

Russell Investments

Global Bond Fund

Article 8

Senior Portfolio Manager
Gerard Fitzpatrick

Russell Investments' Global Fixed Income Team comprises over 9 experienced professionals, including portfolio managers, researchers, portfolio analysts, and strategists in Russell Investments offices around the globe.

The team manages cash and multi-strategy fixed income portfolios, which include global, regional, investment grade, high yield, emerging market debt and absolute return mandates.

Fund objective

The Fund aims to achieve income and growth by investing at least 70% of its assets worldwide in bonds, and debt instruments, including mortgage and asset backed securities. The Fund is actively managed with reference to the Bloomberg Global Aggregate Index (USD) - Total Returns (the "Index") which it seeks to outperform by 1% over the medium to long term. Russell Investments/ Money Managers have full discretion to select investments for the Fund.

This product is an Article 8 product, as defined under EU regulation - it promotes environmental or social characteristics and invests in companies that follow good governance practices. This product does not have sustainable investment as its objective.

Fund update

The Fund underperformed the benchmark. Rates positioning was negative, with overweights to US Treasuries, notably 10- and 15-year issues, and rates in Australia, Brazil, Mexico and Norway detracting. However, underweights to German bunds and rates in Japan contributed positively. In currencies, an overweight to the US dollar and underweights to the Swiss franc, euro, Swedish krona and Mexican peso were beneficial. In contrast, an underweight to the Japanese yen and an overweight to the Norwegian krone were unhelpful. In credit, although overweights to US high yield industrials and investment grade financials were additive, this was offset by overweight exposure to hard currency emerging market debt in Europe. Elsewhere, an overweight to non-agency commercial mortgage-backed securities and an underweight to US securitised passthrough contributed positively.

Past performance does not predict future returns.

The current benchmark is the Bloomberg Global Aggregate Index (USD) - Total Returns converted into Euros. Effective August 24, 2021, the Bloomberg Barclays fixed income indices were rebranded the Bloomberg Indices. The benchmark prior to 24th August 2016 was the Barclays Global Aggregate Bond Index. From October 2001 to November 2008 the index was the Lehman Brothers Global Aggregate Index. The benchmark prior to October 2001 was SSB WGBI.
