

# Key Investor Information

This document provides you with the key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

## Guinness Best of Asia Fund (the "Fund"),

a sub fund within Guinness Asset Management Funds plc (the "Company")  
Waystone Management (IE) Limited is the Manager of the Fund.

**Class C GBP Acc (ISIN: IE00BF2VFX37)**

## Objective & Investment Policy

### Objective

The investment objective of the Fund is to provide investors with long-term capital appreciation.

### Investment Policy

The Fund invests in the shares of a range of companies doing business in Asia. The Fund invests in equity and equity related securities of companies that are either primarily traded on market exchanges in the Asia Pacific Region including Japan (the "Region") or that derive at least 50% of their revenues from business activities in that Region, but which may be listed and traded on other Recognised Exchanges.

### Other features of the Fund:

The Fund is considered to be actively managed in reference to the MSCI AC Asia Pacific Ex Japan Index (the "Benchmark") by virtue of the fact that it uses the Benchmark solely for performance comparison purposes.

You can buy and sell shares in the Fund on each business day in Ireland and the UK.

Any income generated from the Fund is reinvested and reflected in the value of your investment.

Under normal market conditions the Fund intends to invest in between 25 and 75 stocks.

The Fund may invest in securities of companies with a wide range of market capitalizations and in companies domiciled throughout the world, including companies domiciled in or traded on markets in the Region.

Derivatives (a contract the value of which depends on the value of one or more underlying assets) may be used to manage the risk profile of the Fund, reduce cost or generate additional capital or income.

Currency hedging arrangements may be used to reduce the risk of currency movements in the value of overseas investments held by the Fund.

Recommendation: This Fund may not be suitable for investors who plan to withdraw their money within 5 years. More information on the management of this portfolio may be obtained from the address provided in the 'Practical Information' section below.

## Risk and Reward Profile

This indicator shows how much the Fund has risen and fallen in the past, and therefore how much the Fund's returns have varied. It is a measure of the Fund's volatility.

The higher a Fund's past volatility, the higher its position on the scale and the greater the risk that investors may have experienced losses as well as gains.

The Fund has been classed as 6 because its volatility has been measured as above average to high.

This indicator is based on historical data and may not be a reliable indication of the future risk profile of the Fund.

The risk and reward profile shown is not guaranteed to remain the same and may change over time.

The lowest number on the scale does not mean that the Fund is risk-free.

The value and income from the Fund's assets may go down as well as up. This will cause the value of your investment to fall as well as rise. There is no guarantee that the Fund will achieve its objective and you may get back less than you originally invested.

- Concentration Risk: A limited number of investments may be held which has the potential to increase volatility of performance.
- Equity Risk - The Fund invests mainly in shares, and the value of these may fall or rise due to a number of factors, including the performance of the company and general stock market and exchange rate fluctuations. The value of your investment may rise or fall and you could get back less than you invest.
- Financial Techniques Impact - The Fund may use derivatives to generate additional capital or income. A movement in the value of a derivative's underlying asset may have a much larger negative impact on the value of the Fund than if the Fund were to hold the underlying investment itself.
- Sustainability Risk - The Fund may be subject to sustainability risk, meaning an environmental, social or governance ("ESG") event or condition that, if it occurs, could cause an actual or a potential material negative impact on the value of an investment.
- Attention is also drawn to risks associated with investment in the Asia Pacific region and risks associated with the Stock Connect Scheme.
- Beside the risks included in the risk indicator, other risks may affect the Fund performance. Please refer to the Company's Prospectus for further details.

For full details of the Fund's risks, please see the prospectus which may be obtained from the address in 'Practical Information' below.
