

Liontrust MA Explorer 70 Fund

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Liontrust MA Explorer 70 Fund is a sub-fund of the Liontrust Multi-Asset Investments ICVC and categorised as a UCITS scheme. This document is based upon the S Acc GBP (ISIN: GB00BCZW6C87). This Fund is managed by Liontrust Fund Partners LLP, a subsidiary of Liontrust Asset Management PLC.

Objective and Investment Policy

- **Investment Objective:** The Fund aims to generate capital growth and income over the long term (5 years or more).
- There is no guarantee that a total return will be generated over any time period.
- **Investment Policy:** The Fund is an actively managed fund of funds that invests at least 90% of the Fund in other funds, including unit trusts, ETFs, investment trusts and Real Estate Investment Trusts (REITs). These underlying funds invest globally (including in emerging markets) in a range of asset classes and financial instruments including shares, debt instruments (bonds) and cash based on expected returns and risks.
- In normal market conditions, the Fund will hold a minimum of 45% and up to 70% of its Net Asset Value in funds that invest in shares, with a diversified portfolio, though temporary concentration in bonds, cash, or money market instruments may occur. The Fund may invest in up to 10% directly in transferable securities, cash, deposit, or money market instruments. Tactical allocations to alternative assets will only be made when they offer an attractive risk/return profile within the overall portfolio.
- The underlying funds will where practicably possible, be 'active' funds, which are investment funds that aim to beat the performance of various financial indices.
- The Fund is considered to be actively managed in reference to the benchmark(s) in the performance table by virtue of the fact that it uses the benchmark(s) for performance comparison purposes. The benchmark(s) are not used to define the portfolio composition of the Fund and the Fund may be wholly invested in securities which are not constituents of the benchmark.
- **Other Information:** The Fund may not be appropriate for investors who plan to withdraw their money within 5 years.
- The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.
- You may buy or sell shares on a daily basis (but not weekends or bank holidays in the UK). Orders must be received by 12:00 noon for

execution at 8:00am valuation on the following day. Further details can be found at www.liontrust.com.

- The Fund may invest in derivatives and forward transactions for efficient portfolio management. Some of the underlying funds may invest in derivatives, which can, in some circumstances, create wider fluctuations in their prices over time.
- **Strategic Asset Allocation (SAA):** To determine the SAA, historical returns and volatilities of a range of asset classes, as well as their correlations with each other, and other market dynamics are collated and studied.
- **Tactical Asset Allocation (TAA):** TAA determines the overweight or underweight exposure to an asset class or sub-asset class when compared to the SAA. Each asset class, sub-asset class, the overall market environment and a handful of other factors are scored from 1 to 5. The quants data provide a perspective on, for example, the relative attractiveness of an equity market both against other markets and against its own history.
- **Portfolio construction:** The team tests the performance and interaction of factors, such as value, growth, quality or size, versus each other over the long term and we identify a blend which we believe will provide the most effective risk-adjusted exposure to the equity region in question. The decision of where to use passive vehicles depends on two main considerations: availability and suitability. Each asset class or sub-asset class is assigned a weight through the TAA process.
- **Manager selection:** Managers are subjected to significant levels of quantitative analysis to ensure the team understands current and past positioning. The most important part of past performance analysis relates to the stylistic exposure of managers. The attributed drivers of performance are also identified. Potential managers are then subjected to deep qualitative analysis including philosophy and process, team structure, business structure and incentivisation, stock selection process, and portfolio construction.
- **Implementation:** This ensures the team implements in a manner that treats customers fairly, creates consistency across the ranges wherever possible, and finds an optimal balance between trading and portfolio turnover.

Risk and Reward Profile

- This Synthetic Risk and Reward Indicator (SRRRI) is based on historical data and may not be relied upon to gauge the future risk profile of the Fund.
- The SRRRI shown is not guaranteed to remain the same and may shift over time.
- The lowest category (1) does not mean 'risk free'.
- The Fund is categorised 4 primarily for its exposure to higher risk assets.
- The Fund's risk and reward category has been calculated using the methodology approved by the Financial Conduct Authority. It is based upon the rate by which the Fund or a representative fund or index's value has moved up and down in the past.
- For full details of the Fund's risks, please see the prospectus which may be obtained from Liontrust (address below) or online at www.liontrust.com.

- The SRRRI may not fully take into account the following risks:
- **Credit Risk:** There is a risk that an investment will fail to make required payments and this may reduce the income paid to the fund, or its capital value.
- **Counterparty Risk:** The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Fund to financial loss;
- **Liquidity Risk:** If underlying funds suspend or defer the payment of redemption proceeds, the Fund's ability to meet redemption requests may also be affected;
- **Interest Rate Risk:** Fluctuations in interest rates may affect the value of the Fund and your investment;
- **Emerging Markets Risk:** The Fund may invest in less economically developed markets (emerging markets) which can involve greater risks than well developed economies;
- **Currency Risk:** The Fund invests in overseas markets and the value of the Fund may fall or rise as a result of changes in exchange rates.
- **ESG Risk:** There may be limitations to the availability, completeness or accuracy of ESG information from third-party providers, or inconsistencies in the consideration of ESG factors across different third party data providers, given the evolving nature of ESG.

Charges

One-off charges taken before or after you invest

Entry Charge None

Exit Charge None

This is the maximum that might be taken out of your money before it is invested.

Charges taken from the Fund over the year

Ongoing Charges 1.08%

Charges taken from the Fund under certain specific circumstances

Performance Fee None

- The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. They reduce the potential growth of your investment.
- The entry and exit charges shown are maximum figures. In some cases you might pay less – you can find this out from your financial adviser or fund platform if you are not using a financial adviser.
- The ongoing charges figure is based on expenses as at 31 December 2025. This figure may vary from year to year. It excludes:
 - portfolio transaction costs, except in the case of an entry/exit charge paid by the UCITS when buying or selling units/shares in another collective investment undertaking.
- For more information about charges and what is included in each charge, please see the Fund's prospectus, which is available electronically at www.liontrust.com, or visit the costs and charges page on our website at www.liontrust.com/costs-and-charges.

Past Performance

- **Past performance does not predict future returns.**
- It has been calculated on the basis that any distributable income of the Fund has been reinvested. The past performance shown in the chart takes into account all charges except entry and exit charges.
- The Fund launch date is 29 July 2005.
- The S Acc GBP launch date is 3 December 2013.
- The base currency of the Fund is GBP.
