

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Spyglass US Growth Fund (UCITS) (the "Fund"), a Sub-fund of Aravis Funds (Ireland) ICAV (the "ICAV")

Class F USD Distribution, ISIN: IE00BK6S9X31

The Fund is managed by Carne Global Fund Managers (Ireland) Limited (the "Manager")

Objectives and Investment Policy

Investment Objective

The Fund's investment objective is to achieve long-term capital growth. The Fund seeks to outperform the Russell 2500 Growth Total Return Index (the "Benchmark").

Investment Policy

In order to achieve its investment objective, the Fund may invest in a non-diversified portfolio of equity securities, mainly common stocks primarily of U.S. growth companies. In exceptional cases the Fund may also invest in other equity securities including share of U.S. real estate investment trusts ("REITS") subject to a maximum of 10% of the Fund at the Investment Managers discretion. This Fund is actively managed, meaning the Investment Manager uses their expertise to pick investments by using bottom-up research and comprehensive due diligence.

The Fund will focus investments in rapidly growing U.S. companies. The Fund will seek to invest in securities with market capitalisations (market values) between \$2 billion and \$12 billion that it believes have potential for above-average revenue and/or earnings. The Fund will seek long-term growth and may at times hold securities in its portfolios with market values that have grown beyond their value at time of purchase. The Fund will aim to hold a relatively focused portfolio of 25-30 companies but may from time to time hold fewer or more stocks depending on the Investment Managers analysis on available opportunities. The Fund will focus investments in sectors of the economy that are experiencing long-term market expansion such as, but not limited to information technology, healthcare, business services and consumer discretionary.

The Fund does not intend to invest in FDIs and will not enter into any stock lending, repurchase, reverse repurchase or total return swaps. The Fund will enter into forward foreign exchange contracts for hedging purposes only. Share Classes entering into currency hedging may incur transaction costs. Any costs and gains or losses will accrue solely to the relevant Share Class.

For more information about the investment policy and strategy of the Fund, please refer to the sections entitled "Investment Objective, Investment Policy and Investment Strategy" of the Fund's Supplement.

While it is not the current intention of the Fund as at the date of this document to invest in other collective investment schemes, the Fund will not invest more than 10% of the Net Asset Value ("NAV") in other collective investment schemes. These collective investment schemes will be UCITS, non-UCITS and/or exchange traded funds.

Performance of the Fund is measured against the Benchmark for comparative purposes only. The Benchmark is intended solely for the purposes of calculating the Performance Fee; meaning that while the Fund measures performance against the benchmark, it does not target any particular level of outperformance of the Benchmark as an objective. Securities selection is not constrained by the Benchmark.

The investment manager will also integrate environmental, social and governance ("ESG") factors in accordance with its ESG strategy in order to promote characteristics including sound corporate governance and strong disclosures on sustainability and impact.

The base currency of the Fund is USD.

Distribution Policy

For accumulating share classes, income will be automatically reinvested in the Fund and reflected in the NAV per share. For distributing share classes, income will be paid in the form of a dividend.

Dealing Frequency

You can buy and redeem shares on each Business Day, meaning every day on which banks in Ireland and the U.S. are open for normal business or such other day(s) as the Directors may determine and notify shareholders in advance.

Recommendation

The Fund is suitable for investors who require a medium-term Investment portfolio who are willing to accept a medium to high level of risk.

This Fund is in risk category 7 due to the historic performance of a benchmark.

This indicator above is based on historical data and may not be a reliable indication of the future risk profile of the Fund. The risk category shown is not guaranteed and may change over time. The lowest category does not mean a risk-free investment.

The Fund may be subject to risks which are not included in the calculation of the risk-reward indicator.

Key risk factors:

Market Risk: A risk that the market will go down in value with the possibility that such changes will be sharp and unpredictable.

Geographical Risk: The Fund may invest primarily in the United States, which means that it may be more sensitive to local economic, market, political or regulatory events in the United States, and may be more affected by these events than other funds that invest in a broader range of regions.

Operational Risk (including safekeeping of assets): The Fund and its assets may experience material losses as a result of technology/system failures, insolvency of service providers cybersecurity breaches, human

error, policy breaches and/or incorrect valuation of units.

Liquidity Risk: The Fund may invest in securities which may, due to negative market conditions, become difficult to sell or may need to be sold at an unfavourable price. This may affect the overall value of the Fund.

Concentration Risk: The Fund may invest in fewer companies than other funds which invest in shares usually do. Where this is the case, it means that the Fund does not spread its risk as widely as other funds and will therefore be affected more if an individual company has significant losses.

Benchmark Risk: The Fund's main objective is to outperform a benchmark, however there is no guarantee of this outperformance.

Currency Risk: Changes in the exchange rate between the base currency and such denominated currency of a currency share class may lead to a depreciation of the value of such shares as expressed in the denominated currency. Fluctuations in the exchange rate between the currency(ies) of a fund's underlying assets and the currency of a share class may lead to currency risk for the holders of shares in the relevant class. Shareholders of hedged share classes should be aware that they may be substantially limited from benefiting if the denominated currency falls against the base currency and/or the currency/currencies in which the assets of the Fund are denominated.

Attention is drawn to the risk that the value of the principal invested in the Fund may fluctuate.

For more information on risks, please see the section entitled "Risk Factors" in the Prospectus of the ICAV and Supplement for the Fund.

Charges

The charges you pay are used to pay for the costs of running the fund, which include the marketing and distributing costs. These charges reduce the potential growth of your investment.

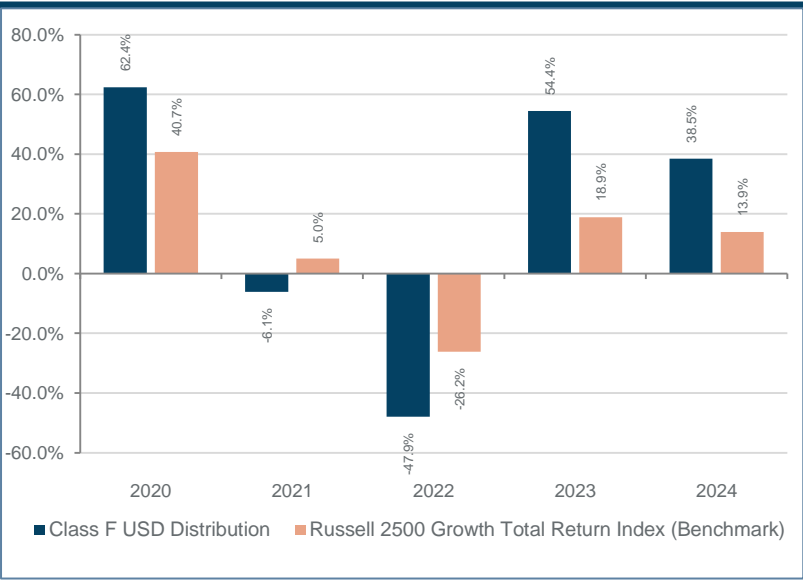

One-off charges taken before or after you invest	
Entry charge	3.00%
Exit charge	None
This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charges	0.75%
Charges taken from the fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum figures. In some cases, you might pay less - for further details please speak to your financial advisor.

The ongoing charges figure is based on expenses for the year ending December 2024. The Fund's annual report for each financial year will include details on the exact charges made. The ongoing charge figure may vary from year to year and excludes performance fees and portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

Please refer to the "Fees and Expenses" section of the ICAV's Prospectus and Supplement to the Prospectus for further detail on charges and relevant definitions, including detail of the incentive fee calculation and definition of "High Water Mark".

Past Performance

The fund was launched in September 2019.

The Fund does not track the Benchmark, it is used for comparative purposes only.

Past performance is not a guarantee of future performance. In general, past performance takes into account of all ongoing charges, but not any entry, exit or switching charge. Past performance shall be calculated in US Dollars. **The value of your investment may go down as well as up and you may not get back the amount you originally invested.**
