

Liontrust Russia Fund

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Liontrust Russia Fund is a sub-fund of the Liontrust Investment Funds I and categorised as a UCITS scheme. This document is based upon the M Acc GBP (ISIN: GB00BL839K09). This Fund is managed by Liontrust Fund Partners LLP, a subsidiary of Liontrust Asset Management PLC.

Objective and Investment Policy

- To generate long term (5 years or more) capital growth.
- Growth stocks tend to pay out lower levels of dividend resulting in lower income yields and may produce more volatile returns than the market as a whole.
- The Fund invests in Russian equities. The Fund may also invest in other eligible asset classes as detailed within the prospectus.
- The Fund is considered to be actively managed in reference to the benchmark(s) in the performance table by virtue of the fact that it uses the benchmark(s) for performance comparison purposes. The benchmark(s) are not used to define the portfolio composition of the Fund and the Fund may be wholly invested in securities which are not constituents of the benchmark.
- The Fund may not be appropriate for investors who plan to withdraw their money within 5 years.
- The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.
- You may buy or sell units on a daily basis (but not weekends or Bank Holidays). Orders must be received by 11:59am for execution at 12:00 midday valuation point on the same day.
- The Fund may, under certain circumstances, invest in derivatives but it is not intended that their use will materially affect volatility. Derivatives are used to protect against currencies, credit and interest rate moves or for investment purposes. The use of derivatives may create leverage or

gearing resulting in potentially greater volatility or fluctuations in the net asset value of the Fund. A relatively small movement in the value of a derivative's underlying investment may have a larger impact, positive or negative, on the value of a fund than if the underlying investment was held instead.

- On 25 February 2022, Liontrust suspended dealing in the Russia Fund. This means that from this point investors have not been able to make purchases or redemptions in the Fund until further notice.
- The suspension, including the inability for investors to deal in the Fund and to evaluate performance, makes it impossible to assess all of the seven criteria used for all other funds. Liontrust has evaluated whether the services and processes that continue to be provided to the Fund and investors are meeting expectations.
- The Fund aims to generate capital growth over the long term (five years or more). The Fund invests at least 80% in shares of Russian companies. These are companies which, at the time of purchase, are incorporated, domiciled, listed or conduct significant business in Russia. At the moment, Liontrust is unable to say for how long the Fund will be suspended. Liontrust will keep the suspension of the Russia Fund under continual review and we will update investors as soon as we can. Liontrust is waiving the Annual Management Charge (AMC) and Administration Fee for the Russia Fund while dealing in the Fund is suspended.

Risk and Reward Profile

- This Synthetic Risk and Reward Indicator (SRRRI) is based on historical data and may not be relied upon to gauge the future risk profile of the Fund.
- The SRRRI shown is not guaranteed to remain the same and may shift over time.
- The lowest category (1) does not mean 'risk free'.
- The Fund is categorised 7 primarily for its exposure to Russian equities.
- The Fund's risk and reward category has been calculated using the methodology approved by the Financial Conduct Authority. It is based upon the rate by which the Fund or a representative fund or index's value has moved up and down in the past.
- For full details of the Fund's risks, please see the prospectus which may be obtained from Liontrust (address below) or online at www.liontrust.co.uk.

- The SRRRI may not fully take into account the following risks:
 - that a company may fail thus reducing its value within the Fund;
 - overseas investments may carry a higher currency risk. They are valued by reference to their local currency which may move up or down when compared to the currency of the Fund.
- **Credit Counterparty Risk:** outside of normal conditions, the Fund may hold higher levels of cash which may be deposited with several credit counterparties (e.g. international banks). A credit risk arises should one or more of these counterparties be unable to return the deposited cash.
- **Diversification Risk:** the Fund is expected to invest in companies predominantly in a single country which maybe subject to greater political, social and economic risks which could result in greater volatility than investments in more broadly diversified funds.
- **Concentration Risk:** the Fund may have a concentrated portfolio, i.e. hold a limited number of investments (35 or fewer) or have significant sector or factor exposures. If one of these investments or sectors / factors fall in value this can have a greater impact on the Fund's value than if it held a larger number of investments across a more diversified portfolio.
- **Emerging Markets Risk:** the Fund invests in emerging markets which carries a higher risk than investment in more developed countries. This may result in higher volatility and larger drops in the value of the fund over the short term.
- **Liquidity Risk:** the Fund may encounter liquidity constraints from time to time. The spread between the price you buy and sell shares will reflect the less liquid nature of the underlying holdings.
- **ESG Risk:** there may be limitations to the availability, completeness or accuracy of ESG information from third-party providers, or inconsistencies in the consideration of ESG factors across different third party data providers, given the evolving nature of ESG.
- **Sanctions:** Certain countries, including Russia, have a higher risk of the imposition of financial and economic sanctions on them which may have a significant economic impact on any company operating, or based, in these countries and their ability to trade as normal. Any such sanctions may cause the value of the investments in the fund to fall significantly and may result in liquidity issues which could prevent the fund from meeting redemptions.

Charges

One-off charges taken before or after you invest

Entry Charge	None
Exit Charge	None

This is the maximum that might be taken out of your money before it is invested.

Charges taken from the Fund over the year

Ongoing Charges	0.74%
-----------------	-------

Charges taken from the Fund under certain specific circumstances

Performance Fee	None
-----------------	------

- The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. They reduce the potential growth of your investment.
- The entry and exit charges shown are maximum figures. In some cases you might pay less – you can find this out from your financial adviser or fund platform if you are not using a financial adviser.
- The ongoing charges figure is based on expenses as at 31 December 2024. This figure may vary from year to year. It excludes:
 - portfolio transaction costs, except in the case of an entry/exit charge paid by the UCITS when buying or selling units/shares in another collective investment undertaking.
- For more information about charges and what is included in each charge, please see the Fund's prospectus, which is available electronically at www.liontrust.co.uk, or visit the costs and charges page on our website at www.liontrust.co.uk/costs-and-charges.

Past Performance

- **Past performance does not predict future returns.**
- It has been calculated on the basis that any distributable income of the Fund has been reinvested. The past performance shown in the chart takes into account all charges except entry and exit charges.
- The Fund launch date is 31 December 2004.
- The M Acc GBP launch date is 6 April 2020.
- The base currency of the Fund is GBP.
- The ACD recommended investors compare the performance of the Fund against the MSCI Russia 10'40 Index, this being the benchmark index that we believed most appropriately matched the investment universe of the Fund. MSCI have decided to discontinue the index and so we are no longer able to provide comparable performance information on the MSCI Russia 10'40 Index to investors.

	2020	2021	2022	2023	2024
■ Liontrust Russia Fund M Acc GBP	18.8%	-60.4%	0.5%	-15.6%	-15.6%
