Satrix World Equity Tracker Fund – Class A

A sub-fund of Sanlam Universal Funds plc (the “Company”)
 Managed by Sanlam Asset Management (Ireland) Limited

ISIN: IE00B4TZJC80

Objectives and Investment Policy

Objectives

The investment objective of the Satrix World Equity Tracker Fund (the Fund) is to increase the value of your shares. The Fund will attempt to follow the performance of the MSCI World Index USD (the Index) through direct or indirect investment in the same or similar investments as the Index. The Index measures the equity market performance in 24 developed countries.

Investment policy

The Fund may invest directly through the purchase of a representative basket of shares and stock included in the Index or indirectly through investment in exchange traded funds (ETF) and collective investment schemes (CIS). The Fund may invest globally in shares and stocks of real estate companies, real estate related companies and real estate investment trusts (REITS).

The Fund is passively managed and operates an index tracking strategy whereby it seeks to replicate the performance of the Index through investment directly in assets that are Index constituents, although not necessarily holding all of the

constituents (i.e. on an optimisation basis). Accordingly, investment in the Fund should not be considered to provide a direct exposure to the Index.

Further information on sustainability factors that may be relevant to this Fund can be found in the prospectus or on our website at www.sanlam.ie

You can buy or sell your shares in the Fund any day (except Saturday or Sunday) that banks are open in Dublin.

It is not the intention of the Company to declare a dividend and therefore your shares do not pay you an income.

Recommendation: The Fund is suitable for investors with a time horizon of 5 years.

Risk and Reward Profile

Why is this Fund in category 6?

The Fund is rated 6 due to its exposure to shares and stocks, and the nature of its investments which include the risks listed below. These factors may impact the value of the Fund's investments or expose the Fund to losses.

It may be difficult for the Fund in extreme market condition to redeem its shares from ETF and CIS at short notice without suffering a loss.

Investing in ETF and CIS may lead to payment by the Fund of additional fees and expenses in relation to those exchange traded funds.

Investing in international companies means that currency exchange rate fluctuations will have an impact on the Fund.

The price of shares and the income from them may fall as well as rise and investors may not get back the amount they have invested. The ability to trade REITS may be more limited than other stocks.

What do these numbers mean?

They rate how a fund might behave and how much risk there is to your capital. Generally, the chance to make large gains means a risk of suffering large losses.

A **Category 1** fund is not a risk-free investment - the risk of losing your money is small, but the chance of making gains is also limited. With a **Category 7** fund, the risk of losing your money is high but there is also a chance of making higher gains. The seven-category scale is complex (for example, 2 is not twice as risky as 1).

More about this rating:

This rating system is based on the average fluctuations of the prices of funds over the past 5 years - that is, by how much the value of their assets taken together has moved up and down. Historical data, such as is used in calculating the synthetic risk indicator, may not be a reliable indication of the future risk profile of the Fund.

For a more detailed explanation of risks, please refer to the "Risk Factors" section of the prospectus.

Charges

These charges are used to pay the costs of running the Fund, including the costs of marketing and selling. Overall, they reduce the growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
Switching charge	2.00%
This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.	
Charges taken from the Fund over a year	
Ongoing charge	0.58%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are the maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

The ongoing charge is based on the expenses for the previous 12 month period ending December 2024. This figure, which excludes portfolio transaction costs, may vary from year to year.

You can find out more details about the charges by looking at the "Charges and Expenses" section of the prospectus.

Past Performance

Past performance is not a reliable indicator of future performance.

The past performance takes account of all charges and costs, excluding entry and exit charges.

The performance of this class is calculated in US Dollars.

The Fund launched on 17 April 2004. This class started to issue shares on 17 August 2004.

There were no shareholders in the class from 16 December 2006 to 07 December 2011.
