of the risks facing each Fund and the use of financial instruments is included in Note 11 and Note 12 of the financial statements

Throughout the financial year, the Company maintained the aim of spreading investment risk in accordance with the Companies Act.

Results and dividends

The results for the financial year are set out in the Profit and Loss Account for each Fund. Dividends were declared during the financial year as detailed in Note 8 of the financial statements.

Significant events during the financial year

Significant events during the financial year are disclosed in Note 16 of the financial statements.

Significant events since the financial year end

Significant events since the financial year end are disclosed in Note 17 of the financial statements.

Voluntary adoption of the Corporate Governance Code

The Irish Funds Industry Association ("Irish Funds") in association with the Central Bank has published a corporate governance code (the "Irish Funds Code") that may be adopted on a voluntary basis by Irish authorised collective investment schemes. The Board of Directors voluntarily adopted the Irish Funds Code as the Company's corporate governance code effective from 31 December 2012. The Company has been in compliance with the Irish Funds Code since its adoption.

The Sustainable Finance Disclosure Regulation ("SFDR") and Taxonomy Regulation

The SFDR and Taxonomy Regulation disclosures relating to the environmental or social characteristics of the Company can be found in the Appendix III section of the Financial Statements.

Directors

The name and nationality of persons who were Directors at any time during the financial year ended 31 March 2025 are set out below. All Directors are non-executive directors. Except where indicated, all acted as Directors for the entire financial year.

Mr. William Roberts (British and Irish resident) (Chairman)

Mr. Peter Gonella (British)

Mr. Neil Jenkins (British)

Mr. Tom Murray (Irish)

Mr. William Pearce (British)

Mr. David Shubotham (Irish)

Directors' and Secretary's interests

None of the Directors or the Company Secretary hold or held any beneficial interest in the shares of the Company during the financial year. Each of the Directors is employed by Russell Investments entities except for Mr. Tom Murray, Mr. William Roberts and Mr. David Shubotham.

No Director had, at any time during the financial year or at the financial year end, a material interest in any contract of significance in relation to the business of the Company.

Directors' Report - continued

Compliance statement

The Directors acknowledge that they are responsible for securing the Company's compliance with its relevant obligations. These include all requirements of the Company under Section 225 of Companies Act, and all tax law within the Republic of Ireland (the "relevant obligations").

In keeping with this responsibility, the Directors have:

- drawn up a compliance policy statement setting out the Company's compliance with the relevant obligations;
- appointed the Principal Money Manager, and relies on the Principal Money Manager's risk and compliance departments
 to implement these procedures and secure material compliance with the relevant obligations; and
- performed a review of this policy statement, and its implementation by the Principal Money Manager.

Audit Committee

The Audit Committee will oversee the Company's audit related affairs according to the Terms of Reference of the Audit Committee. The membership of the Audit committee is disclosed in the Administration of the Company on page 2.

Relevant audit information

So far as the Directors are aware, there is no relevant audit information of which the Company's auditors are unaware and the Directors have taken all the steps that should have been taken as Directors in order to make themselves aware of any relevant audit information and to establish that the Company's auditors are aware of that information.

Independent Auditors

The Auditors, PricewaterhouseCoopers, will be re-appointed in accordance with section 383 of the Companies Act.

On behalf of the Board

30 July 2025

Director

Depositary's Report

We have enquired into the conduct of Carne Global Fund Managers (Ireland) Limited as the Manager of Russell Investment Company II plc (the "Company") and into the conduct of the Company itself for the financial year ended 31 March 2025, in our capacity as Depositary to the Company.

This report including the opinion has been prepared for and solely for the shareholders in the Company as a body, in accordance with the Regulation 34(1), (3) and (4) in Part 5 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 as amended, (the "UCITS Regulations") and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Depositary

Our duties and responsibilities are outlined in Regulation 34(1), (3) and (4) in Part 5 of the UCITS Regulations. One of those duties is to enquire into the conduct of the Manager and the Company in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion, the Company has been managed in that financial year in accordance with the provisions of the Company's Memorandum and Articles of Association and the UCITS Regulations. It is the overall responsibility of the Manager and the Company to comply with these provisions. If the Manager or the Company has not so complied, we as Depositary must state why this is the case and outline the steps which we have taken to rectify the situation.

Basis of Depositary Opinion

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Regulation 34(1), (3) and (4) in Part 5 of the UCITS Regulations and to ensure that, in all material respects, the Company has been managed:

- i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of its constitutional documentation and the UCITS Regulations and
- ii) otherwise in accordance with the Company's constitutional documentation and the appropriate regulations.

Opinion

In our opinion, the Company has been managed during the financial year, in all material respects:

i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the Memorandum & Articles of Association, the UCITS Regulations and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)); (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 ('the Central Bank UCITS Regulations') and

raa Maarhead

ii) otherwise in accordance with the provisions of the Memorandum & Articles of Association the UCITS Regulations and the Central Bank UCITS Regulations

State Street Custodial Services (Ireland) Limited 78 Sir John Rogerson's Quay

Dublin 2 Ireland

30 July 2025

Independent auditors' report to the members of Russell Investment Company II plc

Report on the audit of the financial statements

Opinion

In our opinion, Russell Investment Company II plc's financial statements:

- give a true and fair view of the Company's and Funds' assets, liabilities and financial position as at 31 March 2025 and of their results for the year then ended;
- have been properly prepared in accordance with Generally Accepted Accounting Practice in Ireland (accounting standards issued by the Financial Reporting Council of the UK, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and Irish law); and
- have been properly prepared in accordance with the requirements of the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

We have audited the financial statements, included within the Annual Report and Audited Financial Statements, which comprise:

- the Balance Sheet of the Company and each of its Funds as at 31 March 2025;
- the Profit and Loss Account of the Company and each of its Funds for the year then ended;
- the Statement of Changes in Net Assets Attributable to Redeemable Participating Shareholders of the Company and each of its Funds for the year then ended;
- the Schedule of Investments for each of the Funds as at 31 March 2025; and
- the notes to the financial statements for the Company and for each of its Funds, which include a description of the
 accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)") and applicable law.

Our responsibilities under ISAs (Ireland) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, which includes IAASA's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Conclusions relating to going concern

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's and Funds' ability to continue as a going concern for a period of at least twelve months from the date on which the financial statements are authorised for issue.

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the Company's and Funds' ability to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Reporting on other information

The other information comprises all of the information in the Annual Report and Audited Financial Statements other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Directors' Report, we also considered whether the disclosures required by the Companies Act 2014 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (Ireland) and the Companies Act 2014 require us to also report certain opinions and matters as described below:

- In our opinion, based on the work undertaken in the course of the audit, the information given in the Directors' Report for the year ended 31 March 2025 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.
- Based on our knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified any material misstatements in the Directors' Report.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Directors' Responsibilities — set out on page 7, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view.

The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's and Funds' ability to continue as going concerns, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Our audit testing might include testing complete populations of certain transactions and balances, possibly using data auditing techniques. However, it typically involves selecting a limited number of items for testing, rather than testing complete populations. We will often seek to target particular items for testing based on their size or risk characteristics. In other cases, we will use audit sampling to enable us to draw a conclusion about the population from which the sample is selected.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA website at:

 $\underline{https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description\ of\ auditors\ responsibilities\ for\ audit.pdf.}$

This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the Company's members as a body in accordance with section 391 of the Companies Act 2014 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2014 opinions on other matters

- We have obtained all the information and explanations which we consider necessary for the purposes of our audit
- In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited.
- The financial statements are in agreement with the accounting records.

Companies Act 2014 exception reporting

Directors' remuneration and transactions

Under the Companies Act 2014 we are required to report to you if, in our opinion, the disclosures of directors' remuneration and transactions specified by sections 305 to 312 of that Act have not been made. We have no exceptions to report arising from this responsibility.

Declan Murphy

Principal Money Manager's Report

Principal Money Manager as at 31 March 2025

Russell Investments Limited

Money Managers as at 31 March 2025

Barings LLC

Colchester Global Investors Limited

Investment Objective

Russell Investments Emerging Market Debt Local Currency Fund's (the "Fund") investment objective is to provide income and capital growth. During normal market conditions the Fund will seek to achieve its investment objective by investing at least 80 per cent of its net assets in Fixed Income Securities and Instruments that are issued by or economically tied to an Emerging Market ("EM") country and financial derivative instruments ("FDI") that create or hedge relevant exposures.

Fund Performance

During the 12-month period ended 31st March 2025 the Russell Investments Emerging Market Debt Local Currency Fund (Class I) returned 1.8 per cent on a gross-of-fee basis (0.4 per cent on a net-of-fee basis), while the benchmark* returned 4.0 per cent.

Market Comment

Global fixed income markets rose over the second quarter of 2024. Government 10-year yields in the US, UK and Europe were higher over the period. In Europe, French bonds lagged as investors gravitated to German bunds in response to heightened political uncertainty in France, triggered by snap parliamentary elections. In credit markets, spreads widened, more notably in European and US high yield. In the US, evidence of weakening inflation later in the quarter cemented expectations of two 25 basis point (bps) interest rate cuts by the Federal Reserve ("FED") this year. The Fed and the Bank of England ("BoE") kept interest rates unchanged at their policy meetings. The European Central Bank ("ECB") held rates in April but cut its benchmark rate by 25 bps in June.

Fixed income markets increased over the third quarter of 2024. Yields fell across major economies as resilient growth in the US and encouraging inflation data buoyed sentiment. However, concerns grew over the US labour market, leading to fears that the Fed had been too slow to lower interest rates. Expectations of a 50 bps rate cut strengthened, which the Fed delivered on in September. In Europe, markets were impacted by political uncertainty in France following the outcome of a hung parliament in the country's elections. Bond yields fell in the UK, responding to the landslide victory by Labour in July's general election and the BoE's 25 bps rate cut to 5.0% in August. The central banks of New Zealand and Sweden also cut rates by 25 bps that month; the latter cut by 25 bps again in September to 3.25%. The ECB and the Swiss National Bank lowered their key interest rates by 25 bps in September. The Bank of Canada cut rates by 25 bps to 4.50% in July, and again in September to 4.25%. Earlier, the Bank of Japan ("BoJ") raised its benchmark interest rate to 0.25%, signalling a notable divergence in developed market central bank policy.

Fixed income markets fell over the fourth quarter of 2024. As central banks became more cautious in their interest rate decision-making, long yields rose. The US presidential election outcome and the anticipated impact of the incoming administration's policies was a major driver of performance. The economic outlook and political uncertainty also impacted market sentiment, particularly in Europe. The US dollar broadly strengthened against most currencies over the period. The Fed and the ECB both lowered interest rates by 25 bps twice over the period, while the Bank of Canada implemented two 50-bps cuts. The BoE cut rates by 25 bps in November but left them unchanged at its December meeting.

Global fixed income markets increased over the first quarter of 2025. Confusion over tariff implementation, geopolitical uncertainty and signs of weaker US consumer sentiment amplified market nervousness, sending investors in search of safe-haven assets. Government bond performance was mixed as 10-year yields fell in the US but rose in Europe, the UK and Japan. The US dollar weakened against most currencies, notably the Swedish krona and Norwegian krone. Central bank action diverged over the period. The Fed kept rates unchanged while the Bank of Canada and the ECB both lowered interest rates by 25 bps twice. The BoE cut rates by 25 bps in February but left them unchanged in March. The Swiss National Bank also lowered rates by 25 bps. Earlier, the BoJ raised its policy rate by 25 bps to 0.5%, its highest in 17 years.

General Comment on Money Managers/Performance

The Fund underperformed the benchmark over the second quarter of 2024. Rates positioning was positive, largely due to contributions from overweight exposure to South African rates. An underweight to rates in Thailand and an overweight to Hungarian rates were also effective. However, gains were limited by allocations to rates in Brazil, Mexico, the Czech Repulic and Poland, which were unhelpful. Currency positioning was negative due to overweights to the Brazilian real, Colombian peso, South Korean won and the Philippine peso. An underweight to the Thai baht also detracted. However, underweight exposure to the US dollar and Mexican peso were effective. Overweights to the South African rand and Turkish lira were also beneficial.

Principal Money Manager's Report - continued

The Fund outperformed the benchmark return over the third quarter of 2024. Rates positioning was rewarded, with positive contributions from overweights to rates in Mexico, Hungary, Indonesia, Chile, Colombia, Peru, Turkey and South Africa. However, underweights to rates in Poland and Thailand were unhelpful. Currency positioning was negative. Positive contributions from overweight exposure to the Brazilian real, Hungarian forint, Malaysian ringgit, South Korean won and South African rand were offset by the negative impact from underweights to the Swiss franc, Czeck koruna, Polish zloty, Romanian leu and Thai baht. Positioning in the US dollar was also ineffective.

The Fund underperformed the benchmark return over the fourth quarter of 2024. Rates positioning was negative with overweights to rates in Brazil, Mexico, Peru, the Czech Republic, and Hungary detrimental to returns. Underweights to rates in China and Thailand were also unhelpful. However, an overweight to rates in Turkey was beneficial. Currency positioning was negative with overweights to the Brazilian real, Colombian peso, Hungarian forint, South Korean won and the South African rand detracting. An underweight to the US dollar also weighed. However, positive contributions from underweights to the Czech koruna, Swiss franc, Chinese yuan, Polish zloty, Thai baht and Romanian leu limited the impact. An overweight to the Nigerian naira also contributed positively.

The Fund underperformed the benchmark return over the quarter. Rates positioning was positive, benefitting from overweights to rates in Colombia and Mexico. Overweight exposure to 5-year Brazilian rates was also rewarded. However, underweights to rates in India, Poland, Romania and Thailand were unhelpful. In addition, an overweight to South African rates detracted. Currency positioning was negative due to underweights to the Czech koruna, Polish zloty, Indian rupee, Romanian leu, and the Thai baht. An overweight to the Turkish lira and allocations to the US dollar were also ineffective. However, limiting the negative impact were contributions from overweight exposure to the Brazilian real and Hungarian forint.

Past performance is no indication of present or future performance.

Principal Money Manager's Report

Principal Money Manager as at 31 March 2025

Russell Investments Limited

Money Managers as at 31 March 2025

FIL Pensions Management

Investment Objective

The investment objective of Russell Investments Euro Fixed Income Fund (the "Fund") is to provide income and capital growth by investing primarily in Euro denominated transferable debt instruments, which include, but are not limited to, municipal and government bonds, agency debt (being that issued by local authorities or public international bodies of which one or more States is a member), mortgage related debt and corporate debt that are listed, traded or dealt in on a Regulated Market in the Organisation for Economic Co-operation and Development ("OECD") and which may have fixed or floating interest rates.

Fund Performance

During the 12-month period ended 31st March 2025, the Russell Investments Euro Fixed Income Fund (Class B) returned 1.9 per cent on a gross-of-fee basis (0.9 per cent on a net-of-fee basis), while the benchmark* returned 2.1 per cent.

Market Comment

Early in the second quarter of 2024 investors in Europe were encouraged by weakening inflation and signs of economic recovery. Inflation was unchanged in April after falling to its lowest in March since November 2023 while core inflation fell to 2.7% from 2.9%. In May markets were buoyed by solid corporate results, signs of a strengthening economy in Gross Domestic Product ("GDP") and Purchasing Managers' Index ("PMIs") data, and expectations of an imminent interest rate cut. In June, European markets faltered, dragged down by France amid heightened political uncertainty due to the French president's decision to call snap parliamentary elections following the far right's success in European Union elections. Concerns mounted over the prospect of a victory by the far right Rassemblement National party and its spending plans. Investors flocked to German government bonds, seen as a safe haven, which pushed the spread between French and German government bond yields to its highest since 2017 in the week following the announcement, widening further ahead of the first-round election. Over the quarter the yield on 10-year German bunds increased by 20 basis points ("bps") to 2.50%. The previous week the European Central Bank ("ECB") cut its benchmark interest rate by 25 bps to 3.75% from 4.0%, its first rate cut in five years. However, the bank provided no signs on further action and raised its inflation forecasts for this year and 2025. The Swiss National Bank also cut its key policy rate in June, by 25 bps to 1.25%, after a similar move in March, in line with market expectations.

In the third quarter of 2024, the benchmark 10-year German bund yield ended 38 bps lower at 2.12%. The gap between French and German borrowing costs virtually doubled while French 10-year bond yields traded in line with Spain's for the first time since 2008 reflecting concerns about the challenges faced by France's new Prime Minister, Michel Barnier and his government. Expectations of an imminent rate cut by the ECB were boosted as eurozone inflation fell sharply to a three-year low in August (2.2% Year on Year ("YoY")), down from 2.6%, helped by bigger than expected falls in Germany and Spain. After the ECB lowered rates at its September meeting, bigger than expected falls in inflation in France and Spain strengthened expectations of a 25 bps interest rate cut in October. In addition, disappointing September PMIs led to speculation that the ECB may have to accelerate its pace of monetary easing to avoid a recession. The manufacturing PMI was the lowest recorded this year while the services PMI was impacted by the absence of an Olympics boost that flattered August's outcome.

In the fourth quarter of 2024, the yield on German 10-year bunds rose 25 bps to 2.37%. Yields fell early in October 2024 as weakening inflation raised expectations for a rate reduction that month. The ECB followed through with a 25-bps rate cut, citing encouraging inflation data but a deteriorating economic outlook. However, towards month-end yields climbed to a three-month high as the latest economic data prompted investors to rethink expectations of rate cuts as inflation rose above forecasts and GDP positively surprised with the eurozone economy expanding more than expected in the third quarter. In November, yields fell following Trump's election win, which prompted concerns over the impact of tariffs and a potential trade war as well as issues over defence. Attention turned to the collapse of the German government after Chancellor Scholz sacked his finance minister following disagreements on spending and reforms. Heightened political risk in France also weighed as Michel Barnier's government fell after a no-confidence vote. Yields trended lower as evidence of the region's weak economy strengthened expectations of further monetary easing. French bonds were pressured after Moody's downgraded the country's credit rating from Aa2 to Aa3, citing a deteriorating economic outlook and political instability. As the ECB reduced its key deposit rate in December it warned that growth would be weaker than anticipated, with eurozone GDP growth of 0.7% this year versus its previous forecast of 1.8%. Towards quarter-end yields rose to a seven-week high prompted by the Fed's hawkish tone over further monetary easing. This prompted investors to scale back expectations for rate cuts by the ECB in 2025.

Russell Investment Company II plc Russell Investments Euro Fixed Income Fund

Principal Money Manager's Report - continued

Bond yields rose in the first quarter of 2025 on expectations of a significant rise in defence spending and an increase in debt issuance. This followed President Trump's stance that Europe should pay more for its defence as it signalled retreat from supporting Ukraine. Constantly shifting rhetoric from the US Administration heightened uncertainty over US trade policy, possibly leading to more aggressive easing by the ECB as some industries, notably carmakers, warned of the negative impact of President Trump's planned tariffs on European goods. In Germany's election, the Christian Democrat Party won most votes but lacked an overall majority leading to prolonged negotiations to form a coalition government. Later Friedrich Merz, the Chancellor-in-waiting, won a major success when the country's upper house approved the constitutional reform needed to allow unlimited defence spending and fund a €500 billon infrastructure package. Prior to this, the planned public spending and fiscal reforms sent the yield on 10-year bunds sharply higher before easing back slightly. Over the period the yield on 10-year German bunds increased by 37 bps to 2.74%.

General Comment on Money Managers/Performance

The Fund outperformed the benchmark in the second quarter. An underweight to France's sovereign debt was a key contributor to excess returns, followed by an underweight to Italy. Within credit, an overweight to European investment grade financials was also additive. However, an overweight to the benchmark 10-year core eurozone bond detracted.

The Fund outperformed the benchmark in the third quarter. An overweight to the benchmark 10-year core eurozone bond was a key driver of excess returns. Within credit, an overweight to European investment grade financials and high yield industrials was also rewarded. However, an underweight to the sovereign debt of Italy and Spain detracted.

The Fund underperformed the benchmark in the fourth quarter. An overweight to the benchmark 10-year core eurozone bond was a key driver of negative relative returns. An underweight to the sovereign debt of Spain and Italy was also unrewarded. However, within credit, an overweight to European investment grade financials and industrials contributed positively.

The Fund underperformed the benchmark in the first quarter. An underweight to the benchmark 10-year core eurozone bond was a key driver of negative relative returns. Underweight allocations to the sovereign debt of France and Italy were also unhelpful. Within credit, an underweight to European high yield industrials was unrewarded. However, positioning within European investment grade financials contributed positively.

Past performance is no indication of present or future performance.

A copy of the list of changes in the portfolio during the reference period may be obtained free of charge from the Company's Administrator or from the paying agent or paying and information agents in each country of distribution.

^{*} Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed. Securities held to maturity, which matured during the reporting period, have been excluded from the Statement of Changes in Composition of Portfolio.

** Perpetual Bonds.

Principal Money Manager's Report

Principal Money Manager as at 31 March 2025

Russell Investments Limited

Investment Adviser as at 31 March 2025

INVESCO Asset Management Limited Joh. Berenberg, Gossler & Co. KG Liontrust Investment Partners, LLP Numeric Investors, LLC Pzena Investment Management, LLC

Investment Objective

Russell Investments Pan European Equity Fund (the "Fund") will seek to achieve capital appreciation by investing principally in equity securities listed on Regulated Markets in Europe, with a focus on reducing the carbon exposure of the Russell Investments Pan European Equity Fund relative to the MSCI Europe Index (EUR) - Net Returns (the "MSCI Europe Index"). The Fund may also invest in new issues for which application for listing on a Regulated Market in Europe will be sought. The Fund may hold such securities listed or traded on Regulated Markets worldwide of companies that are not incorporated, listed or traded in Europe but which receive the majority of their total revenue from European countries. The Fund will not be concentrating on any specific industry sector but will pursue a policy of active stock selection and active country allocation on the Regulated Markets in which it invests.

Fund Performance

During the 12-month period ended 31st March 2025, the Russell Investments Pan European Equity Fund (Class B) returned 7.1 per cent on a gross-of-fee basis (5.6 per cent on a net-of-fee basis), while the benchmark* returned 6.8 per cent.

Market Comment

In the second quarter of 2024, European equities underperformed global equities as gains in May reversed in June. Early in the quarter, optimism rose due to economic recovery signs and weakening inflation. However, political uncertainty in June, especially in France, led to market declines. The Customer Acquisition Cost ("CAC") 40 fell over 5%, and major banks saw shares drop by over 10%. The European Central Bank ("ECB") cut its interest rate to 3.75% but raised inflation forecasts. UK equities outperformed most markets in the second quarter, driven by solid corporate results and takeover news. The FTSE 100 hit new highs, and Gross Domestic Product ("GDP") growth was revised up to 0.7% Quarter on Quarter ("QoQ"). Inflation fell to 2.0% in May, meeting the Bank of England's ("BoE") target.

In the third quarter of 2024, European equities underperformed most global markets except Japan and the US. Political uncertainty lingered after France's far right failed to secure a majority in July's elections. Luxury stocks declined early in the quarter on weak LVMH sales and China demand concerns but rebounded in late September on Chinese stimulus, with Kering up over 20% and LVMH and Richemont rising 18%. The eurozone economy grew 0.3% in Q2, beating forecasts, though Germany contracted 0.1%. Industrial production fell 0.3% Month on Month ("MoM") in July, led by a 3.0% drop in Germany. The ECB cut rates by 25 bps in September as inflation fell to a three-year low of 2.2%. Softer inflation in France and Spain and weak September Purchasing managers' index ("PMIs") raised expectations of another rate cut in October. Meanwhile, UK equities outperformed most global markets in the third quarter of 2024, led by consumer staples and utilities. Mining stocks rebounded late in the quarter on stronger Chinese demand prospects. Market sentiment improved after Labour's election win, driving gains in housebuilders. A 25-bps rate cut to 5.0% in August—the first since 2020—further boosted confidence. Inflation and wage growth softened, while unemployment fell. Retail sales beat forecasts, and the housing market showed signs of recovery. However, later in the quarter, waning consumer confidence and criticism of Labour's messaging raised concerns ahead of the October Budget.

European equities underperformed all major markets in the final quarter of 2024, weighed down by weak economic data, political instability in France and Germany, and concerns over US tariffs—particularly affecting automakers. The Russia-Ukraine conflict and doubts about China's stimulus added to investor caution. Germany cut its 2024 GDP forecast to -0.2%, while its government collapsed following internal disputes. In France, political risk rose after Michel Barnier's government fell, marking the fourth prime minister this year. The ECB cut rates but downgraded eurozone growth forecasts to 0.7% for 2024 (from 1.8%) and trimmed estimates through 2027. Meanwhile, UK equities outperformed Europe, Asia ex-Japan, and emerging markets in the final quarter. Financials led gains; materials underperformed. Inflation fell to a three-year low of 1.7% Year on Year ("YoY") in September, briefly boosting sentiment. However, Labour's ambitious October Budget—with £40bn in tax hikes and £30bn in borrowing—sparked inflation concerns. Headline inflation rose to 2.6% in November, while core inflation hit 3.5%. Pay growth accelerated to 5.2%. The economy contracted by 0.1% in October and was flat for the quarter. Retail sales and factory orders disappointed, though December services PMIs showed unexpected strength.

Principal Money Manager's Report - continued

European equities outperformed all major markets in the first quarter of 2025, aided by the absence of US tariffs and limited exposure to overvalued AI stocks. Defence stocks rose on expectations of increased spending after Trump's NATO comments, while financials (e.g., Société Générale, Banco Santander) gained on stronger lending. Tech and real estate lagged. Inflation eased to 2.3% YoY in February; core inflation dipped to 2.6%. Eurozone Q4 GDP was revised up to 1.2% YoY. German economic sentiment hit a two-year high, and political stability improved following the Christian Democrats' election win. Incoming Chancellor Merz secured constitutional reform to allow unlimited defence spending and fund €500bn in infrastructure, bolstering growth prospects. Meanwhile, UK equities were second only to Europe in the first quarter, as investors rotated out of expensive US stocks. Energy and telecoms led gains, while takeover chatter between Rio Tinto and Glencore pushed the FTSE 100 to record highs above 8,800. Strong earnings, better-than-expected Q4 GDP (+0.1% QoQ), and reduced tariff risk supported sentiment. However, growth concerns re-emerged after January GDP fell 0.1%, below expectations. Industrial output also missed forecasts. Inflation dropped more than expected in February (headline: 2.8%, core: 3.5%), and services PMI rose to 52.5, though manufacturing slipped to 44.9.

General Comment on Money Managers/Performance

The Fund outperformed the benchmark in the second quarter. The tilt towards value was favourable over the period. An underweight to and selection within consumer discretionary (underweight LVMH) was additive. Stock selection was also rewarded within industrials (underweight Airbus, overweight Wartsila), and consumer discretionary (underweight Stellantis). However, selection within health care (overweight Sartorius Stedim Biotech, underweight Novo Nordisk) limited further outperformance.

The Fund finished ahead of the benchmark in the third quarter. In factors, the tilt towards small cap value stocks was rewarded during the period. In sectors, key contributors to excess positive returns included underweights to Novo Nordisk within health care and ASML within technology. Stock selection within consumer discretionary (overweight Industria de Diseno Textil, underweight LVMH) was also rewarded. An underweight to and selection within energy (underweight Shell), and selection within financials was also additive. However, an overweight to technology and underweight to utilities detracted from further outperformance.

The Fund outperformed the benchmark in the fourth quarter. The tilt towards momentum and value stocks was helpful. In sectors, an overweight to and selection within consumer discretionary (overweight Pandora, underweight LVMH) was additive. Selection within financials (overweight Direct Line Insurance and Euronext) was also beneficial. However, selection within industrials (underweight Siemens Energy and Airbus) limited further outperformance.

The Fund underperformed the benchmark in the first quarter. The tilt towards small cap and quality stocks was unfavourable. In sectors, stock selection within industrials (underweight Rheinmetall) was unrewarded, followed by selection within technology (underweight SAP) and financials (underweight Allianz). However, underweight allocations to the Dutch chipmaker ASML and Danish pharmaceutical firm Novo Nordisk, contributed positively.

Past performance is no indication of present or future performance.

A copy of the list of changes in the portfolio during the reference period may be obtained free of charge from the Company's Administrator or from the paying agent or paying and information agents in each country of distribution.

^{*} Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed. Securities held to maturity, which matured during the reporting period, have been excluded from the Statement of Changes in Composition of Portfolio.

Russell Investments Management, LLC

Investment Advisers as at 31 March 2025

Jacobs Levy Equity Management Inc Numeric Investors, LLC

Investment Objective

Russell Investments U.S. Quant Fund (the "Fund") seeks to achieve capital appreciation by investing primarily in U.S. equity securities, including common stock, American depositary receipts, global depositary receipts, convertibles and warrants listed, traded or dealt in on a regulated market in the U.S. The Fund will seek to achieve its investment objective by investing in derivative instruments that have as their underlying exposure the foregoing (e.g. swaps) and may implement bought (long) and synthetic short (sold) positions through the use of derivatives. The Fund may invest in new issues for which application for listing on a Regulated Market will be sought. The Fund may also hold such securities listed or traded on Regulated Markets worldwide of companies that are not incorporated, listed or traded in the U.S. but which receive the majority of their total revenue from the U.S. At all times, at least two-thirds of the Fund's net assets will be invested in the foregoing instruments of issuers domiciled in the U.S. Russell Investments. The Fund will be highly diversified and, therefore, will not be concentrating on any specific industry sectors but will pursue a policy of active stock selection in the markets, with an emphasis on quantitative methods of security selection and/or portfolio construction. These methods employ investment models incorporating mathematical formulae based on statistical analysis.

Fund Performance

During the 12-month period ended 31st March 2025, the Russell Investments US Quant Fund (Class B) returned 7.5 per cent on a gross-of-fee basis (6.2 per cent on a net-of-fee basis), while the benchmark* returned 7.4 per cent.

Market Comment

US equities outperformed most other markets except Asia Pacific ex Japan and emerging markets in the second quarter of 2024. This was despite registering losses in April when investors became more cautious on the back of potentially fewer interest rate cuts amid stubbornly high inflation, and fears over the conflict in the Middle East. Shares rallied later in the month on solid quarterly results although the gains were driven by a narrow cohort of technology stocks. Alphabet, Microsoft and Apple all reported better-than-expected quarterly earnings. In addition, impressive results and upgraded guidance from Nvidia erased investor concerns as to whether the company can maintain its momentum. In May, signs of a cooling labour market, weakening inflation and flat retail sales boosted expectations that the Federal Reserve ("FED") would implement a rate cut by September and a second by year-end, sending equities higher. However, shares fell later in the month on solid purchasing managers' index ("PMIs") data and a hawkish tone in the minutes of the latest Fed rate-setting meeting. In June, strong non-farm payroll figures dented hopes of imminent rate cuts by the Fed. However, encouraging inflation data sent equities higher.

US equities underperformed the global index and other markets except Japan in the third quarter of 2024. July saw a marked turnaround, with value stocks and small caps the best performers, while growth lagged, particularly large cap technology names. Semiconductor shares were impacted by reports of potential US restrictions on companies that provide China with advanced chip technology. Signs of weakening economic growth and a cooling jobs market heightened fears of recession. Market volatility increased in August with the CBOE Volatility Index soaring to the highest since 2020. The sell-off was exacerbated by the unwinding of the yen carry trade, prompted by a strengthening yen. Market nerves were tempered by broadly positive US economic news. Fed chair Powell's comments that the "the time has come for policy to adjust", also helped to lift market sentiment. The 50-bps rate cut by the Fed buoyed markets amid growing conviction it would be successful in achieving a "soft landing" for the economy.

US equities outperformed the global index and all other markets in the fourth quarter of 2024. Shares reached fresh highs in October and climbed further following the US presidential election outcome in November. Positive sentiment was fuelled by optimism that President-elect Trump's policies, including tax cuts and tariffs, would be business friendly. Consumer discretionary and technology were the best-performing sectors. The Fed's rate cut two days after the election propelled stocks higher still. Meanwhile, some of Trump's immediate choices for his administration team proved controversial. Probably the most contentious was the nomination of Robert F Kennedy Jr, a critic of the pharmaceutical industrial, to head the Health and Human Services Department ("HHS"). Health care shares fell sharply on the news. Later, markets applauded Trump's choice of hedge fund manager Scott Bessent as his Treasury Secretary. However, the president-elect's pledge on social media to impose significant tariffs on Canada, Mexico and China sent ripples through global markets. In the economy, consumer price inflation ("CPI") ticked up in October, to 2.6% Year on Year ("YoY") from 2.4%, in line with expectations, rising again in November to 2.7%. Revised data showed the economy grew at an annualised 3.1% in the third quarter versus the 2.8% previous estimate, the strongest growth

Principal Money Manager's Report - continued

rate year-to-date. As the Fed cut interest rates by 25 bps in its final policy meeting of the year, its hawkish message of fewer rate cuts in 2025 than previously anticipated sent shares sharply lower. However, November's personal consumption expenditures ("PCE"), the Fed's preferred inflation metric, was a touch below forecasts, which calmed market sentiment.

US equities underperformed the global index, and all other markets in the first quarter of 2025, dragged down by technology stocks. Technology names suffered a broad sell-off late in January following news that DeepSeek, a Chinese artificial intelligence ("AI") developer, had launched a new language model requiring notably less processing power and investment but giving comparable performance to those of peers. This triggered concerns over competition in the AI space and levels of capital expenditure in the broader technology industry. After hitting fresh highs in mid-February equities weakened as optimism that President Trump's policies would be pro-business turned to concerns than his planned tariffs would damage the economy. Consumer surveys highlighted the sharp deterioration in sentiment since the November election.

General Comment on Money Managers/Performance

The Fund was flat against the benchmark in the second quarter. In factors, the tilt towards growth and momentum stocks was favourable. In sectors, stock selection within communication services (underweight Walt Disney) and health care (underweight CVS) was additive. Selection within utilities (overweight Vistra) was also effective. However, selection within industrials (overweight Old Dominion Freight Line) limited excess returns.

The Fund was flat against the benchmark in the third quarter. Factor positioning was mixed, as tilts towards higher quality and growth names were not rewarded while tilts towards smaller capitalization stocks helped reduce the negative impact. In sectors, selection within financials (overweight Mastercard, underweight Visa) was a key contributor to excess returns. A sector underweight to energy and an overweight to industrials was also additive.

The Fund underperformed against the benchmark in the fourth quarter. In factors, the tilt towards value stocks was unfavourable. In sectors, stock selection within consumer discretionary detracted, especially the underweight to Tesla. Other key detractors included underweights to technology firms Broadcom and Palantir. Sector positioning and selection within financials (overweight Nu Holdings) and materials (DuPont de Nemours) was also unhelpful. However, overall selection within technology (underweight Advanced Micro Devices) contributed positively.

The Fund outperformed the benchmark in the first quarter. In factors, the tilt towards quality stocks was unfavourable, while the tilt towards value was beneficial. In sectors, selection within consumer discretionary (underweight Tesla) and health care (overweight McKesson Corporation) was beneficial. Selection within technology (underweight Broadcom) was also rewarded. However, selection within consumer staples (underweight Philip Morris International) and industrials detracted.

Past performance is no indication of present or future performance.

A copy of the list of changes in the portfolio during the reference period may be obtained free of charge from the Company's Administrator or from the paying agent or paying and information agents in each country of distribution.

^{*} Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed. Securities held to maturity, which matured during the reporting period, have been excluded from the Statement of Changes in Composition of Portfolio.

Investment Objective

Russell Investments World Equity Fund (the "Fund") seeks to achieve capital appreciation by investing predominantly in equity securities, including common stock, convertibles and warrants, listed, traded or dealt in on any Regulated Market worldwide, with a focus on reducing the carbon exposure of the Russell Investments World Equity Fund relative to the MSCI World Index (USD) - Net Returns (the "MSCI World Index"). The Fund may also invest in new issues for which application for listing on a regulated market will be sought. The Fund may hold not more than 20 per cent of its net assets in equity securities of companies whose securities are listed, traded or dealt in on any regulated market in the Emerging Markets ("EM"). The Fund will not be concentrating on any specific markets or industry sectors but will pursue a policy of active stock, sector and country allocation on the Regulated Markets in which it invests.

Fund Performance

During the 12-month period ended 31 March 2025, the Russell Investments World Equity Fund (Class B) returned 4.8 per cent on a gross-of-fee basis (3.8 per cent on a net-of-fee basis), while the benchmark* returned 7.0 per cent.

Market Comment

The MSCI World Net Index rose 2.6% over the second quarter of 2024. Gains were more modest versus the previous quarter with a recovery in May after a pullback in April. Markets diverged with Asia Pacific ex Japan, the US and emerging markets performing well while Japan, Canada and Europe ex UK lagged, recording losses. Political uncertainty was heightened by surprise election announcements in the UK and France alongside the unusually large number of global elections already scheduled this year. Oil prices were volatile, recovering in June after falls in April and May. US dollar performance was mixed, rising against the euro and yen but down slightly against UK sterling. The Federal Reserve ("FED") and the Bank of England ("BoE") kept interest rates unchanged at their policy meetings. The European Central Bank ("ECB") held rates in April but cut its benchmark rate by 25 basis points ("bps") in June.

The index climbed 6.4% over the third quarter of 2024. After a shaky start due to recession fears, shares rebounded on more encouraging economic data from the US and signals from Fed Chair Jerome Powell that US interest rates would be lowered imminently. The central bank followed through with a bumper 50 bps interest rate cut in September. Later in the quarter, equities were further boosted by new measures in China aimed at reviving the ailing economy. Aside from the Fed's action, the BoE cut its key interest rate by 25 bps in August. The ECB lowered rates in September while the Bank of Canada cut its key interest rate by 25 bps twice over the quarter. In contrast, the Bank of Japan ("BoJ") raised its benchmark interest rate to 0.25%, its highest in 15 years. The US dollar weakened against most currencies, impacted by the Fed's move on interest rates.

Global equities dropped by 0.2% over the fourth quarter of 2024. All markets recorded losses over the period except the US where equities were propelled by Donald Trump's unexpectedly decisive victory in the US presidential election. Europe was the laggard, impacted by a weak economic outlook and political uncertainty in its two major markets. Asia ex Japan and emerging markets also underperformed. Oil prices rose modestly helped by signs of strengthening manufacturing activity in China. The Fed and the ECB both lowered interest rates by 25 bps twice over the period, while the Bank of Canada implemented two 50-bps cuts. The BoE cut rates by 25 bps in November but left them unchanged at its December meeting.

The index fell 1.8% over the first quarter of 2025. The negative outcome was entirely due to weakness in US equities which retreated on concerns about the impact of US trade policy on economic growth and inflation. All other markets made gains with Europe and the UK the best performers. Oil prices climbed in January before retreating below \$70 per barrel, ending the quarter relatively flat. Gold broke through the \$3,000 per troy ounce threshold, hitting fresh highs amid a flight to safety. The Fed kept rates unchanged over the quarter. However, at its March meeting it raised its inflation expectations and lowered its GDP growth forecasts. The Bank of Canada and the ECB both lowered interest rates by 25 bps twice, while the BoE cut rates by 25 bps in February but left them unchanged in March. Earlier, the BoJ raised its policy rate by 25 bps to 0.5%, its highest in 17 years.

Principal Money Manager's Report - continued

General Comment on Money Managers/Performance

The Fund underperformed the benchmark over the second quarter of 2024. The Fund's tilt to value and small caps was a headwind in the market environment. In sectors, an underweight to and stock selection within information technology was the main detractor of relative returns, particularly semiconductors. Although an off-benchmark position in TSMC contributed positively, an underweight exposure to Nvidia was punished. An underweight to Apple was also unhelpful. Stock selection within industrials was detrimental (overweight Daimler Trucks) and in consumer staples an overweight to Kroger Co was ineffective. In health care an off-benchmark position in Nippon Shinyaku detracted. Elsewhere, in energy an overweight to Neste Oyj was unhelpful. However, an underweight to the real estate sector and an overweight to communication services were beneficial, limiting further downside.

The Fund underperformed the positive benchmark over the third quarter of 2024. The impact of factor positioning was muted, although the Fund's tilt to small caps was helpful. In sectors, stock selection within information technology detracted including an off-benchmark position in Samsung Electronics, an underweight to Apple, and an overweight to ST Microelectronics. However, underweights to Nvidia and ASML were rewarded. In real estate, although stock selection was positive this was offset by underweight exposure to the sector. Stock selection within consumer staples was ineffective (overweight Heineken), although an overweight to Kellanova was helpful. On the positive side, stock selection in financials was beneficial (underweight Mitsubishi UFJ; overweight Moody's, Allstate). There were also positive contributions from effective selection within health care (overweight HCA Healthcare).

The Fund underperformed the benchmark return over the last quarter of 2024. Its small cap tilt was a headwind in the market environment. In sectors, overweight exposure to and stock selection within health care was detrimental (overweight Novo Nordisk, HCA Healthcare, Elevance Health). Underweight exposure to and stock selection within information technology also detracted (underweight Nvidia, Broadcom, Apple) albeit an off-benchmark position in TSMC was rewarded. In consumer discretionary an underweight to Tesla was unhelpful. However, underweight exposure to real estate was effective, limiting further underperformance.

The Fund outperformed the benchmark return over the first quarter of 2025, benefitting from effective stock selection. In sectors, underweight exposure to and stock selection within consumer discretionary was rewarded (underweight Tesla, overweight AutoZone). Overweight exposure to and stock selection within health care, (overweight HCA Healthcare, CVS) and industrials (overweight Thales) were also effective. Underweight exposure to information technology was beneficial, including underweights to Apple and Nvidia. In financials, although an underweight to the sector was unhelpful stock selection was effective (overweight ING). However, underweight exposure to energy, utilities and real estate detracted, weighing on gains.

Past performance is no indication of present or future performance.

A copy of the list of changes in the portfolio during the reference period may be obtained free of charge from the Company's Administrator or from the paying agent or paying and information agents in each country of distribution.

^{*} Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed. Securities held to maturity, which matured during the reporting period, have been excluded from the Statement of Changes in Composition of Portfolio.

Bin Yuan Capital (Cayman) Limited Keywise Capital Management (HK) Limited

Investment Objective

The investment objective of the Russell Investments China Equity Fund (the "Fund") is to achieve long-term capital appreciation through investing in companies established in or operating in the People's Republic of China (the "PRC"). In order to achieve the Fund's investment objective, the Fund will invest primarily (meaning no less than 80 per cent of NAV) in Chinese companies listed on exchanges worldwide. Up to 20 per cent of NAV may be invested in: (i) Permitted Securities including stock index futures (subject to a maximum of 10 per cent in fixed income securities). Stock index futures may be traded outside or inside the PRC; (ii) Cash which may be held outside or inside the PRC, and may be equitized using stock index futures. Cash held inside the PRC is used for ancillary liquidity purposes; and/or (iii) UCITS Exchange Traded Funds that are considered to be collective investment schemes and that meet the criteria set out in the Central Bank Regulations (subject to a maximum of 10 per cent).

Fund Performance

During the 12-month period ended 31st March 2025, the Russell Investments China Fund (Class A) returned 26.0 per cent on a gross-of-fee basis (24.5 per cent on a net-of-fee basis), while the benchmark* returned 28.5 per cent.

Market Comment

Chinese equities fared well in the second quarter of 2024, outperforming the Emerging Market index. Accommodative government policy changes helped boost wider investor sentiment. The utilities, communication services (BiliBili, Tencent), energy and financials sectors performed well. The real estate sector ended in negative territory but received a boost after the government removed the mortgage rate floor and cut the minimum down-payment ratio by 5%. Local governments were also financially supported to purchase excess housing supply. Investors shrugged off a sovereign debt rating outlook downgrade by Fitch, to negative from stable.

Chinese equities fared well in the third quarter of 2024. The market soared in September 2024 in the biggest weekly rise since 2008 in response to new central bank and government efforts to support the economy amid concerns the official growth target of c.5% might be missed. The People's Bank of China cut interest rates and lowered the level of reserves banks must hold, the so-called reserve requirement ratio ("RRR"). It also eased restrictions on borrowing to invest in stocks on Chinese exchanges and implemented measures to support the property sector. This included ordering banks to reduce mortgage rates for existing home loans and lowering the deposit needed for purchasing a second home.

In the final quarter of 2024, Chinese stocks retreated as the market optimism triggered by government measures announced in September gave way to scepticism among investors. President-elect Trump's tariff threats and the prospect of additional US sanctions aimed at limiting China's access to US semiconductors also weighed on sentiment. Mainland information technology stocks performed well, including Xiaomi, BYD Electronic and Sunny Optical Technology. Financials also outperformed. Consumer discretionary sector was the key detractor with Alibaba, Nio, JD.com and Li Ning recording negative double-digit returns. Real estate and materials were also among the weakest performers.

China equities rebounded in the first quarter of 2025. Central bank support for greater liquidity in the stock market and efforts to boost innovation and consumption lifted market confidence. Encouraging economic data, including reports the economy expanded 5.0% in 2024, in line with the government target, also helped. In February, Chinese technology and consumer discretionary names gained following the boost from the DeepSeek AI model release and a string of government stimulus measures.

General Comment on Money Managers/Performance

The Fund outperformed the positive benchmark return in the second quarter of 2024. The Fund's strong stock selection drove outperformance, particularly within the information technology and materials sectors. Selection was also rewarded within health care and utilities, although this effect was partially mitigated by negative sector positioning. The Fund's positioning strategy was a key contributor and extended its year-to-date outperformance, primarily through positive exposure to value alongside effective sector positioning and stock selection. This included overweights to Tencent and COSCO Shipping.

Principal Money Manager's Report - continued

The Fund underperformed the strong benchmark return in the third quarter. The Fund's exposure to growth and small cap stocks suited this environment. Negative selection within the consumer discretionary sector weighed on overall performance, with underweights to Alibaba and Meituan unrewarded. An overweight to and negative selection within the information technology sector was a further detractor. However, sector allocation was positive on aggregate, driven by large underweights to energy and utilities – the two worst-performing sectors this quarter. Positive performance from the Russell Investments positioning strategy also limited negative relative returns as it extended its year-to-date outperformance.

The Fund finished in-line with the negative benchmark return in the fourth quarter. The Fund benefitted from positive exposure to small cap stocks. However, high growth stocks were out of favour which did not suit the Fund's positioning. Sector positioning was positive on aggregate and included an overweight to information technology and underweight to consumer staples. The large underweight to financials (banks) was a notable detractor. Stock selection was weakest within the information technology sector and was also negative within financials. In contrast to the previous quarter, stock selection was effective within the consumer discretionary sector and included an overweight to MINISO Group Holding and an underweight to Alibaba Group.

The Fund underperformed the strong benchmark return in the first quarter of 2025. The Fund's tilt towards small cap stocks did not suit this market environment, with large cap names leading the market higher. Stock selection within the consumer discretionary and information technology sectors detracted, with an overweight to MINISO Group Holding and underweight to Alibaba Group key detractors at the stock level. However, effective selection within industrials, financials and consumer staples limited further underperformance.

Past performance is no indication of present or future performance.

A copy of the list of changes in the portfolio during the reference period may be obtained free of charge from the Company's Administrator or from the paying agent or paying and information agents in each country of distribution.

^{*} Significant portfolio changes are defined as the value of purchases exceeding 1% of total cost of purchases, and sales exceeding 1% of total proceeds. At a minimum the twenty largest purchases and twenty largest sales must be shown. Should there have been less than that amount of transactions, all such transactions have been disclosed. Securities held to maturity, which matured during the reporting period, have been excluded from the Statement of Changes in Composition of Portfolio.

Notes to the Financial Statements

31 March 2025

1. Basis of Preparation

a) Statement of Compliance

The Company's financial statements are prepared in accordance with accounting standards generally accepted in Ireland ("Irish GAAP") including Financial Reporting Standard ("FRS") 102, the financial reporting standard applicable in the UK and Republic of Ireland, Irish statute comprising the Companies Act and the provisions of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) (the "UCITS Regulations"). Irish GAAP, in preparing financial statements which present a true and fair view, are those issued by the Financial Reporting Council ("FRC"). The Companies Act prescribed formats for financial statements have been adapted to make them more applicable to investment funds.

The financial statements are prepared on a going concern basis for all Funds.

The Company has availed of the exemption available to open ended investment funds that hold a substantial proportion of highly liquid and fair valued investments under Section 7 of FRS 102 and is not presenting cash flow statements. The information required by FRS 102 to be included in a statement of comprehensive income is, in the opinion of the Directors, contained in the Profit and Loss Account of each Fund.

Investments on each individual Schedule of Investments less than 500 in value in the presentation currency of the respective Fund are rounded to zero. The transferable securities listed on each Fund's Schedule of Investments are listed in the order of country of incorporation of the respective security and the number of shares, in respect of equities, and the principal amount, in respect of debt instruments, held have been rounded to the nearest thousand (number of shares are rounded to zero where less than 500 shares are held).

b) Combined Financial Statements

The combined financial statements of the Company are measured using Euro, being the functional currency of the primary economic environment in which it operates. The Company has also adopted Euro as the presentation currency. The financial statements of each Fund are prepared in the functional currency of the respective Fund. The functional currency of each Fund is that as disclosed on the primary statements of the respective Fund. The accounts of the individual Funds are translated into Euro and accumulated for preparation of the combined financial statements.

For the purpose of producing the Combined Balance Sheet, respective financial year end exchange rates are used. For the purpose of producing the Combined Profit and Loss Account and the Combined Statement of Changes in Net Assets Attributable to Redeemable Participating Shareholders, the average exchange rates for the respective financial year are used. The currency gain or loss on retranslation of opening net assets, and the average rate difference arising on the translation of the Combined Profit and Loss Account and the Combined Statement of Changes in Net Assets Attributable to Redeemable Participating Shareholders, is included in the Combined Statement of Changes in Net Assets Attributable to Redeemable Participating Shareholders. This translation adjustment does not impact the net asset value per share of any of the individual Funds.

c) Estimates and judgements

The preparation of financial statements in conformity with Irish GAAP requires the use of certain critical accounting estimates. It also requires the Board of Directors, based on the advice of the Principal Money Manager, to exercise its judgement in the process of applying the Company's accounting policies. Management also makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are determining fair values of certain financial instruments, as discussed in section a) of Note 2 to the financial statements and determining the functional currency of the Company and individual Funds as discussed in section d) of Note 2 to the financial statements.

31 March 2025

2. Accounting Policies

The significant accounting policies adopted by the Company for the financial year ended 31 March 2025 are as follows:

a) Financial Instruments at Fair Value through Profit or Loss

This category has two sub-categories: financial assets and liabilities held for trading, and those designated by Directors at fair value through profit and loss at inception. All instruments on each Fund's Schedule of Investments are classified at fair value through profit or loss. Subsequent to initial recognition, all instruments classified at fair value through profit or loss are measured at fair value with changes in their fair value recognised in the Profit and Loss Account.

i) Investments

Securities listed on a recognised stock exchange or traded on any other regulated market are valued at the current last traded market price on the stock exchange or market which constitutes the principal market for such securities. When applicable, the Principal Money Manager or a delegate of the Principal Money Manager i.e. Russell Investments Securities Valuation Committee EMEA will assess unlisted and suspended securities for their net realisable value or the last traded price from broker-dealers for non-exchange-trade purposes. In some cases, fair value techniques may be adopted. Such techniques involve significant estimations and assumptions which means that the value from the technique may differ from the value when it is eventually realised.

Debt securities traded on a regulated market are valued on the basis of valuations provided by a principal market-maker or pricing service vendors approved by the Principal Money Manager. The same committee will review any stale price securities and may consider adjustments should the stale price be deemed not the fair value of the security based on market information provided.

Commercial paper is valued on an amortised basis with reference to the maturity date of these instruments, which approximates fair value.

Deposits with credit institutions are valued at par.

Investments in open-ended investment funds are valued at fair value at the latest available unaudited net asset value for the shares or units obtained from the relevant administrator. The changes in the daily net asset value of these shares are recognised as net gain (loss) on investment activities in the Profit and Loss Account.

ii) Forward and Spot Foreign Currency Exchange Contracts

The fair value of open forward foreign currency exchange contracts, and open foreign currency exchange spot contracts, is calculated as the difference between the contracted rate and the current forward rate that would close out the contract on the balance sheet date. For each relevant Fund, gains or losses on open foreign currency exchange spot contracts are included in cash at bank in the Balance Sheet and gains or losses on open forward foreign currency exchange contracts are included in financial assets or liabilities at fair value through profit or loss, as appropriate, on the Balance Sheet and Schedule of Investments.

iii) Futures Contracts

Initial margin deposits are made upon entering into futures contracts and are generally made in cash or cash equivalents. The fair value of futures contracts is based upon their current quoted daily settlement prices on the relevant exchange as of the balance sheet date. Changes in the value of open futures contracts are recognised as unrealised gains or losses on futures contracts until the contracts are terminated, at which time realised gains and losses are recognised. For each relevant Fund, gains or losses on open futures contracts are shown in the Schedule of Investments of each relevant Fund and as appropriate, on the Balance Sheet as financial assets or liabilities at fair value through profit or loss.

iv) Options

Each Fund may purchase and sell (write) call and put options on securities, securities indices and foreign currencies traded on a national securities exchange or in an over-the-counter market.

When a Fund writes a call or a put option, a premium is received by the Fund. The premium is subsequently marked to market to reflect the fair value of the option written, which is reported within financial assets or liabilities at fair value through profit or loss on the Balance Sheet for each relevant Fund. The difference between the premium amount and the fair value reported on the Balance Sheet gives rise to an unrealised gain (loss).

31 March 2025

2. Accounting Policies - continued

When a Fund purchases a call or a put option, a premium is paid by the Fund. The premium on purchased put options exercised is subtracted from the proceeds of the sale of the underlying security or foreign currency in determining the realised gain or loss. The premium on purchased call options exercised is included in determining initial fair value of the securities or foreign currency purchased. Premiums paid on the purchase of options which expire unexercised are treated as realised losses. The option is subsequently marked to market to reflect the fair value of the option purchased, which is reported within financial assets at fair value through profit or loss on the Balance Sheet for each relevant Fund.

The over-the-counter options are valued at close of business on the dealing day at the settlement price as provided by the counterparty/broker and the values are independently valued, at a minimum, weekly. The fair value of exchange traded options are based upon their quoted daily settlement prices on the relevant exchange. In the event of it being impossible or incorrect to carry out a valuation of a specific investment in accordance with the valuation rules, or if such valuation is not representative of a security's fair market value, the Directors are entitled to use other generally recognised valuation methods in order to reach a proper valuation of that specific instrument, provided that such method of valuation has been approved by the Depositary.

If an option which a Fund has written either expires on its stipulated expiration date or a Fund enters into a closing purchase transaction, a Fund realises a gain (or loss, if the cost of a closing purchase transaction exceeds the premium received when the option was sold) without regard to any unrealised gain or loss on the underlying security, and the liability related to such option is extinguished. If a call option which a Fund has written is exercised, a Fund realises a capital gain or loss from the sale of the underlying security, and the proceeds from such sales are increased by the premium originally received. When a put option which a Fund has written is exercised, the amount of the premium originally received will reduce the cost of the security which a Fund purchases upon exercise of the option.

v) Interest Rate Swaps and Credit Default Swaps

Interest rate swaps are valued using standard net present value methodologies whereby all future cash flows of the interest rate swaps are discounted to their present value using the appropriate interest rate.

The primary pricing source for interest rate swaps is the vendor, the secondary source is the counterparty price and the tertiary source is the price provided by the relevant Money Manager.

Over-the-counter credit default swaps are valued using standard net present value methodologies whereby all future cashflows of the fixed side of the swap are discounted to their present value using the appropriate interest rate and whereby all future cashflows of the default side of the swap are discounted to their present value based on the cost of default to the default payer. This cost is determined by the recovery rate, notional amount of the contract, and default probability among other factors. An upfront payment received by a Fund, as protection seller, is recorded as a liability on the Fund's books. An upfront payment made by a Fund, as protective buyer, is recorded as an asset on the Fund's books. The fair value of exchange traded credit default swaps are based upon their quoted daily settlement prices on the relevant exchange. Yearly payments received or paid are recorded as realised gains or losses and recognised in the Profit and Loss Account.

The primary pricing source for credit default swaps is the vendor, the secondary source is the counterparty price and the tertiary source is the price provided by the relevant Money Manager.

The notional amount of swap contracts is subsequently marked-to-market to reflect the fair value of the swap which is reported as a financial asset or liability at fair value through profit or loss as appropriate on the Balance Sheet for each relevant Fund.

The net amounts of interest payments and receipts on swaps are accrued in the Profit and Loss Account.

b) Net Gain (Loss) on Investment Activities

In respect of each instrument type classified as financial instruments at fair value through profit or loss, the movement in unrealised gains (losses) since the prior financial year end and realised gains (losses) are recognised within net gain (loss) on investment activities in the Profit and Loss Account for each relevant Fund.

See Note 4 for details of realised gains (losses) and movement in unrealised gains (losses) since the prior financial year end.

31 March 2025

2. Accounting Policies - continued

Gains and losses on options, swaps and swaptions are included in the investments figure for each relevant Fund. Gains and losses on foreign currency exchange contracts are included in foreign currency exchange gains (losses).

c) Accounting for Investment Transactions, Income and Expenses

Purchases and sales of investments are recognised on trade date, the date on which the Fund commits to purchase or sell the asset, provided the trade instructions have been received by the Depositary prior to the calculation of the Fund's net asset value, being 2.30pm (Irish time) on each dealing day (the "Valuation Point"). Any trade instructions received by the Depositary after the Valuation Point will be recognised on the next dealing day. Investments are initially recognised at fair value and transaction costs for all financial assets and financial liabilities carried at fair value through profit or loss are expensed as incurred.

Investments are recognised when the rights to receive cash flows from the investments are transferred to the Fund or the Fund has exposure to substantially all risks and rewards of ownership. Investments are derecognised when the rights to receive cash flows from the investments have expired or the Fund has transferred substantially all risks and rewards of ownership.

Realised gains and losses on investment transactions are calculated using the average cost method. Realised gains and losses on investments transactions in debt instruments are calculated as the difference between sales proceeds and the amortised cost of the instrument. Amortised cost is arrived at using the effective interest method. The effective interest method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating the interest income or interest expense over the relevant period. Interest income and expense are recognised in the Profit and Loss Account for all relevant instruments using the effective interest method. Gains and losses realised on the sale of all financial assets and financial liabilities carried at fair value through profit or loss are recognised in the Profit and Loss Account.

Dividends are credited to the Profit and Loss Account on the dates on which the relevant securities are listed as "ex dividend". Income is accounted for gross of any non-reclaimable/irrecoverable withholding taxes and net of any tax credits. The withholding tax is shown separately in the Profit and Loss Account.

The Funds may be subject to taxes imposed by certain countries on capital gains on the sale of investments. Taxes may be imposed by countries including Brazil, India, Indonesia, Bangladesh and Colombia. Capital gains taxes are accounted for on an accruals basis for these countries and are shown as a separate item under taxation in the Profit and Loss Account.

Each Fund pays all of its expenses and such proportion of the Company's expenses as is allocated to that Fund, other than those expressly assumed by the Principal Money Manager. The costs and gains (losses) of any hedging transactions will be attributable to the relevant Share Class. To the extent that expenses are attributable to a specific Share Class of a Fund, that Share Class bears such expenses. All expenses, as disclosed in the Profit and Loss Account, with the exception of Professional and Other fees, are accrued on a daily basis. Professional fees and Other fees recognised in the Profit and Loss Account are generally charged and paid when billed to the Funds.

d) Foreign Currency Transactions

In accordance with Section 30 of FRS 102, items included in the individual Fund's financial statements are measured using the currency of the primary economic environment in which it operates (functional currency). The Directors' selection of the functional currency is attributable to the functional currency being: (a) the major component of the Fund's benchmarks; or (b) the common currency of monies received on subscriptions and paid out on redemptions of shares for most clients in the Funds' varied client base or (c) the common currency of the majority of the investments held on the Fund. The functional currency assessment is done on a Fund-by-Fund basis. The functional currency of the Company is the Euro.

Each individual Fund has also adopted its functional currency as the presentation currency. Foreign currency transactions are translated to the functional currency of the relevant Fund at the rate of exchange ruling on the date of the transaction.

For each relevant Fund:

 Currency gains and losses can arise where there is a difference between the amounts of foreign dividends and interest recorded on the Fund's books and the Fund's functional currency equivalent to the amounts actually received or paid. These gains or losses are included where appropriate in the dividend and interest income figure in the relevant Fund's Profit and Loss Account;

31 March 2025

2. Accounting Policies - continued

- ii) Currency gains and losses realised on securities purchase and sales transactions are included in net gain (loss) on investment activities in the relevant Fund's Profit and Loss Account;
- iii) Unrealised currency gains and losses on securities held at financial year end are included in net gain (loss) on investment activities in the relevant Fund's Profit and Loss Account;
- iv) Monetary assets and liabilities denominated in currencies other than the Fund's functional currency are translated at the rate of exchange ruling at the close of business on the relevant reporting date and exchange differences are included in net gain (loss) on investment activities in the relevant Fund's Profit and Loss Account; and
- v) Share transactions which are settled in a currency other than the functional currency of a Fund are settled using the applicable foreign currency exchange rate as of the trade date. As a result, there is no foreign currency impact on the Funds for such transactions.

e) Redeemable Participating Shares

Redeemable participating shares are redeemable at the shareholder's option and are classified as financial liabilities. The redeemable shares can be repurchased by the Company at any time for cash equal to a proportionate share of the Company's net asset value. The redeemable share is carried at the redemption amount that is payable at the balance sheet date if a shareholder exercised his or her right to have the Company repurchase his or her share. In accordance with the prospectus, for the relevant Funds, the Company is contractually obliged to redeem shares at dealing prices and the liability to redeemable participating shareholders has been adjusted to reflect this. Monetary value share transactions during the financial year are recognised in the Statement of Changes in Net Assets Attributable to Redeemable Participating Shareholders of the relevant Fund.

f) Distributions

Distributions on Income Share Classes, and deemed distributions on Accumulating Share Classes with an ex-date during the financial year are included as a finance cost in the Profit and Loss Account. The reinvestment of the deemed distribution on the Accumulation Share Classes are included as a share transaction in the Statement of Changes in Net Assets Attributable to Redeemable Participating Shareholders. Roll-Up Share Classes do not declare or distribute net income.

g) Swing Pricing/Dilution Adjustments

Swing pricing (also known as dilution adjustment) is applied to a Fund once net subscriptions or redemptions for a Fund relating to a Fund's net asset value for a given dealing day is determined by the Administrator to exceed certain predetermined percentage thresholds. In calculating the swing pricing, the net asset value of a Fund is swung by a "swing factor" on the following basis:

Net subscriptions - the price used to process all transactions is adjusted upwards by the swing factor to a notional offer price.

Net redemptions - the price used to process all transactions is adjusted downwards by the swing factor to a notional bid price.

If the net asset value of a Fund is swung on a specific dealing day the official price for a Fund will be the derived swing price. In addition, all dealing activity for this dealing day will be dealt at the swing price. Swing pricing applied to a Fund during the financial year is recognised within the share transactions figure on the Statement of Changes in Net Assets Attributable to Redeemable Shareholders. The swing factor rates, as discussed in Note 10, are reviewed by the Principal Money Manager on a quarterly basis.

h) Collateral

i) Counterparty Owned Collateral

Counterparty cash received by a Fund as collateral for financial derivative instruments ("FDIs") transactions is recorded as an asset on the Balance Sheet within 'Cash held with brokers and counterparties for open financial derivative instruments' and a related liability to repay the collateral is disclosed within creditors less than one year within 'Cash due to brokers and counterparties for open financial derivative instruments'.

31 March 2025

2. Accounting Policies - continued

Non-cash collateral received by the Funds does not form part of the Net Asset Value of the Fund and is recorded at the base of each relevant Schedule of Investments for reference purposes only.

ii) Collateral Pledged by Funds

A Fund's assets may be deposited by or on behalf of the Fund for collateral purposes with brokers, for options and futures contracts, and counterparties, in respect of over-the-counter FDIs ("OTC FDIs"), held on the Funds. Such assets remain in the ownership of the relevant Fund and are recorded as an asset on the Balance Sheet. Cash pledged by the Funds as collateral is recognised on the Balance Sheet within 'Cash held with brokers and counterparties for open financial derivative instruments'. Investments pledged by the Funds as collateral are recognised at fair value in the relevant Fund's Schedule of Investments and such investments are referenced accordingly at the base of the Schedule of Investments.

See Note 3 for details of cash collateral received and pledged by the Funds to and from counterparties for FDIs.

iii) Impairment of Collateral

The Principal Money Manager has considered the recoverability of collateral due from relevant brokers and counterparties at financial year end/prior financial year end and has considered the need to write-down the value of such collateral. The Principal Money Manager is satisfied that the full value of the collateral is recoverable from all brokers and counterparties at the respective financial year end dates.

i) Transaction Costs

Transaction costs are defined as the incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument. When a financial asset or financial liability is recognised initially, an entity shall measure it at its fair value through profit or loss plus, transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

Transaction costs relating to the brokers commission on the purchase and sale of a financial asset or financial liability, are included in its purchase and sale price. Transaction costs of the Depositary or sub-custodian as the case may be are embedded in the relevant fees in the Profit and Loss Account.

3. Cash at Bank and Cash Held with/due to Brokers and Counterparties

a) Cash at Bank

Cash at bank balances are comprised of cash balances held within State Street Bank and Trust Company's ("State Street") custodian network*, unrestricted margin accounts held by brokers for exchange traded derivative instruments held by the Funds and net unrealised gains and losses on open spot foreign currency exchange contracts. The names of brokers used by each individual Fund can be found at the base of each relevant Fund's Schedule of Investments.

The tables in this section of the notes to the financial statements details all such cash held on the Funds, including relevant broker and location of broker, as of 31 March 2025 and 31 March 2024.

Cash held in U.S. Dollar bank accounts with State Street automatically transfer into the demand deposit account at State Street Bank and Trust New York in the name of State Street Bank and Trust Company - London.

^{*} Certain cash balances may be held by sub-custodians, as approved and appointed by State Street, in markets where State Street does not operate as a depositary. Such cash and all cash held within the State Street custodian network is included within the State Street Bank and Trust Company figures in the tables contained within this note.

3. Cash at Bank and Cash Held with/due to Brokers and Counterparties - continued

b) Cash held with brokers and counterparties for open financial derivative instruments

Cash may also be deposited by or on behalf of the Funds for initial margin purposes with brokers for options and futures contracts and as collateral with counterparties in respect of OTC FDIs held on the Funds. As this amount is the minimum deemed by the brokers and counterparties for collateral requirements the cash is as such restricted and is reported separately to the unrestricted cash on the Funds' Balance Sheets. Cash collateral pledged by counterparties and held by the Funds remains in the ownership of the relevant counterparty and a related liability to repay the cash is recognised as "Cash due to brokers and counterparties for financial derivative instruments" on the relevant Fund's Balance Sheet. See section c) of this note for further details of same.

All such cash held on the Funds, including relevant broker and location of broker, as of 31 March 2025 and 31 March 2024 are detailed in the tables below.

c) Cash due to brokers and counterparties for open financial derivative instruments

Cash amounts may be pledged as collateral by counterparties to the Funds for OTC FDIs and this cash is held by the relevant Funds and is payable back to the relevant counterparty. Margin cash amounts may also be owed by the Funds to brokers for exchange traded Financial Derivative Instruments transactions at each balance sheet date. These amounts are recognised within "Cash due to brokers and counterparties for open financial derivative instruments" on the respective Balance Sheets.

The cash amounts pledged as collateral by counterparties form part of the net assets of the respective Funds and a related asset is included within "Cash held with brokers and counterparties for open financial derivative instruments" on the Balance Sheet and section b) of this note.

5. Transactions with Related Parties

a) Related Parties

Parties are considered to be related if one party has the ability to control the other party or is able to exercise significant influence over the other party, in making financial or operational decisions. The following entities were related parties to the Company during the financial year ended 31 March 2025 and the financial year ended 31 March 2024.

Relation to the Company	Name of entity	disclosed in section of this note
Manager	Carne Global Fund Managers (Ireland) Limited	b), i)
Principal Money Manager	Russell Investments Limited	b), ii)
Investment Managers	Affiliated Russell Investments entities	b), iii)
Affiliated Broker	Russell Investments Implementation Services Inc	b), iv)
Directors of the Company	As listed in the Administration of the Company page	b), v)
	Affiliated Russell Investments entities and Russell Investments managed Irish	
Related Party Investors and Investees	domiciled funds	b), vi)

b) Related Party Transactions

i) Manager, Management Fee and Performance Fee

The Company has appointed Carne Global Fund Managers (Ireland) Limited to act as manager of the Company. The Principal Money Manager is responsible for the general management and administration of the Company's affairs, subject to the overall supervision and control of the Directors. Pursuant to the Principal Money Manager and Advisory Agreement, the Manager has delegated certain investment management functions in respect of each Fund to the Principal Money Manager. The Principal Money Manager also acts as distributor for the Funds. The Manager has appointed the Administrator to act as administrator of the Company.

Carne Global Fund Managers (Ireland) Limited, as Manager is considered a related party to the Company as it is considered to have significant influence over the Company in its role as Manager. Carne Global Financial Services Limited, the parent Company of the Manager, received fees amounting to EUR 7,998 during the financial year ended 31 March 2025 (financial year ended 31 March 2024: EUR 5,803), in respect of fund governance services to the Company, of which EUR Nil (financial year ended 31 March 2024: EUR Nil) was payable at year end.

The Manager also earned a fee of EUR 21,608 during the financial year ended 31 March 2025 (financial year ended 31 March 2024: EUR Nil), of which EUR Nil was payable at year ended for other services (financial year ended 31 March 2024: EUR Nil).

a) Management Fee

For services rendered under the management agreement, the fees of the Manager and the Principal Money Manager are paid out of the below management fees which shall be paid out of the assets of each Fund, calculated and accrued daily and shall be payable monthly in arrears. Rates are based on the respective average daily net asset values of each class of shares. The Company shall pay all reasonable out of pocket expenses properly incurred by the Manager and the Principal Money Manager.

The following management fee rates are effective for the financial year ended 31 March 2025 unless otherwise indicated:

Russell Investments Emerging Market Debt Local Currency Fund		Russell Investments Euro Fixed Income Fund		Russell Investments Pan European Equity Fund

Rates for classes of shares not yet funded as at 31 March 2025 are not listed.

b) Performance Fee

A performance fee (the "Performance Fee") is payable to the Principal Money Manager and/or the Money Managers in respect of the Russell Investments China Equity Fund on an annual basis as described based on the calculation methodology as detailed within the prospectus.

No Performance Fees were charged to the Funds during the financial year ended 31 March 2025 or financial year ended 31 March 2024 on the Russell Investments China Equity Fund.

Principal Money Manager

The Company and Manager have appointed Russell Investments Limited as Principal Money Manager (the "Principal Money Manager") with discretionary powers pursuant to the Principal Money Manager and Advisory Agreement. The Principal Money Manager fees are paid out of the management fee. The fees payable to the Principal Money Manager for the support services will be paid out of the assets of the Funds. The Principal Money Manager shall discharge all fees payable in its capacity as Distributor out of its Management fee.

Investment Managers, Money Managers and Investment Advisers

Russell Investment Management, LLC, is an affiliated group company to the Principal Money Manager. Russell Investments group companies can be appointed as Investment Manager to the Funds.

The appointment of Russell Investments group companies as Investment Manager's to the Funds is subject to the same procedures as appointing an external Money Manager or Investment Adviser and an intercompany agreement and investment guidelines are put in place.

The Principal Money Manager (or its duly appointed delegate) may appoint one or more Investment Advisers who have expertise in a particular sector and/or asset class. The optimal stock views from the Investments Advisers are aggregated by the Principal Money Manager and the trades are effected by the Principal Money Manager or Investment Manager (or its affiliate) on a periodic basis with a view to improving trading efficiency, managing portfolio risk better and reducing potential transactions costs in respect of the respective Fund's investments.

The Principal Money Manager shall discharge all fees (except for any Performance Fees) payable to the Money Managers, the Investment Managers and the Investment Advisers out of its Management fee.

Please refer to Administration section for the list of Money Managers, Investment Managers and Investment Advisers as of 31 March 2025.

31 March 2025

5. Transactions with Related Parties - continued

iv) Affiliated Broker

The Funds effect certain transactions through RIIS (Russell Investments Implementation Services, LLC and Russell Investments Implementation Services Limited, collectively called RIIS) and its global network of unaffiliated correspondent brokers. Trades placed through RIIS and its correspondents are made (i) to manage trading associated with changes in Money Managers, rebalancing across existing Money Managers, cash flows and other portfolio transitions or (ii) to execute portfolio securities transactions for each Fund's assets.

RIIS may also be engaged by the Company to carry out foreign currency implementation trading for which a fee of 0.02 per cent per trade is included in individual transactions.

For the financial year ended 31 March 2025, the total commission earned by RIIS, encompassing the range of services provided, amounted to EUR 486,813 (financial year ended 31 March 2024: EUR 772,079).

v) Directors and Directors' Fees

The Articles of Association provide that the Directors are entitled to a fee by way of remuneration at a rate to be determined from time to time by the Directors. Directors' fees are paid to non-executive Directors not employed by Russell Investments group companies. Directors' fees shall not exceed the limits contained in the prospectus and the Directors are entitled to certain additional expenses as listed in the prospectus. Directors' fees charged during the financial year ended were EUR 47,960 (financial year ended 31 March 2024: EUR 54,547) these amounts are included in other fees in the Combined Profit and Loss Account.

All of the Directors are also directors of the Russell Investments Funds discussed in section vi) of this note.

The following Directors of the Company were employed by Russell Investments group companies during the financial year: Mr. Peter Gonella, Mr. Neil Jenkins and Mr. William Pearce.

The Principal Money Manager operates a defined contribution pension plan for its employees which invests in Russell Investments managed funds including the Funds. The pension fund is subject to a management fee rebate. The Directors who are employed by the Russell Investments group companies may be indirectly exposed to the Company through the pension scheme.

vi) Related Party Investors and Investees

a) Investment in other Russell Investments Funds

The Funds may invest in the sub-funds of other Russell Investment Funds managed by the Manager as listed in the table below. Details of the Fund's investments in these sub-funds can be found in the Schedule of Investments of each relevant Fund.

	Type of Fund	Management
Fund Structure Name	Structure	Fee Rate
Russell Investment Company III plc	UCITS Umbrella	0.05% - 0.20%

b) Related Party Shareholders of the Company

During the financial year ended 31 March 2025 and the financial year ended 31 March 2024, certain sub-funds of open-ended investment funds also managed by the Manager and administered by the Administrator were invested in the Funds. In accordance with Section 33 of FRS 102 these entities are deemed related party shareholders to the Company.

The table below discloses the value of related party shareholders in the Company and the percentage of this value against the Company's combined net asset value as at the respective balance sheet dates.

	31 March 2025	Company	31 March 2024	Company
Related Party Shareholder	USD '000	%	USD '000	%
Russell Investments Company plc	25,716	1.52	25,224	1.46
Alternative Funds Plc	28,066	1.66	13,657	0.79
Russell Investment Company V plc	56,988	3.36	45,941	2.66

31 March 2025

6. Significant Agreements

(i) Depositary

State Street Custodial Services (Ireland) Limited is the Company's depositary (the "Depositary"). The Depositary has appointed its parent, State Street Bank and Trust Company, as its global sub-custodian who in turn has appointed a network of local sub-custodial agents. The sub-custodian fees are paid at annual rates based on the total assets held in each individual country in which the Funds invest plus applicable transaction charges. In line with the UCITS V Regulations, the Depositary also provides depositary services.

Depositary fees accrue daily and are paid monthly in arrears.

(ii) Administrator and Transfer Agency

State Street Fund Services (Ireland) Limited is the Company's administrator (the "Administrator"). The Administrator is responsible for the daily determination of net asset value, maintaining the books and records of the Funds in respect of the Company and other administrative services. The Manager has also appointed the Administrator as the Company's transfer agent.

Such fees accrue daily and are paid monthly in arrears. The Company shall discharge reasonable out of pocket expenses payable to the Administrator out of the Funds' assets.

The Administrator is also entitled to shareholder services fees as disclosed in the administration agreement and reporting services fees of USD 7,000 per Fund per annum.

Transfer agency fees are charged based on the number of Funds in the umbrella structure, the number of shareholders, number of statements issued, number of share classes and volume of shareholder transactions in a period and are subject to adequate thresholds. Transfer agency fees are charged and paid on a daily basis and are recognised within Administration and transfer agency fees in the Profit and Loss Account for each Fund.

The depositary and administration fees disclosed in the Profit and Loss Account include minimum fees. If the total of the minimum fees is in excess of the combined administration and depositary percentage charges, the share class fee, the reporting service fee and the shareholder service fee, after the deduction of any discount, then this minimum will apply. The minimum fee for new Funds will be waived for one year from the launch of the new Fund.

The aggregate of the administration and depositary fees will not exceed 0.35 percent of the Net Asset Value of any Fund.

(iii) Transaction Costs

Transaction costs relating to the broker commission on the purchase and sale of bonds, equities, exchange traded FDIs and OTC FDIs, are included in the purchase and sale price of the investment.

Transaction costs on the purchase and sale of bonds and OTC FDIs are embedded in the cost of the investment. Transaction costs on purchases and sales of equities and exchange traded FDIs are readily identifiable. Investments are initially recognised at fair value and transaction costs for all financial assets and financial liabilities carried at fair value through profit or loss are expensed as incurred.

Total transaction costs, incorporating broker commissions and transaction costs of the Depositary and sub-custodians are as follows:

Fund	Functional Currency	Year ended 31 March 2025 '000	Year ended 31 March 2024 '000
Russell Investments Emerging Market Debt Local Currency Fund	USD	28	94
Russell Investments Euro Fixed Income Fund	EUR	1,922	17
Russell Investments Global Bond (Euro Hedged) Fund	EUR	-	24
Russell Investments Pan European Equity Fund	EUR	86	133
Russell Investments U.S. Quant Fund	USD	37	59
Russell Investments World Equity Fund	USD	943	1,754
Russell Investments China Equity Fund	USD	169	278

31 March 2025

6. Significant Agreements - continued

(iv) Auditors' Remuneration

The remuneration for all work carried out by the statutory audit firm in respect of the financial year under review and prior financial year is as follows:

	31 March 2025 EUR '000	31 March 2024 EUR '000
Statutory audit of accounts*	94	88
Tax advisory services**	22	22
Total	116	110

^{*} The fees for statutory audit of the accounts disclosed in the table above are exclusive of VAT. The audit fees recognised in the Profit and Loss Account are inclusive of VAT.

There were no fees for other assurance services or other non-audit services during the financial year ended 31 March 2025 (financial year ended 31 March 2024: Nil).

7. Soft Commissions, Directed Brokerage Services and Commission Recapture

As disclosed in the prospectus for the Company, each of the Investment Managers and Money Managers may enter into transactions on a soft commission basis, i.e. utilise the services and expertise of brokers in return for the execution of trades through such brokers.

Where appropriate, any such arrangements will comply with the requirements of Article 11 of the MiFID II Delegated Directive and any such transaction must be entered into on the principle of best execution and be in the best interests of Shareholders and must provide benefits that will assist in the provision of investment services to the Company.

During the financial year ended 31 March 2025, the Investment Managers and Money Managers may have effected transactions through brokers with whom it had arrangements whereby each broker agreed to use a proportion of the commission earned on such transactions to discharge the broker's own costs or the costs of third parties providing certain services to the Investment Managers and/or Money Manager, as the case may be. The services which were paid for under such arrangements were those permitted under regulatory rules applicable to the relevant Investment Managers and/or Money Manager, namely those that relate to the execution of transactions on behalf of customers or the provision of investment research to the relevant Investment Managers and/or Money Manager.

The Money Managers may participate in the Russell Investments' soft commission and commission recapture programme (the "Programme") by executing a portion of their securities transactions through certain brokers (the "Correspondent Broker Networks"). Any such participation in the Programme is not mandatory and the appropriate participation percentage target is determined on a Money Manager by Money Manager basis, based upon asset class, investment mandate, trading habits, and tolerance for participation and is always subject to a Money Manager's ability to obtain best execution. The Programme, including the Correspondent Broker Network, is administered by Recapture Services, a division of BNY ConvergEx Execution Solutions LLC ("BNY") and State Street Global Markets ("SSGM"). A portion of the commission earned by the Correspondent Broker Network as a result of this trading activity is set aside in the Programme as "credits". These credits are then earmarked for purchase of third party research ("Soft Commission Credits") or commission recapture ("Commission Credits"). All soft commission use through the Programme is overseen by Russell Investments' soft commission committee (the "Committee") which is made up of senior level investment personnel. The Committee, with the guidance of Russell Investments' investment strategy committee, establishes an annual soft commission research budget for the use of the Soft Commission Credits. Soft Commission Credits are used to purchase third party research that will aid Russell Investments in its investment decision-making process. Research purchased through the Programme is obtained from unaffiliated third parties at market rates. Once the soft commission research budget has been met the Committee will instruct BNY and SSGM to recapture the Commission Credits which are then rebated directly back to the relevant Fund from which the commission was generated. Russell Investments does not receive any revenue (directly or indirectly from BNY or any broker) from the commission recapture component of the Programme.

The Investment Working Group ("IWG") oversees any directed brokerage services or similar arrangements and associated costs to the Funds on an annual basis.

^{**} Exclusive of VAT.

31 March 2025

7. Soft Commissions, Directed Brokerage Services and Commission Recapture - continued

There were no fees for directed brokerage services during the financial year ended 31 March 2025 (financial year ended 31 March 2024; EUR Nil).

8. Distributions

Distribution policy

With the exception of Roll-Up Class Shares, the distribution policy of each Fund is to declare distributions out of net income. Roll-Up Class Shares do not declare or distribute net income and their net asset value reflects net income. Distributions declared by Income Class Shares are paid in cash unless the shareholder chooses to reinvest part or all of the amount in the capital of the relevant Share Class. Accumulation Class Shares declare a distribution which is then reinvested in the capital of the relevant share class.

Distribution Frequency

The distributions in respect of the Funds are calculated and declared on a calendar quarterly basis (i.e. quarterly periods ended 31 March, 30 June, 30 September and 31 December).

9. Taxation

Under current law and practice the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended ("TCA"). Provided the Company continues to be resident for tax purposes in Ireland and is authorised by the Central Bank of Ireland, the Company should not be chargeable to Irish tax on its income or gains.

However, Irish tax may arise on the occurrence of a "chargeable event". A chargeable event includes any distribution payments to shareholders or any encashment, redemption, transfer or cancellation of shares and any deemed disposal of shares for Irish tax purposes arising as a result of holding shares in the Company for a period of eight years or more.

No Irish tax will arise in respect of chargeable events in respect of a shareholder who is an Exempt Irish Investor (as defined in Section 739D of the TCA) or who is neither Irish resident nor ordinarily resident in Ireland for tax purposes at the time of the chargeable event, provided, in each case, that an appropriate valid declaration in accordance with Schedule 2B of the TCA is held by the Company and the Company is not in possession of any information which would reasonably suggest that the information contained therein is no longer materially correct or where the Company has been authorised by Irish Revenue to make gross payments in the absence of appropriate declarations.

Distributions, interest and capital gains (if any) received on investments made by the Company may be subject to withholding taxes imposed by the country of origin and such taxes may not be recoverable by the Company or its shareholders.

The Minimum Tax Directive provides for a European Union wide implementation of the Organisation for Economic Cooperation and Development ("OECD") Inclusive Framework on Base Erosion Profit Shifting ("BEPS") Pillar Two rules. The Pillar Two legislation was enacted in Ireland and is effective for the financial year beginning 1 January 2024. The Company meets the definition of an investment entity under BEPS Pillar Two rules, and the clause within it that seeks to protect the tax neutrality of investment funds. This excludes the Company from quantitative disclosures under BEPS Pillar Two requirement along with Qualified Domestic Minimum Rop-up Tax ("QDMTT") requirement.

10. Number of Shares in Issue and Net Assets Attributable to Redeemable Participating Shareholders

a) Authorised Share Capital

The authorised share capital of the Company is 39,000 subscriber shares of no par value and 500 billion participating shares of no par value. Subscriber shares do not form part of the net asset value of the Company. They are disclosed in the financial statements by way of this note only.

Holders of subscriber shares are not entitled to dividends or any surplus of assets over liabilities upon the winding-up of the Company. The subscriber shares are held by Russell Investments.

31 March 2025

10. Number of Shares in Issue and Net Assets Attributable to Redeemable Participating Shareholders - continued

b) Redeemable Participating Shares

Each of the shares entitles the holder to participate equally on a pro rata basis in the profits and dividends of the relevant Fund attributable to such shares and to attend and vote at meetings of the Company and of the relevant Fund represented by those shares. No class of shares confers on the holder thereof any preferential or pre-emptive rights or any rights to participate in the profits and dividends of any other class of shares or any voting rights in relation to matters relating solely to any other class of shares.

Each share represents an individual beneficial interest in the Company. The shares are not debt obligations or guaranteed by the Company. The return on an investment in the Company will depend solely upon the investment performance of the assets of the relevant Fund and the increase or decrease (as the case may be) in the net asset value of the shares. The amount payable to a shareholder in respect of each share upon liquidation of the Company or a Fund will equal the net asset value per share. However, in a relatively illiquid market, a Fund may not be able to dispose of its investments quickly and as such a Fund may experience adverse price movements upon liquidation of its investments. Settlement of transactions may be subject to delay and administrative uncertainties and the price repaid to the shareholders in such circumstances will not equal the final published net asset value per share.

Net assets attributable to shareholders represent a liability on the Balance Sheet, carried at the redemption amount that would be payable at the balance sheet date if the shareholder exercised the right to redeem the shares in the Company.

Participating Share Transactions

All cash amounts are in the functional currency of the relevant Fund not the currency of the class.

c) Swing Pricing/Dilution Adjustments

Swing pricing (also known as dilution adjustment) is applied to a Fund once net subscriptions or redemptions for a Fund for a given dealing day is determined by the Administrator to exceed certain predetermined percentage thresholds relating to a Fund's net asset value. In calculating the swing pricing, the net asset value of a Fund is swung by a "swing factor". Swing prices will be calculated, and reviewed by the Securities Valuation Committee for the EMEA's fixed income funds, on a weekly basis to best reflect and compensate the cost of trading.

The swing factors applied during the financial year ended 31 March 2025 ranged from 0.00 per cent to 0.25 per cent on both subscriptions and redemptions.

The swing factors applied during the financial year ended 31 March 2024 ranged from 0.00 per cent to 0.25 per cent on both subscriptions and redemptions.

31 March 2025

10. Number of Shares in Issue and Net Assets Attributable to Redeemable Participating Shareholders - continued

d) Significant Shareholders

The following table details the number of shareholders with significant holdings of at least 20 per cent of the relevant Fund's net asset value, the aggregate monetary value and percentage (of that Fund's net asset value) of that holding as at 31 March 2025.

Fund	Number of Significant Shareholders		Value of Holding '000	Aggregate Shareholding as a % of the Fund
Russell Investments Emerging Market Debt Local Currency Fund	2	USD	42,935	61.47
Russell Investments Euro Fixed Income Fund	2	EUR	30,998	55.62
Russell Investments Pan European Equity Fund	1	EUR	26,728	56.08
Russell Investments World Equity Fund	2	USD	902,936	60.65
Russell Investments China Equity Fund	2	USD	17,749	51.93

The following table details the number of shareholders with significant holdings of at least 20 per cent of the relevant Fund's net asset value, the aggregate monetary value and percentage (of that Fund's net asset value) of that holding as at 31 March 2024.

Fund	Number of Significant Shareholders		Value of Holding '000	Aggregate Shareholding as a % of the Fund
Russell Investments Emerging Market Debt Local Currency Fund	1	USD	15,680	21.49
Russell Investments Euro Fixed Income Fund	2	EUR	52,261	64.15
Russell Investments Pan European Equity Fund	1	EUR	27,458	59.66
Russell Investments World Equity Fund	2	USD	845,951	55.65
Russell Investments China Equity Fund	1	USD	16,227	34.11

11. Efficient Portfolio Management

The Company may enter into securities lending arrangements and repurchase agreements (together "Efficient Portfolio Management Techniques") and may invest in OTC FDIs subject to the restrictions set forth in the prospectus and to the extent consistent with the Fund's investment objective and policies.

The use of techniques and instruments relating to transferable securities, money market instruments and/or other financial instruments in which the Funds invest for efficient portfolio management purposes will generally be made for one or more of the following reasons:

- i) the reduction of risk;
- ii) the reduction of cost; or
- iii) the generation of additional capital or income for the relevant Fund with an appropriate level of risk, taking into account the risk profile of the Fund and the risk diversification rules set out in the UCITS Regulations issued by the Central Bank.

All the revenues arising from Efficient Portfolio Management Techniques employed shall be returned to the relevant Fund following the deduction of any direct and indirect operational costs and fees arising. Such direct and indirect operational costs and fees, (which are all fully transparent) which shall not include hidden revenue, shall include fees and expenses payable to repurchase/reverse repurchase agreements counterparties and/or securities lending agents engaged by the Company from time to time. Such fees and expenses of any repurchase/reverse repurchase agreements counterparties and/or stocklending agents engaged by the Company, which will be at normal commercial rates together with VAT, if any, thereon, will be borne by the Company or the Fund in respect of which the relevant party has been engaged.

The Principal Money Manager, Money Manager(s), Investment Managers and Investment Advisors on behalf of a Fund may employ techniques and instruments relating to transferable securities, money market instruments and/or other financial instruments in which they invest for efficient portfolio management purposes. At any time a Fund may hold a combination of derivative instruments such as futures contracts, forward contracts, options, swaps, swaptions, forward foreign exchange contracts, caps, floors and credit derivatives, any of which may be listed or over-the-counter.

None of the Funds entered into securities lending arrangements or repurchase agreements during the financial year ended 31 March 2025 or financial year ended 31 March 2024.

31 March 2025

11. Efficient Portfolio Management - continued

Please refer to Note 2 a) Financial Instruments at Fair Value through Profit or Loss for a range of FDIs that the Company may employ for the purpose of efficient portfolio management.

12. Financial Risks

The activities of each Fund expose them to various financial risks such as market risk (including market price risk, interest rate risk, and currency risk), credit risk and liquidity risk. The portfolio management process seeks to manage risk in a manner consistent with each Funds' objectives.

Some Funds delegate some of the management of its portfolio to external Money Managers. The Principal Money Manager may appoint one or more Investment Managers to manage the whole or a portion of a Fund's assets. The Principal Money Manager (or its duly appointed delegate) may appoint one or more Investment Advisers. The Principal Money Manager primarily monitors and manages market risk (including market price risk, interest rate risk, and currency risk), credit risk and liquidity risk by the following techniques:

- The Principal Money Manager monitors each Fund's characteristics in detail with the Money Manager(s) at least quarterly and in some cases, monthly.
- The Principal Money Manager also reviews the portfolio characteristics of each Fund in its entirety.
- This review may include as appropriate a review of country allocations, country weights, capitalisation, distribution, industry sector weights, price/book levels, currency exposure, portfolio maturity, portfolio duration, sector exposure and quality exposure and other key risk measures.
- In addition to monitoring investment activity and exposure by a Money Manager, the Principal Money Manager also receives daily exposure reporting from the Administrator and Money Managers, with which they can review various event exposures on the Funds.
- The Principal Money Manager also oversees and monitors the overall level of risk in a Fund.

a) Global Exposure

The Funds will use advanced risk measurement methodology namely Value at Risk ("VaR") as a risk measurement technique, in addition to other techniques, to measure, monitor and manage market risk. The absolute or relative VaR approach will be executed in accordance with the CESR (Committee of European Securities Regulators) 10/788 guidance. VaR quantifies the estimate of the maximum potential loss due to market risk at a given confidence level over a specified time period under the prevailing market conditions.

VaR is a model-based estimate. As with any model-derived figure, it is subject to imprecision due to such factors as data and measurement errors and model risk. The calculation of VaR is based on daily unaudited accounting book of record position data. In addition, VaR assumes that future asset return distributions and correlations remain stable and consistent with the prevailing market conditions. The Funds utilise additional measures such as stress testing analysis and exposure measurement to provide a holistic view to the Funds' market risk that includes tail risk and derivative exposure quantification. Furthermore, accuracy of the VaR models is regularly checked via out-of-time/out-of-sample backtesting.

VaR is calculated with Monte Carlo simulations approach (1000 paths) using granular market risk models. The approach estimates VaR by simulating random scenarios for each relevant pricing inputs (e.g., specific equity, commodity prices, foreign exchange and interest rates, implied volatility, etc.) used in valuing securities held in the portfolio and revaluing the positions for each of the paths generated for pricing inputs. For Funds using the absolute VaR approach, the VaR of the Fund shall not exceed 3.16 per cent of the Net Asset Value of the Fund, based on a 1 day holding period and a "one-tailed" 95 per cent confidence interval using observation period of at least 1 year. For Funds using the relative VaR approach, the VaR of the Fund shall not exceed twice that of the VaR of the reference portfolio based on a 1 day holding period and a "one-tailed" 95 per cent confidence interval using historical observation period of at least 1 year. A Fund VaR of 1% means that there is a 5% chance that the Fund will lose more than 1% of its value over any given day, assuming that the prevailing market conditions continue into the future.

31 March 2025

12. Financial Risks - continued

The below table details the VaR expressed as a percentage of the NAV at financial year end 31 March 2025 and financial year end 31 March 2024, VaR approach for each Fund and for those Funds utilising the relative VaR methodology, the reference portfolio is also listed.

Global Exposure Calculation Methodology and VaR as at the financial year end

Fund Name	Approach	Reference Portfolio	VaR as at 31 March 2025	VaR as at 31 March 2024
Russell Investments Emerging Market Debt				
Local Currency Fund	Absolute	NA	0.87%	0.94%
Russell Investments Euro Fixed Income Fund	Absolute	NA	0.48%	0.68%
Russell Investments Pan European Equity Fund	Relative	MSCI Europe Index Net EUR	1.05%	1.12%
Russell Investments U.S. Quant Fund	Relative	Russell 1000 Index Net USD	1.49%	1.40%
Russell Investments World Equity Fund	Relative	MSCI World Index Net USD	1.21%	1.22%
Russell Investments China Equity Fund	Relative	MSCI All China Index Net	2.84%	2.08%

VaR utilisation measures the Fund's VaR relative to the Fund's VaR limit. The below table details the minimum, maximum and average daily VaR utilisation that occurred during the one financial year ending at 31 March 2025 and one financial year ending 31 March 2024.

Daily VaR Utilisation*

31 March 2025				31 March 2024			
Fund Name	Minimum	Maximum	Average	Minimum	Maximum	Average	
Russell Investments Emerging Market Debt							
Local Currency Fund	25.9%	29.8%	28.0%	29.6%	37.7%	33.7%	
Russell Investments Euro Fixed Income Fund	14.6%	21.9%	18.0%	18.7%	31.8%	26.0%

Russell Investments World Equity Fund	< 0%	< 0%	< 0%	< 0%	2.7%	< 0%	
Russell Investments China Equity Fund	5.6%	25.1%	14.8%	2.8%	20.8%	10.4%	

^{*} Absolute VaR Limit Utilisation = VaR (95% CI, 1 day) / 3.16% Relative VaR Limit Utilisation = [Fund VaR / Benchmark VaR] - 1 Utilisation >100% equates to breaking the limit

The below table details the Fund's VaR relative to the Fund's VaR limit at the financial year end 31 March 2025 and 31 March 2024.

VaR	Utilisation

Fund Name	Year ended 31 March 2025 Level	Year ended 31 March 2024 Level
Russell Investments Emerging Market Debt Local Currency Fund	27.4%	29.7%
Russell Investments Euro Fixed Income Fund	15.3%	21.5%
Russell Investments Pan European Equity Fund	< 0%	< 0%
Russell Investments U.S. Quant Fund	4.8%	8.7%
Russell Investments World Equity Fund	< 0%	< 0%
Russell Investments China Equity Fund	15.4%	10.7%

The average level of leverage figures provided below are calculated as the sum of the absolute value of notionals of the derivatives used as is required by the UCITS Regulations. This figure does not take into account any netting and hedging arrangements that the Funds may have in place at any time even though these netting and hedging arrangements are used for risk reduction purposes. As these netting and hedging arrangements, if taken into account, may reduce the level of leverage, this calculation may not provide an accurate measure of the Funds' actual leverage position. Below is the daily average level of leverage for each Fund during the one financial year ending at 31 March 2025 and 31 March 2024.

Level of Leverage*

	Year ended	Year ended
Fund Name	31 March 2025	31 March 2024
Russell Investments Emerging Market Debt Local Currency Fund	115.4%	128.8%

The Daily VaR Utilisation calculation excludes VaR values occurring during Fund opening or closing due to accounting and timing issues.

Level of Leverage*

Fund Name	Year ended 31 March 2025	Year ended 31 March 2024
Russell Investments Euro Fixed Income Fund	58.3%	60.4%
Russell Investments Pan European Equity Fund	19.3%	29.7%
Russell Investments U.S. Quant Fund	6.3%	6.0%
Russell Investments World Equity Fund	77.8%	104.8%
Russell Investments China Equity Fund	15.4%	13.0%

^{*} The Daily Average Leverage calculation excludes distorted daily leverage values occurring during Fund opening or closing due to accounting and timing issues

b) Market Price Risk

Market price risk is defined in FRS 102 as the risk that the fair value of a financial instrument or its future cash flows will fluctuate because of changes in market prices other than those caused by interest rate risk or currency risk.

All investments present a risk of loss of capital. The Funds' investments are susceptible to market risk arising from uncertainties about future prices of the instruments. Except for derivatives, maximum risk resulting from financial instruments is determined by fair value of the financial instruments. Possible losses from certain derivatives can be unlimited. The Principal Money Manager moderates this risk by diversifying the management of its assets by allocating them between one or more Money Managers. The Funds' Money Managers monitor their portfolio holdings on a daily basis.

The market prices of a Fund's securities may go up or down, sometimes rapidly or unpredictably, due to general market conditions, such as overall economic trends or events, government actions or interventions, market disruptions caused by trade disputes or other factors, political factors or adverse investor sentiment. The market prices of securities also may go down due to events or conditions that affect particular sectors, industries or issuers. Adverse market conditions may be prolonged and may not have the same impact on all types of securities. If the market prices of the securities owned by the Fund fall, the value of an investment will go down. A Fund may experience a substantial or complete loss on any individual security.

i) Fair valuation hierarchy

FRS 102 Section 11.27 on "Fair Value: Disclosure" requires the Company to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements.

The fair value hierarchy of inputs is summarised in the three broad levels listed below.

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices).
- Level 3: Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

No significant transfers occurred between the levels during the financial year and prior financial year under review.

The determination of what constitutes 'observable' requires significant judgement by the Directors. The Directors consider observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

Investments whose values are based on quoted market prices in active markets, and therefore classified within Level 1, include active listed equities and exchange traded derivatives. The Funds do not adjust the quoted price for these instruments.

31 March 2025

12. Financial Risks - continued

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. These include stale priced listed equities, unlisted equities, bonds, investment funds and OTC FDIs.

Investments classified within Level 3 have significant unobservable inputs, as they trade infrequently. Level 3 securities are securities that may be priced by a single pricing vendor or may have prolonged stale prices or may have no valid market information (indications or comparable security types) available.

Please refer to the base of each Fund's Schedule of Investments for analysis, within the fair value hierarchy, of each Fund's financial assets and liabilities (by investment type) measured at fair value at 31 March 2025 and 31 March 2024.

c) Interest Rate Risk

The Funds' interest bearing financial assets and liabilities expose it to risks associated with the effects of fluctuations in the prevailing level of interest rates. The Funds may employ investment techniques and FDIs in order to hedge against interest rate risk or gain exposure to the underlying market. In addition, mortgage and asset backed securities are also subject to prepayment risk, which is the risk that borrowers pay off the debt underlying the mortgage backed/asset backed securities sooner than anticipated and therefore shorten the average maturity of the Funds.

The following tables summarise each relevant Fund's exposure to interest rate risks. It includes each relevant Fund's assets and trading liabilities at fair values, categorised by the earlier of contractual re-pricing or maturity dates.

The Funds not mentioned with the table are mainly investing in non-interest bearing assets or its investments have a very short time to maturity. As a result, those Funds are not subject to significant amounts of risk due to fluctuations in the prevailing levels of market interest rates.

As at 31 March 2025

d) Currency Risk

The following tables detail Funds with material currency exposures at the balance sheet date. For presentation purposes the three foreign currencies with the greatest exposure, on each respective Fund, as of the balance sheet date are disclosed separately and all other foreign currencies held on that Fund have been amalgamated. Funds not listed below do not have material currency exposures as of the balance sheet date.

The sensitivity analysis in the tables details the approximate increase or decrease in net assets attributable to redeemable participating shareholders if the exchange rate between the base currency of the relevant Fund and the relevant foreign currency increased by 5%.

31 March 2025

12. Financial Risks - continued

The foreign currency exposure for the monetary assets held by the Funds as at 31 March 2025 is as follows:

Russell Investments Emerging Market Debt Local Currency Fund

e) Credit Risk

The Funds take on credit risk which is the risk that a counterparty or issuer will be unable to pay amounts in full when due. Impairment provisions are provided for losses that have been incurred by the balance sheet date, if any.

31 March 2025

12. Financial Risks - continued

The Funds' main credit risk concentrations arise from trading equity and debt securities, investment funds and FDIs in addition to cash balances held at the Depositary.

The Funds minimise concentrations of credit risk by undertaking transactions with a large number of counterparties. The Company's prospectus and the UCITS Regulations list various investment restrictions with regard to issuer and counterparty concentration limits and minimum counterparty credit ratings. Each relevant Fund's Money Managers conduct periodic reviews of the counterparties with whom they conduct transactions. The Principal Money Manager also monitors each Fund's counterparty exposures. In addition, risk exposure to a counterparty may be reduced by collateral provided to the Fund by the counterparty in accordance with the UCITS Regulations.

The Principal Money Manager employs a credit research team that performs robust quantitative and qualitative analysis on banks, insurance companies, and other counterparties. The credit research analyst assigned to a particular counterparty performs full credit analysis and writes a credit research report and subsequently sets investment parameters on OTC counterparty ratings and exposures where appropriate. The credit research team only reviews counterparties for those assets directly managed by Russell Investments. The individual Money Managers have their own research process for the assets under their management. Each relevant Fund's Money Managers monitor each credit position on a daily basis.

The tables below detail the Schedule of Investments by rating category for all Funds which invest primary in debt securities. Investments other than debt instruments are included in the 'No Rating Applicable' category.

Local Currency Fund

	% of Investments	% of Investments	
Portfolio by rating category	As at 31 March 2025	As at 31 March 2024	
Investment Grade	70.08%	73.47%	
Non-investment Grade	28.75%	24.44%	
Not Rating	0.29%	-	
No Rating Applicable	0.88%	2.09%	
	100.00%	100.00%	

Russell	Investments	Euro	Fixed	Income	Fund

% of Investments	% of Investments	
As at 31 March 2025	As at 31 March 2024	
84.86%	91.22%	
-	3.04%	
11.07%	-	
4.07%	5.74%	
100.00%	100.00%	

Each Fund may enter transactions in OTC markets that expose it to the credit of its counterparties and their ability to satisfy the terms of such contracts. Where the Funds enter into credit default swaps and other swap arrangements and derivative techniques, they will be exposed to the risk that the counterparty may default on its obligations to perform under the relevant contract. In the event of a bankruptcy or insolvency of a counterparty, the Funds could experience delays in liquidating the position and may incur significant losses. There is also a possibility that ongoing derivative transactions will be terminated unexpectedly as a result of events outside the control of the Company, for instance, bankruptcy, supervening illegality or a change in the tax or accounting laws relative to those transactions at the time the agreement was originated.

The names of brokers and counterparties used by each individual Fund can be found at the base of each relevant Fund's Schedule of Investments. The total unrealised gains and losses exposure by investment type for each of the brokers and counterparties can also be found at the base of each relevant Fund's Schedule of Investments. When there are more than five brokers and counterparties used by a Fund, the top five have been disclosed with the remainder included in the "other" category.

Collateral may be pledged by the Funds, generally by way of cash or cash equivalents (generally higher liquid G8 issued government debt instruments), and held by the counterparties. Details of non-cash collateral held at financial year-end by counterparties are asterisked within the Schedule of Investments of the Funds. Amounts of cash collateral held at financial year-end by counterparties are disclosed on the Balance Sheet of the Funds. See Note 3 to the financial statements for full details of cash collateral pledged to or by the relevant Funds as at 31 March 2025 and 31 March 2024.

All securities, cash at bank balances and cash or non-cash collateral received by the Funds are held by the Depositary through its affiliate, State Street or through a sub-custodian within the State Street custodial network. All OTC FDIs, investment funds, time deposits margin or other similar investments/monies deposited by or entered into on behalf of the Company with a counterparty, options exchange, clearing broker or other parties are not held within the State Street custodial network. The Depositary are therefore not liable in any way for the default of any counterparty.

31 March 2025

12. Financial Risks - continued

Bankruptcy or insolvency of the Depositary or a State Street affiliate company may cause the Company's rights with respect to cash and securities held by State Street to be delayed or limited and the Company would be treated as a general creditor of that entity in respect of its cash balances. Periodic monitoring and an annual credit review are performed on the Depositary by the Principal Money Manager. This review may include as appropriate an assessment of the Depositary's liquidity position, income streams, asset quality and credit ratings. The long-term credit rating of State Street as of 31 March 2025 was Aa1 (31 March 2024: Aa2), as rated by Moody's rating agency.

f) Liquidity Risk

The liquidity risks associated with the need to meet shareholders' requests for redemptions are mitigated by maintaining a pool of cash to satisfy usual levels of demand. Generally, the Funds' assets comprise publicly traded securities with various degree of liquidity. In highly volatile market conditions, the Funds may not easily liquidate assets needed for redemption or settlement. In such conditions, the Principal Money Manager may adopt a number of liquidity management tools, as detailed in the Company's prospectus, such as restrictions on redemptions, borrowing arrangements on a temporary basis, in-specie redemption, temporary suspension of valuation, issue and repurchase of shares and review of the Funds' swing pricing policy.

The Manager, in consultation with the Principal Money Manager, employs an appropriate liquidity management system and has adopted procedures which enable it to monitor the liquidity risk of the Company and each Fund. The liquidity management system ensures that each Fund maintains a level of liquidity appropriate to its underlying obligations based on an assessment of the relative liquidity of the Fund's assets in the market, taking account of the time required for liquidation and the price or value at which those assets can be liquidated and their sensitivity to other market risks or factors. The Manager, in consultation with the Principal Money Manager, monitors the liquidity profile of the portfolio of assets having regard to the profile of the investor base of the Fund, the relative size of investments and the repurchase terms to which these investments are subject. The Manager, in consultation with the Principal Money Manager (and affiliates), implements and maintains appropriate liquidity measurement arrangements and procedures to assess the quantitative and qualitative risks of positions and intended investments which have a material impact on the liquidity profile of the Fund's portfolio of assets. This enables effects on the overall liquidity profile to be appropriately measured and to put into effect the tools and arrangements necessary to manage the liquidity of the Company.

As at 31 March 2025 and 31 March 2024, with the exception of the Funds mentioned below, the Funds' liabilities, including net assets attributable to redeemable participating shareholders, were payable within three months. As at 31 March 2024 Russell Investments Emerging Market Debt Local Currency Fund had financial liabilities at fair value through profit and loss with maturity dates greater than three months.

The following tables and overleaf analyse each Fund's forward foreign currency exchange contracts that will be settled on a gross basis into relevant maturity groupings based on the remaining period at the Balance Sheet to the contractual maturity date.

15. Segregated Liability

Each Fund will be responsible for paying its fees and expenses regardless of the level of its profitability. The Company has availed of the segregated liability provisions of the Companies Act. The adoption of segregated liability ensures that liability incurred on behalf of a Fund will generally be discharged solely out of the assets of that Fund and there can generally be no recourse to other Funds to satisfy these liabilities. Notwithstanding the foregoing there can be no guarantee that should an action be brought against the Company in the court of another jurisdiction that the segregated nature of the Funds would necessarily be upheld.

16. Significant Events During the Financial Year

Russell Investment Company II plc was approved for marketing in Spain on 2 April 2024.

The Prospectus for Russell Investment Company II plc was updated on 7 June 2024.

Russell Investment Company II plc was approved for marketing in Portugal on 21 June 2024.

The Memorandum and Articles of Association for Russell Investment Company II plc were updated on 18 October 2024.

There were no other significant events affecting the Company during the financial year ended 31 March 2025.

17. Significant Events Since the Financial Year End

The Company received approval to market within the Offshore Funds Regime ("OFR") in the UK on 8 April 2025.

There were no other significant events since the financial year end 31 March 2025.

18. Approval of the Financial Statements

The financial statements were approved by the Directors on 30 July 2025.

Appendix I - Remuneration (unaudited)

Remuneration of the Company's Directors

Regulation 89(3A) of the UCITS Regulations (as introduced pursuant to the UCITS V Regulations on 21 March 2016) requires that the annual report of the Company contains certain disclosures on remuneration paid by the Manager to its staff during the financial year and details of any material changes to the Manager's remuneration policy made during the period, and this requirement applied as of 18 March 2016. In this regard, the following points are to be noted in respect of Carne Global Fund Managers (Ireland) Limited.

Carne Global Fund Managers (Ireland) Limited

For the financial year ended 31 March 2025

The European Union Directive 2014/91/EU as implemented in Ireland by S.I. No. 143/2016 - European Union (Undertakings for Collective Investment in Transferable Securities) (Amendment) Regulations 2016, requires management companies to establish and apply remuneration policies and practices that promote sound and effective risk management, and do not encourage risk taking which is inconsistent with the risk profile of the UCITS.

To that effect, Carne Global Fund Managers (Ireland) Limited ("the Manager"), has implemented a remuneration policy that applies to all UCITS for which the Manager acts as manager (the "Remuneration Policy") and covers all staff whose professional activities have a material impact on the risk profile of the Manager or the UCITS it manages ("Identified Staff of the Manager"). The Remuneration Policy also applies to all alternative investment funds for which the Manager acts as alternative investment fund manager. In accordance with the Remuneration Policy, all remuneration paid to Identified Staff of the Manager can be divided into:

- · Fixed remuneration (payments or benefits without consideration of any performance criteria); and
- Variable remuneration (additional payments or benefits depending on performance or, in certain cases, other contractual criteria) which is not based on the performance of the UCITS.

The Manager has designated the following persons as Identified Staff of the Manager:

- 1. The Designated Persons;
- 2. Each of the Manager's directors;
- 3. Head of Compliance;
- 4. Risk Officer;
- 5. Head of Anti-Money Laundering and Counter Terrorist Financing Compliance;
- 6. Money Laundering Reporting Officer;
- 7. Chief Executive Officer;
- 8. Chief Operating Officer;
- 9. Chief Information Officer;
- 10. All members of the Investment Committee;
- 11. All members of the Risk Committee; and
- 12. All members of the Valuation Committee.

The Manager has a business model, policies, and procedures which by their nature do not promote excessive risk taking and take account of the nature, scale, and complexity of the Manager and the UCITS. The Remuneration Policy is designed to discourage risk taking that is inconsistent with the risk profile of the UCITS and the Manager is not incentivised or rewarded for taking excessive risk.

The Manager has determined not to constitute a separate remuneration committee and for remuneration matters to be determined through the Manager's Compliance and AML Committee, a Committee of the Manager's Board.

The Manager's Compliance and AML Committee is responsible for the ongoing implementation of the Manager's remuneration matters and will assess, oversee, and review the remuneration arrangements of the Manager as well as that of the delegates as relevant, in line with the provisions of the applicable remuneration requirements.

The Manager employs the majority of staff directly. The Manager's parent company is Carne Global Financial Services Limited ("Carne"). In addition, Carne also operates through a shared services organisational model which provides that Carne employs a number of staff and further enters into inter-group agreements with other Carne Group entities to ensure such entities are resourced appropriately. As at 31 December 2024, 10 of the Identified Staff are employed directly by the Manager. The

Russell Investment Company II plc

Appendix I - Remuneration (unaudited) - continued

remainder of the Identified Staff are employees of Carne, or employees of another entity within the Carne Group, and are remunerated directly based on their contribution to Carne Group as a whole. In return for the services of each of the Carne Identified Staff, the Manager pays an annual staff recharge to Carne (the "Staff Recharge").

The independent non-executive directors are paid a fixed remuneration. The Other Identified Staff members' remuneration is linked to their overall individual contribution to the Manager or the Carne Group, with reference to both financial and non-financial criteria and not directly linked to the performance of specific business units or targets reached or the performance of the UCITS.

The aggregate of the total Staff Recharge, remuneration of the directly employed identified staff of the Manager and the remuneration of the independent non-executive directors for the year ended 31 December 2024 is EUR 2,553,588 paid to 22 Identified Staff¹ for the year ended 31 December 2024.

The Manager has also determined that, on the basis of number of sub-funds / net asset value of the UCITS relative to the number of sub-funds / assets under management, the portion of this figure attributable to the UCITS is EUR 28,693.

¹ This number represents the number of Identified Staff as at 31 December 2024.

Appendix III - Sustainable Finance Disclosure Regulation (SFDR) and EU Taxonomy Regulation (unaudited)

For the financial year ended 31 March 2025

The European Union's ("EU") Sustainable Finance Disclosures Regulation (Regulation EU/2019/2088) ("SFDR") requires the Company to provide transparency to end-investors in respect of each of its Sub-Funds on how sustainability risks are integrated into its investment process, on whether, and if so how, it considers adverse sustainability impacts and any sustainable investment objectives / promotion of environmental or social characteristics by the Sub-Fund.

Furthermore, where a Sub-Fund is aligned to the EU's Regulation on the Establishment of a Framework to Facilitate Sustainable Investment (Regulation EU/2020/852), the ("Taxonomy"), the Company must provide transparency to end-investors in respect of how, and to what extent, each Sub-Fund makes environmentally sustainable investments that meet the criteria for environmentally sustainable economic activities.

The following disclosures are made in accordance with these SFDR and Taxonomy transparency obligations as they are required to be disclosed in the Company's Annual Report.

Sub-Funds that are categorised as Article 6 under SFDR.

In accordance with the definitions and criteria set out in SFDR and the Taxonomy Regulation:

- (1) Article 6 Funds do not:
- i) promote environmental or social characteristics in their investment approach;
- ii) have a sustainable investment objective;
- iii) consider the principal adverse impacts of their investment activity on sustainability factors; or
- (2) The investments underlying each Article 6 product do not take into account the EU criteria for environmentally sustainable economic activities.

There is therefore no requirement for these Article 6 Funds to provide any disclosures in the Annual Report in accordance with SFDR or any additional disclosures relating to the Taxonomy.

List of Sub-Funds

Russell Investments China Equity Fund

Russell Investments Emerging Market Debt Local Currency Fund

Russell Investments Euro Fixed Income Fund

Russell Investments US Quant Fund

Sub-Funds that are categorised as Article 8 under SFDR.

In accordance with the definitions and criteria set out in SFDR:

1. Each Article 8 Fund promotes, among other characteristics, environmental or social characteristics (or a combination of those characteristics) and the companies in which the Article 8 Fund investments are made, follow good governance practices.

The following section describes the social and environmental characteristics promoted by each Article 8 Fund, and the extent to which those characteristics were met during the "Reference Period".

The Reference Period for each Article 8 Fund is the period referenced in this Annual Report.

2. For the current Reference Period, Article 8 Funds do not consider the principal adverse impacts of their investment activity on sustainability factors and there is therefore no requirement for these Article 8 Funds to provide any SFDR disclosures in the Annual Report in relation to principal adverse impacts.

Russell Investment Company II plc

Appendix III - Sustainable Finance Disclosure Regulation (SFDR) and EU Taxonomy Regulation (unaudited) - continued

The SFDR and Taxonomy Regulation disclosures relating to the environmental or social characteristics of the Sub-Funds can be found in the following pages. The presentation of the sustainability indicators and asset allocations in the SFDR Annex IV periodic reports are outlined in the relevant sections and may not align with the dealing frequency of each Sub-Fund, but for the purposes of the disclosures are considered appropriate intervals based on data available and / or the level of monitoring currently in place by the Principal Money Manager and / or the relevant Money Manager.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name:
Russell Investments Pan European Equity Fund

Legal entity identifier: FPJYVIWOEFHWXF4NJK72

Sustainable
investment means
an investment in an
economic activity
that contributes to
an environmental or
social objective,
provided that the
investment does not
significantly harm
any environmental or
social objective and
that the investee
companies follow
good governance

The **EU Taxonomy** is

a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the

Environmental and/or social characteristics

Did th	nis financial product have a sustai	nabl	e inve	stment objective?
••	Yes	•	×	No
	in economic activities that qualify as environmentally sustainable under the EU Taxonomy in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy		char while susta	omoted Environmental/Social (E/S) racteristics and e it did not have as its objective a ainable investment, it had a proportion of of sustainable investments with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy with a social objective
	made sustainable investments with a social objective:%	×		omoted E/S characteristics, but did not e any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Russell Investments Pan European Equity Fund (the "Fund") promotes a reduction in Carbon emmission, as defined as the weighted average carbon intensity measured as scope 1+2 GHG emissions.

- Scope 1 (direct emissions): activities owned or controlled by an organisation that releases carbon emissions straight into the atmosphere; and
- Scope 2 (energy consumption): carbon emissions being released into the atmosphere associated with consumption of purchased electricity, heat, steam and cooling. These are a consequence of a company's activity but which occur at sources the company does not own or control.

The Fund is actively managed with reference to the MSCI Europe Index (EUR) - Net Returns (the "Index"). The Index is a broad market index and is not used by the Fund to attain the environmental characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The Fund has had Article 8 status for the Fund's entire financial year. Therefore, for the purposes of reporting on the indicators, the reporting period is 1st April 2024 to 31st March 2025 (the "Reporting Period").

The Fund's indicator was achieved. Measured at the end of each month, the aggregated Carbon Footprint of the Fund portfolio was at least 20% lower than the Index throughout the Reporting Period.

- Carbon Footprint" means Carbon Emissions in metric tons of carbon dioxide equivalent (CO2-e), divided by company revenue (USD).
- ... and compared to previous periods?

In each year, the sustainability indicator was achieved.

Indicator	End of March 2023	End of March 2024	End of March 2025
Carbon emissions*	65.00%	76.71%	77.85%

^{*}The month-end average decarb ratio for the two reporting periods.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

While the Fund promoted environmental and/or social characteristics, it did not commit to making any sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details: Not applicable.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund did not consider principal adverse impacts on sustainability factors.

What were the top investments of this financial product?

The table below outlines the top investments of the Fund. These figures are percentages of net assets and are weighted averages of the market value as at 31st March 2024, 30th September 2024 and 31st March 2025.

While 31st March 2024 is outside of the Reporting Period, positions and values are taken at close of business and as such are considered opening positions for the Reporting Period. It is considered preferable to include this additional 31st March 2023 data point, notwithstanding that it is outside of the Reporting Period, as it enhances the quality and accuracy of the overall data presented.

Largest investments Sector % Assets Country Russell Investment Company III plc **Investment Funds** 3.01% Ireland Russell Investments Euro Liquidity Fund Class SW Roll-up Shares ASML Holding NV (Netherlands listed) Consumer Non-cyclical 2.36% Denmark Novo Nordisk AS 2.07% Technology Germany AstraZeneca PLC Consumer Non-cyclical 1.95% **United Kingdom Novartis AG** Technology 1.86% Netherlands SAP SE Consumer Non-cyclical 1.85% Switzerland Roche Holding AG (Non-voting rights) Consumer Non-cyclical 1.60% Switzerland Consumer Non-cyclical 1.37% France Industria de Diseno Textil SA Consumer Cyclical 1.19% Spain Hermes International Industrial 1.00% France **HSBC Holdings PLC Financial** 0.99% Spain Italy TotalEnergies SE **Financial** 0.93% Nestle SA 0.93% Energy France ABB Ltd. 0.90% United Kingdom Energy CaixaBank SA **Consumer Cyclical** 0.88% France

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 1 April 2024 to 31 March 2025.

What was the proportion of sustainability-related investments?

94.67%

What was the asset allocation?

The Fund invested 94.67% of net assets in equities and equity related instruments, all of which were subject to the binding elements of the Fund's investment strategy used to attain the environmental characteristics promoted by the Fund.

This figure is a percentage of net assets and is a weighted average of the market value as at 31st March 2024, 30th September 2024 and 31st March 2025.

Asset allocation describes the share of investments in specific assets.

Investments

#1 Aligned with E/S characteristics 94.67%

#2 Other 5.33%

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#20ther includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

In which economic sectors were the investments made?

The table below outlines the sectors and sub-sectors where the investments of the Fund were made. These figures are percentages of net assets and are weighted averages of the market value as at 31st March 2024, 30th September 2024 and 31st March 2025.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable. The Fund did not commit to making any sustainable investments during the Reporting Period.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

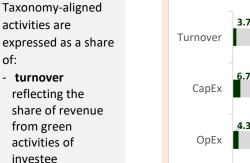

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the

Yes:

In fossil gas
In nuclear energy

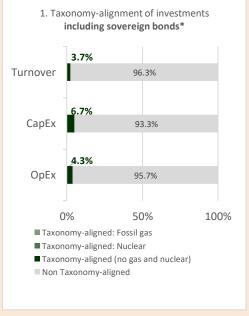

No

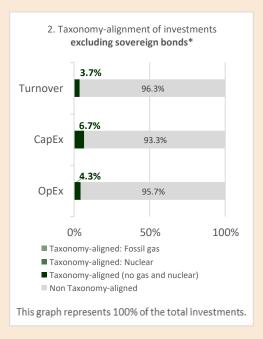

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

- companies.

 capital
 expenditure
 (CapEx) showing
 the green
 investments made
 by investee
 companies, e.g. for
 a transition to a
 green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

The share of the Fund's investments made in transitional and enabling activities is as follows:

	Including Sovereign	Excluding Sovereign
Turnover	Transition: 0.1%	Transition: 0.1%
	Enabling: 2.5%	Enabling: 2.5%
СарЕх	Transition: 0.3%	Transition : 0.3%
	Enabling: 3.6%	Enabling: 3.6%
OpEx	Transition: 0.1%	Transition: 0.1%
	Enabling: 3.2%	Enabling: 3.2%

left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The figures are weighted averages of the actual values as at 31st March 2024, 30th September 2024 and 31st March 2025.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

As illustrated on the table below, the percentage of investments that were aligned with the EU Taxonomy did not change significantly in comparison to the previous reference period ended 31 March 2024.

^{*}The percentages are the same for Taxonomy-alignment of investments excluding sovereign bonds.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Fund did not commit to making any sustainable investments during the Reporting Period.

What was the share of socially sustainable investments?

Not applicable. The Fund did not commit to making any sustainable investments during the Reporting Period.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The portion of the Fund's net assets within the '#2 Other' section in the graph above amounted to 5.33% of net assets and was comprised of:

Cash and cash equivalents used for liquidity management.

Futures contracts used to gain exposure to underlying markets.

Forward foreign exchange transactions used to reduce the risk of adverse market changes in exchange rates or to increase exposure to foreign currencies or to shift exposure to foreign currency fluctuations from one country to another.

These assets were not subject to minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund's Carbon Footprint is monitored at least monthly as the portfolio is rebalanced to ensure the Fund meets its Carbon Footprint target. In order to reduce the possibility of the Fund breaching the Carbon Footprint target between rebalances, due to market movements or otherwise, the Decarbonisation Overlay Strategy aims for a Carbon Footprint reduction in excess of the Fund's target, during each rebalance.

UNGC exclusion lists are updated quarterly and any positions that may have been added to the list of UNGC violators over the previous quarter are removed from the portfolio at the next scheduled rebalance (provided such positions have not been placed under review by the Principal Money Manager in accordance with the process set out in the Fund's Prospectus).

During the year to 31st March 2025, 205 positions, representing 35% of the fund, were covered by Russell Investments' stewardship activities. The stewardship activities are untertaken on a firm-wide basis, therefore engagement activity with some security issuers may have taken place prior to the launch of the fund.

This includes:

- *i)* Russell-Led Engagements, conducted directly between Russell Investments and issuer,
- ii) Collaborative Engagements, conducted between Russell Investments, collaborating group, and issuer, and
- iii) Enhanced Oversight Actions, representing insights collected from Subadvisors while monitoring portfolio companies' ESG and sustainability risks and opportunities.
- iv) Manager research referencing insights collected during the research process, and
- v) Other stewardhip activity not covered by above categories.

How did this financial product perform compared to the reference benchmark?

Not applicable.

Reference
benchmarks are
indexes to
measure whether
the financial
product attains the
environmental or
social
characteristics that

they promote.

- How does the reference benchmark differ from a broad market index?
 Not applicable.
- How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

- How did this financial product perform compared with the reference benchmark?
 Not applicable.
- How did this financial product perform compared with the broad market index?
 Not applicable.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name:
Russell Investments World Equity Fund

Legal entity identifier: HLQBEG4MPYCWQ29U6634

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation

does not include a list of socially sustainable

economic activities.

investments with an

objective might be aligned with the

Sustainable

environmental

good governance

Environmental and/or social characteristics

		de sustainable investments a social objective:%	•••		omoted E/S characteristics, but did not e any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Russell Investments World Equity Fund (the "Fund") promotes a reduction in Carbon Emissions, as defined as the weighted average carbon intensity measured as scope 1+2 GHG emissions.

- Scope 1 (direct emissions): activities owned or controlled by an organisation that releases carbon emissions straight into the atmosphere; and
- Scope 2 (energy consumption): carbon emissions being released into the atmosphere associated with consumption of purchased electricity, heat, steam and cooling. These are a consequence of a company's activity but which occur at sources the company does not own or control.

The Fund is actively managed with reference to the MSCI World Index (USD) - Net Returns (the "Index"). The Index is a broad market index and is not used by the Fund to attain the environmental characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

How did the sustainability indicators perform?

The Fund has had Article 8 status for the Fund's entire financial year. Therefore, for the purposes of reporting on the indicators, the reporting period is 1st April 2024 to 31st March 2025 (the "Reporting Period").

The Fund's indicator was achieved. Measured at the end of each month, the aggregated Carbon Footprint of the Fund portfolio was at least 20% lower than the Index throughout the Reporting Period.

• "Carbon Footprint" means Carbon Emissions in metric tons of carbon dioxide equivalent (CO2-e), divided by company revenue (USD).

...and compared to previous periods?

In each year, the sustainability indicator was achieved.

Indicator	End of March 2023	End of March 2024	End of March 2025
Carbon emissions*	69.09%	69.47%	77.28%

^{*}The month-end average decarb ratio over the reporting periods.

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

While the Fund promoted environmental and/or social characteristics, it did not commit to making any sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund did not consider principal adverse impacts on sustainability factors.

What were the top investments of this financial product?

The table below outlines the top investments of the Fund. These figures are percentages of net assets and are weighted averages of the market value as at 31st March 2024, 30th September 2024 and 31st March 2025.

While 31st March 2024 is outside of the Reporting Period, positions and values are taken at close of business and as such are considered opening positions for the Reporting Period. It is considered preferable to include this additional 31st March 2024 data point, notwithstanding that it is outside of the Reporting Period, as it enhances the quality and accuracy of the overall data presented.

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 1 April 2024 to 31 March 2025.

What was the proportion of sustainability-related investments?

92.49%

What was the asset allocation?

The Fund invested 92.49% of net assets in equities and equity related instruments, all of which were subject to the binding elements of the Fund's investment strategy used to attain the environmental characteristics promoted by the Fund.

This figure is a percentage of net assets and is a weighted average of the market value as at 31st March 2024, 30th September 2024 and 31st March 2025.

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Asset allocation

describes the

specific assets.

share of investments in

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable. The Fund did not commit to making any sustainable investments during the Reporting Period.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

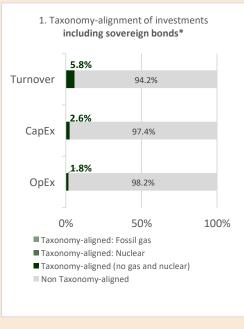

In fossil gas
In nuclear energy

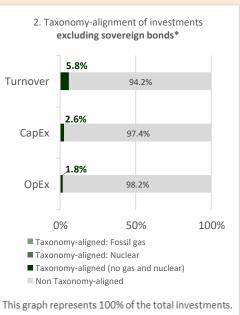

No

Taxonomy-aligned activities are expressed as a share of:

- reflecting the share of revenue from green activities of investee companies.
- capital
 expenditure
 (CapEx) showing
 the green
 investments made
 by investee
 companies, e.g. for
 a transition to a
 green economy.
- operational expenditure (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What was the share of investments made in transitional and enabling activities?

The share of the Fund's investments made in transitional and enabling activities is as follows:

	Including Sovereign Excluding Sovereign			
Turnover	Transition: 0.0%	Transition: 0.0%		
	Enabling: 5.0%	Enabling: 5.0%		
СарЕх	Transition: 0.0%	Transition: 0.0%		
	Enabling: 1.4%	Enabling: 1.4%		
OpEx	Transition: 0.0%	Transition: 0.0%		
	Enabling: 1.3%	Enabling: 1.3%		

The figures are weighted averages of the actual values as at 31st March 2024, 30th September 2024 and 31st March 2025.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

As illustrated on the table below, the percentage of investments that were aligned with the EU Taxonomy did not change significantly in comparison to the previous reference period ended 31 March 2024.

Taxonomy-alignment of Investments including sovereign bonds*

	Taxonomy- aligned: Fossil gas		Taxonomy- aligned: Nuclear		Taxonomy-aligned (no gas and nuclear)		Non Taxonomy- aligned	
	period ended 31	period ended 31	period ended 31	period ended 31	period ended 31	period ended 31	period ended 31	period ended 31

^{*}The percentages are the same for Taxonomy-alignment of investments excluding sovereign bonds.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Fund did not commit to making any sustainable investments during the Reporting Period.

are
sustainable
investments with an
environmental
objective that do
not take into
account the criteria
for environmentally
sustainable
economic activities
under Regulation
(EU) 2020/852.

What was the share of socially sustainable investments?

Not applicable. The Fund did not commit to making any sustainable investments during the Reporting Period.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The portion of the Fund's net assets within the '#2 Other' section in the graph above amounted to 7.51% of net assets and was comprised of:

Cash and cash equivalents used for liquidity management.

Futures contracts used to gain exposure to underlying markets. .

Forward foreign exchange transactions used to reduce the risk of adverse market changes in exchange rates or to increase exposure to foreign currencies or to shift exposure to foreign currency fluctuations from one country to another.

These assets were not subject to minimum environmental or social safeguards.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund's Carbon Footprint is monitored at least monthly as the portfolio is rebalanced to ensure the Fund meets its Carbon Footprint target. In order to reduce the possibility of the Fund breaching the Carbon Footprint target between rebalances, due to market movements or otherwise, the Decarbonisation Overlay Strategy aims for a Carbon Footprint reduction in excess of the Fund's target, during each rebalance.

UNGC exclusion lists are updated quarterly and any positions that may have been added to the list of UNGC violators over the previous quarter are removed from the portfolio at the next scheduled rebalance (provided such positions have not been placed under review by the Principal Money Manager in accordance with the process set out in the Fund's Prospectus).

During the year to 31st March 2025, 449 positions, representing 37% of the fund, were covered by Russell Investments' stewardship activities. The stewardship activities are untertaken on a firm-wide basis, therefore engagement activity with some security issuers may have taken place prior to the launch of the fund.

This includes:

i) Russell-Led Engagements, conducted directly between Russell Investments and issuer,

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- ii) Collaborative Engagements, conducted between Russell Investments, collaborating group, and issuer, and
- iii) Enhanced Oversight Actions, representing insights collected from Subadvisors while monitoring portfolio companies' ESG and sustainability risks and opportunities.
- iv) Manager research referencing insights collected during the research process.
- v) Other stewardhip activity not covered by above categories.

How did this financial product perform compared to the reference benchmark?
