

This document provides you with the key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Trojan Ethical Global Income Fund (the "Fund"),

a fund within Trojan Investment Funds (the "Company")
Waystone Management (UK) Limited is the Authorised Corporate Director of the Fund.

F Accumulation (ISIN: GB00BNR5HG37)

Objective and Investment Policy

Objective

To seek to achieve income (money available to be paid out by the Fund) with the potential for capital growth (an increase in the value of the Fund) after all costs and charges have been taken, over the medium term (3 to 5 years). There is no guarantee that the objective will be met over any time period and you may get back less than you invest.

Investment Policy

To invest at least 80% of its assets globally in equities (which includes company shares, investment trusts and Real Estate Investment Trusts, which are companies that aim to generate an income and/or profit from investing in property) and equity related securities (investments whose value is linked to the performance of the shares in one or more companies). The Fund may also invest in bonds (for example, loans to either a company or government that pay interest), money market instruments (for example, short term loans that pay interest), deposits and cash and indirectly in property. Exposure to these asset classes may be achieved by investing in investment trusts and other funds (including those managed by the Manager, the Investment Manager and their associates). The Fund will invest in line with the requirements of the Investment Manager's Climate Change Mitigation Policy (as further described in the Investment Strategy in the prospectus).

Investments will not be made in companies which derive material exposure to revenues from fossil fuels, pornography, tobacco, alcohol, gambling, high interest rate lending and certain types of armaments. Investment in government debt is limited to that issued by Canada, France, Germany, Italy, Japan, the UK and the US (commonly known as the "G7"). Not all asset types are subject to ethical exclusion criteria. A document setting out the Fund's ethical exclusion criteria is available at www.waystone.com. You should read this document before investing.

The Investment Manager's investment decisions will be based on an assessment of various factors including the potential for dividend growth and growth in cash flow and profits. The Investment Manager will seek to construct a portfolio of investments to deliver income but which may also grow in value over time.

The Investment Manager aims to construct a portfolio for the Fund that seeks to promote climate change mitigation through an investment process

Risk and Reward Profile

This indicator shows how much the Fund has risen and fallen in the past, and therefore how much the Fund's returns may have varied. It is a measure of the Fund's volatility. As the Fund has less than 5 years history, this calculation incorporates the volatility of an appropriate benchmark index.

The higher a Fund's past volatility, the higher its position on the scale and the greater the risk that investors may have experienced losses as well as gains.

The Fund has been classed as 4 because its volatility has been measured as average.

This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

The risk and reward profile shown is not guaranteed to remain the same and may change over time.

The lowest number on the scale does not mean that the Fund is risk-free.

The value and income from the Fund's assets may go down as well as up. This will cause the value of your investment to fall as well as rise.

- **Currency Risk:** As the Fund invests in overseas securities, movements in exchange rates, when not hedged, cause the value of your investments to increase or decrease. Currency hedging, where applied, may not fully eliminate this risk and mismatches can occur.

which assesses a company's alignment to, or commitment to align to net zero greenhouse gas emissions by 2050. The Investment Manager also assesses the corporate governance practices of companies in which the Fund may invest. The asset classes to which this investment process applies are set out in the Investment Manager's Climate Change Mitigation Policy on the Investment Manager's website at www.taml.co.uk. It does not apply to other assets within the Fund.

Other features of the Fund:

The Fund is actively managed. The Investment Manager uses its expertise to select investments for the Fund and has the discretion to invest without the need to adhere to a particular benchmark.

The Fund can invest across different geographic areas and industry sectors without limitation.

You can buy and sell shares in the Fund on each business day.

Any income generated from the Fund is reinvested and reflected in the value of your investment.

Derivatives (whose value is linked to that of another investment, e.g. company shares, currencies) may be used to manage the risk profile of the Fund.

The F Shares will be available for investment between 1 November 2021 and 30 November 2021 (the "F Class Period"). Following the end of the F Class Period, subject to the Manager's discretion, the Class F Shares will only be available for subsequent issue to existing investors in the Class F Shares and to persons the Manager considers are connected with existing investors in the Class F Shares.

Any subsequent issue will not be made unless, at the time of issue, the Manager is satisfied on reasonable grounds that the proceeds of the issue can be invested without compromising the Fund's investment objective or adversely affecting its future investment performance; and the issue will not materially prejudice the interests of existing Shareholders, in accordance with COLL 6.2.18R.

Recommendation: This Fund may not be suitable for investors who plan to withdraw their money within 5 years. More information on the management of this portfolio can be found at www.waystone.com.

- **Counterparty Risk:** The failure of a firm involved in a transaction with the Fund or providing services to the Fund may expose the Fund to financial loss.
- **Property Securities Risk:** The Fund invests in property funds or in the shares of companies that own or manage property (such as real estate investment trusts) rather than in property directly. Property related investments can become illiquid, increasing the risk that positions cannot be sold quickly or at reasonable priced. The value of these investment may also fluctuate more than the value of the property itself, which could negatively impact the value of the Fund.
- **Change in Interest Rate Risk:** A rise in interest rates generally causes bond prices to fall. The value of fixed interest securities may also be affected by trends in interest rates, inflation and credit ratings.
- **Credit Risk:** The value of a bond or other fixed interest security may be affected by its credit rating. A lower credit rating increases the risk that the issuer may not pay interest or repaying the loan. Fixed interest securities are also influenced by trends in interest rates and inflation, which can cause their value to fluctuate.
- **Ethical Investments:** The Fund is prevented from investing in certain sectors or companies. This narrower range may constrain the Fund's performance. If an investment no longer meets the ethical exclusion criteria it will be sold and the price obtained may be less than could be obtained if a forced sale was not required.
- **Charges to Capital Risk:** As charges are taken from capital, this will erode capital and may constrain capital growth.

For more information about the Fund's risks, please see the Risk Factors section of the prospectus which is available at www.waystone.com.

Charges for this Fund

The charges you pay are used to cover the costs of running the Fund, including marketing and distribution. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	5.00%
Exit Charge	None
This is the maximum that might be taken out of your money before it is invested/before the proceeds of your investment are paid out. In some cases, you may pay less. Please check with your financial adviser or distributor for the actual charges.	
Charges taken from the Fund over the year	
Ongoing Charges	0.57%
Charges taken from the Fund under certain specific conditions	
Performance Fee	None

The ongoing charges figure is capped at 0.57% until further notice. If the cap was not in place, the uncapped ongoing charge figure would be 0.73% based on expenses as at 31 January 2026.

The ongoing charges are taken from both the capital (AMC) and the income (others) of the Fund. They exclude portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

You may also be charged a dilution adjustment (an adjustment to cover dealing costs incurred by the Fund) on entry to or exit from the Fund.

For more information about charges (including any charges applied to the offset dealing costs), please refer to the Company's Prospectus, available at www.waystone.com.

Past Performance

Past performance is not a guide to future performance.

The past performance in the chart is net of tax and charges but excludes any entry or exit charges that may apply.

The Fund was launched on 1 November 2021. This share class was launched on 1 November 2021.

Past performance is calculated in GBP.
