This document was produced on 12 April 2024.
You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

Type:
This product is a UCITS Fund.

Term:
The Fund, unless dissolved pursuant to any specific cause set forth in a mandatory law or in accordance with the prospectus of the Fund, is established for an unlimited duration.

Objectives:
The investment objective of the Fund is to provide long-term capital appreciation, as well as current income, while giving investors exposure to real estate companies that have achieved greenhouse gas emissions neutrality, or demonstrate consistent greenhouse gas emissions reduction, and/or set greenhouse gas emissions reductions targets aligned with maintaining global warming below 2°C.

The Fund's investments in equity securities and fixed income securities are subject to the Carbon Reduction Criteria which are applied to the issuers of such securities, based on their track record and/or forward-looking targets in respect of Scope 1, 2 or 3 greenhouse gas emissions. The Fund considers the carbon criteria met if the issuer has achieved net zero emission on Scope 1 or 2 emissions, and it either has a Scope 3 emissions reduction target or Scope 3 emissions make up less than 50% of its overall Scope 1 to 3 emissions, and/or can evidence a track record of at least two consecutive years of Scope 1 and 2 absolute emission reductions and/or has credible target to reduce Scope 1 and 2 absolute emissions (or emissions intensity), and/or has a SBTi approved Scope 1 and 2 emissions reduction target. All issuers are additionally subject to minimum ESG performance rating, and revenue-based exclusions of harmful industries.

The Fund invests at least 80% of its assets in equity securities of real estate companies. The Fund will invest in securities of issuers in at least three different countries and may invest up to 25% of its assets in companies from emerging markets.

In addition to applying the Carbon Reduction Criteria and minimum ESG performance rating, the Fund selects securities through bottom-up fundamental research to identify companies that it believes meet one or more of the following criteria: (i) attractively valued relative to other companies in the industry; (ii) strong fundamentals, including consistent cash flows or growth and a sound balance sheet; (iii) strong management teams; and (iv) an identifiable catalyst that could increase the value of the company's stock over the next one or two years.

The Fund has a sustainable investment objective and operates in accordance with Article 9 of SFDR.

The Fund is actively managed and uses the FTSE EPRA Nareit Developed Index (the "Benchmark") for performance comparison purposes. While a proportion of the Fund's assets may from time to time be components of and have similar weightings to the Benchmark, the Sub Investment Manager has discretion in the selection of investments for the Fund and may invest in securities that are not included in the Benchmark. In addition, the Benchmark employs different investment guidelines and criteria than the Fund. As a result, the holdings in the Fund may differ significantly from the assets that comprise the Benchmark and the volatility of the Benchmark presented may be materially different from that of the performance of the Fund.

The Fund may invest in financial derivative instruments ("FDI"), which are financial instruments linked to the value of underlying assets. FDI may be used for, e.g., managing the Fund's exposure to foreign currencies, reducing risk, managing the Fund more efficiently and to achieve profit. At times, the Fund may invest in cash and instruments that can be readily converted into cash.

Any income the Fund generates will be reinvested to grow the value of your investment.
You may purchase or sell shares of the Fund on days on which both the New York Stock Exchange and retail banks in Ireland are open for business, subject to certain cut-off times.

This document describes a sub-fund of the Company. The prospectus and periodic reports are prepared in respect of the entire umbrella Company. The assets and liabilities of each sub-fund of the Company are segregated by law, and so the assets and liabilities of one sub-fund cannot be used to discharge the liabilities of another sub-fund. Each investor of the Fund may apply to exchange shares in the Fund for shares in another sub-fund of the Company as set out in the Prospectus.

We are required to provide you with further documentation, such as the Fund's latest prospectus, past performance and annual and semi-annual reports. These documents and other product information are available online at www.nuveen.com/ucits.

The assets of the Fund are held in safekeeping by its depositary, Brown Brothers Harriman Trustee Services (Ireland) Limited (the "Depositary").

Intended retail investor:
The Fund may be appropriate for investors who have a long-term investment horizon. The Fund is not designed for investors who are unwilling to accept volatility, including the possibility of sharp share price fluctuations (including declines) or investors who are seeking to invest to meet short-term goals.

What are the risks and what could I get in return?

Risk Indicator

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 5 out of 7, which is a medium-high risk class. This rates the potential losses from future performance at a medium-high level and poor market conditions will likely impact the Fund's capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

For other risks materially relevant to the product which are not taken into account in the summary risk indicator or other information, please read the product's Annual Report or Prospectus available at www.nuveen.com/ucits.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of Nuveen Global Real Estate Carbon Reduction Fund over the last 10 years.

The stress scenario shows what you might get back in extreme market circumstances and it does not take into account a situation where we are not able to pay you. This product cannot be easily cashed in. This means it is difficult to estimate how much you would get back if you cash in before the end of the recommended holding period. You will either be unable to cash in early or you will have to pay high costs or make a large loss if you do so.

Recommended Holding Period: 5 years			
Investment: EUR 10,000			
Scenarios Minimum: There is no minimum guaranteed return if you exit before 5 years		If you exit after 1 year	If you exit after 5 years (recommended holding period)
Stress	What you might get back after costs Average return each year	960 EUR -90.42%	940 EUR -37.66%
Unfavourable¹	What you might get back after costs Average return each year	7,460 EUR -25.41%	8,130 EUR -4.05%
Moderate²	What you might get back after costs Average return each year	10,400 EUR 4.01%	13,590 EUR 6.32%
Favourable³	What you might get back after costs Average return each year	13,730 EUR 37.26%	16,920 EUR 11.09%

¹ This type of scenario occurred for an investment between December 2021 and January 2024.

² This type of scenario occurred for an investment between June 2014 and June 2019.

³ This type of scenario occurred for an investment between December 2016 and December 2021.

What happens if Carne Global Fund Managers (Ireland) Limited is unable to pay out?

The assets and liabilities of the Sub-fund are segregated from those of the other sub-funds and from those of the manufacturer or the depositary. If the Company is not able to pay you out what is due, you may lose your entire investment. No investor guarantee nor compensation scheme is foreseen in that eventuality.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed, in the first year you would get back the amount that you invested (0 % annual return). For the other holding period, we have assumed the fund performs as shown in the moderate scenario.

Investment: EUR 10,000	If you exit after 1 year	If you exit after 5 years
Total costs	110 EUR	710 EUR
Annual cost impact (*)	1.1%	1.1%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 7.5% before costs and 6.3% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee.	0 EUR
Exit costs	2.0% - These costs only apply if you redeem your holding within 30 days of investment.	0 EUR
Ongoing costs taken each year		If you exit after 1 year
Management fees and other administrative or operating costs	1.1% of the value of your investment per year. This is based on actual costs over the last year.	110 EUR
Transaction costs	0.0% of the value of your investment per year. This is an estimate of the costs of us buying and selling underlying investments for the product. The actual amount may vary depending on how much we buy and sell.	0 EUR
Incidental costs taken under specific conditions		If you exit after 1 year
Performance fees	This product does not have any performance fees or carried interests.	0 EUR

How long should I hold it and can I take money out early?

Recommended holding period: 5 years.

This product has no required minimum holding period but is designed for long term investment; you should be prepared to stay invested for at least 5 years. You can request to take out some or all of your money at any time. You can typically request to buy or sell shares in the sub-fund on any business day (as set out in the Fund's prospectus).

How can I complain?

If you wish to make a complaint, please contact us at:
Carne Global Fund Managers (Ireland) Limited, 3rd Floor, 55 Charlemont Place, Dublin 2, Ireland
Email: complaints@carnegroup.com
Phone: +353 1 4896 800 or <https://www.carnegroup.com/policies/>.

We will deal with complaints in a timely manner and will provide a written response as soon as practicable and in any event no later than one month from the date of the receipt of the original complaint.

Other relevant information
