

Key investor information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Global Environment Fund

A sub-fund of Ninety One Funds Series iii
managed by Ninety One Fund Managers UK Limited

Class J Accumulation shares in sterling
ISIN: GBOOBMXZ8789

Objectives and investment policy

The Fund's investment objective is to grow the value of your investment and provide income over the long term (at least 5 years), after allowing for fees.

The Fund has an impact sustainability objective to invest in and engage with companies whose products and/or services address the environmental challenge of climate change through decarbonisation (reducing greenhouse gas emissions to reduce global warming) to grow the provision of such products and/or services over at least 5 years.

For each company the Fund invests in, the carbon avoided (the carbon emissions avoided by using a product or service that has less carbon emissions than the current level) is measured and progress towards pre-determined engagement milestones is reported annually.

By growing the provision of decarbonisation products and/or services, the positive outcomes associated with reducing carbon emissions can occur at greater speed, scale or breadth than would have otherwise been achieved.

The Fund invests at least 70% (and typically substantially more) of its assets in the shares of companies around the world that meet its sustainability objective, specifically companies whose products, technologies and/or services avoid carbon, relative to their industry peers.

These companies are typically committed to renewable energy, resource efficiency and/or electrification (the process of powering by electricity by switching from other power sources). More detail on these companies is in the Prospectus, in the section entitled "Theory of Change" under the heading "Investment contribution: how do companies the Fund invests in contribute to solving this challenge?"

The Fund invests in companies which may be located anywhere in the world, be of any size and operate within any industry sector. The Fund may, at times, invest in a relatively small number of companies.

As outlined in the Sustainability Approach, investment opportunities are identified using in-depth analysis and research on individual companies and these companies may be of any size and in any sector (provided they align with the Sustainability Approach).

The Fund may also invest in other transferable securities (e.g., shares and bonds) and up to 10% in other funds (managed by a Ninety One, or a third party), where the Investment Manager's Sustainability Approach (see Prospectus) is applied. The Fund may also invest in money market instruments, cash or near cash, deposits, and derivatives, to which the Sustainability Approach is not applied. These investments are held for short periods of time to manage liquidity and for risk diversification but do not conflict with the Fund's objectives.

Derivatives (financial contracts whose value is linked to the price of an underlying asset) may be used in order to achieve the Fund's investment objectives or with the aim of either managing the Fund risks or reducing the costs of managing the Fund.

The Fund is actively managed. This means the Investment Manager is free to select investments with the aim of achieving the Fund's objectives.

The MSCI AC World Net Return Index is used for performance comparison. The Fund does not seek to replicate the index.

Any income due from your investment is reflected in the value of your shares.

You can typically buy or sell shares in the Fund on any business day.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and reward profile

This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund. The risk and reward category shown is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean 'risk free'.

The value of your investment and any income from it can fall as well as rise and you are not certain of making profits; losses may be made.

Environmental, social or governance related risk events or factors, if they occur, could cause a negative impact on the value of the investments made by the Fund.

The Fund appears towards the higher end of the Risk and Reward Indicator scale. This is because the Fund invests in the shares of companies, whose values tend to fluctuate widely.

Risks that may not be fully captured by the Risk and Reward Indicator:

Concentrated portfolio: The portfolio invests in a relatively small number of individual holdings. This may result in wider fluctuations in value than more broadly invested portfolios.

Currency exchange: Changes in the relative values of different currencies may adversely affect the value of investments and any related income.

Derivatives: The use of derivatives is not intended to increase the overall level of risk. However, the use of derivatives may still lead to large changes in value and includes the potential for large financial loss. A counterparty to a derivative transaction may fail to meet its obligations which may also lead to a financial loss.

Emerging market: These markets carry a higher risk of financial loss than more developed markets as they may have less developed legal, political, economic or other systems.

Equity investment: The value of equities (e.g. shares) and equity-related investments may vary according to company profits and future prospects as well as more general market factors. In the event of a company default (e.g. insolvency), the owners of their equity rank last in terms of any financial payment from that company.

Sustainable Strategies: Sustainable, impact or other sustainability-focused portfolios consider specific factors related to their strategies in assessing and selecting investments. As a result, they will exclude certain industries and companies that do not meet their criteria. This may result in their portfolios being substantially different from broader benchmarks or investment universes, which could in turn result in relative investment performance deviating significantly from the performance of the broader market.

The full list of Fund risks is contained in the appendices of the Ninety One Funds Series omnibus prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The entry charge shown is the most you might pay, in some cases you might pay less.

You can find out actual entry charges from your financial adviser.

The ongoing charges figure shown here is an estimate of the charges, as there has been a change to the charging structure. The Fund's annual report for each financial year will include detail on the exact charges made. The figure excludes any performance fee and portfolio transaction costs, except in the case of an entry or exit charge paid by the Fund when buying or selling units in another fund. Ongoing charges may vary from year to year.

For more information about charges, please see section 7 of the Ninety One Funds Series omnibus prospectus.

One-off charges taken before or after you invest

Entry charge	None
Exit charge	None

This is the maximum that might be taken out of your money before it is invested.

Charges taken from the fund over a year

Ongoing charge	0.78%
----------------	-------

Charges taken from the fund under certain specific conditions

Performance fee	None
-----------------	------

Past Performance

Past performance is not a guide to future performance. The value of your investment and income from it may go down as well as up and you may not get back the amount you invested.

The Fund does not track an index, any index shown is for illustrative purposes only.

The past performance shown in the chart takes account of all charges except the Fund's entry charge and the past performance is calculated in sterling.

The Fund was launched on 2 December 2019 and this share class on 18 November 2020.

Practical Information

The Fund's depository is State Street Trustees Limited. The latest published prices for shares in the Fund are available on www.ninetyone.com. Other share classes are available for this Fund as described in the Ninety One Funds Series omnibus prospectus. UK tax legislation may have an impact on your personal tax position.

The Fund is a sub-fund of Ninety One Funds Series iii. You may switch between other Ninety One Funds Series i, ii, iii or iv sub-funds or share classes of the same sub-fund at no extra charge (unless the other share class has a higher entry charge, in which case the difference may be payable).

Details are contained in section 3 of the Ninety One Funds Series omnibus prospectus and are covered in the FAQs in the 'Help and support' section of our website. The assets of the Fund are ring-fenced and cannot be used to pay the debts of other Ninety One sub-funds.

Ninety One Fund Managers UK Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Ninety One Funds Series omnibus prospectus.

The latest remuneration policy relating to Ninety One Fund Managers UK Limited is available free of charge on request from the address below or from: www.ninetyone.com/remuneration. English language copies of the Ninety One Funds Series omnibus prospectus and Ninety One Funds Series iii latest annual and semi-annual reports may be obtained free of charge from Ninety One Fund Managers UK Limited, 55 Gresham Street, London EC2V 7EL.

This Fund is authorised in the United Kingdom and regulated by the Financial Conduct Authority.
