

Purpose This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product Class I Accumulation shares hedged in sterling | ISIN: LU1303224098

Global Franchise Fund

A sub-fund of the Ninety One Global Strategy Fund ('GSF'), a UCITS managed by Ninety One Luxembourg S.A. (a member of the Ninety One group) both of which are authorised in Luxembourg and supervised by the Commission de Surveillance du Secteur Financier (CSSF). The CSSF is responsible for supervising Ninety One Luxembourg S.A in its capacity as the PRIIP manufacturer in relation to this Key Information Document.

Contact details: www.ninetyone.com | +44 (0) 203 938 1800. Published on 28 March 2025.

What is this product?

Type A class of shares of a sub-fund of GSF which is a Société d'Investissement à Capital Variable (SICAV) under the laws of Luxembourg.

Term Open-ended. Ninety One Luxembourg S.A. cannot terminate the share class, sub-fund or GSF unilaterally but the GSF directors may subject to closure processes set out in the prospectus.

Objectives To grow the value of your investment with the opportunity for income over the long term.

Investment policy Invests primarily in the shares of companies around the world. The Fund may invest in other assets and may hold cash.

Strategy Focuses investment on companies deemed by the Investment Manager to be of high quality, typically those associated with global brands or franchises.

Sustainability approach – Article 8 SFDR The Fund promotes environmental and social characteristics in line with Article 8 of the EU Sustainable Finance Disclosure Regulation (SFDR) by promoting better carbon outcomes (i.e. maintaining a carbon profile lower than the Fund's benchmark) by making investments in companies that meet the standards of the Investment Manager's proprietary sustainability assessments and by excluding investments in certain sectors or business areas (deemed incompatible with a net zero future).

Derivatives and techniques Derivatives may be used to manage the Fund's risks or reduce the costs of managing the Fund. The Investment Manager uses a currency hedging strategy that aims to align returns in this currency share class with those achieved in the currency that the Fund's investments are valued in.

Benchmark(s) The Fund is actively managed. The Investment Manager is free to select investments with the aim of achieving the Fund's objectives. The MSCI AC World Net Return Index is used for performance comparison. The Fund does not seek to replicate the index. It will generally hold assets that are components of the index, but not in the same proportions, and it is allowed to hold assets which are not components of the index. The assets of the Fund therefore may be very different from the index.

Practical details The Fund's returns depend on the performance of its underlying investments and it does not provide protection against investment losses caused by financial market fluctuations. Any income due from your investment is reflected in the value of your shares. English, French and German language copies of the GSF prospectus, annual and semi-annual reports and share prices may be obtained free of charge from www.ninetyone.com.

GSF's Depositary is State Street Bank International GmbH, Luxembourg Branch. The assets and liabilities of the Fund are segregated under Luxembourg law and an investment in the Fund cannot be used to meet the debts or, claim against, any other person, including any other GSF sub-fund. You may switch between GSF funds or share classes of the same fund; details are in the 'Conversion of Shares' section of the prospectus. For an explanation of the different types of share classes that we offer (including hedged share classes), please refer to www.ninetyone.com/shareclass-explanation-guide.

Glossary of terms

Derivatives Financial contracts whose value is linked to the price of an underlying asset.

High Quality A company which has generated consistently high levels of return on invested capital and free cash flow (a company's cash earnings after its capital expenditures have been accounted for).

SFDR The Sustainable Finance Disclosure Regulation seeks to strengthen and standardise disclosures on the Environmental, Social and Governance ('ESG') characteristics of EU financial products.

Intended retail investor:

The Fund has been designed to form part of a broader portfolio of investments and can be purchased with advice or on an execution only basis by a basic investor. This share class of the Fund is only available to an investor that qualifies as an 'institutional investor' under Luxembourg administrative practice and can be purchased with advice, on an execution only basis or when providing portfolio management services. Investors must be able to bear loss of capital in order to seek to generate higher potential returns and should be prepared to remain invested for at least 5 years.

What are the risks and what could I get in return?

Risk indicator

Lower risk

Higher risk

The risk indicator assumes you keep this product for at least 5 years. The actual risk can vary significantly if you sell at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could reduce the value of your investment.

Be aware of currency risk. You may receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

This product does not include any protection from future market performance so you could lose some or all of your investment. A complete description of risks can be found in the 'risk factors' section of the prospectus.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of a relevant benchmark or proxy over the last 10 years. Markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

Recommended Holding Period: 5 years

Example investment: GBP 10,000

Scenarios		If you exit after 1 year	If you exit after 5 years
Stress	What you might get back after costs (GBP)	1,480	3,120
	Average return each year (%)	-85.19	-20.79
Unfavourable ¹	What you might get back after costs (GBP)	7,790	10,330
	Average return each year (%)	-22.06	0.65
Moderate ²	What you might get back after costs (GBP)	10,950	14,410
	Average return each year (%)	9.50	7.58
Favourable ³	What you might get back after costs (GBP)	13,500	19,840
	Average return each year (%)	35.05	14.68

¹ This type of scenario occurred for an investment between December 2021 and January 2025.

² This type of scenario occurred for an investment between October 2015 and October 2020.

³ This type of scenario occurred for an investment between December 2016 and December 2021.

What happens if Ninety One Luxembourg S.A. is unable to pay out?

For your protection the Fund's assets are held with an independent depositary, so the Fund's ability to pay out would not be affected by the insolvency of Ninety One Luxembourg S.A. You are not covered by the Luxembourg compensation scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold your investment and how the fund performs. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed, in the first year you would get back the amount that you invested (0 % annual return). For the other holding period, we have assumed the fund performs as shown in the moderate scenario.

GBP 10,000 investment

If you exit after:	1 year	5 years ¹
Total costs (GBP)	112	762
Annual cost impact (%) ²	1.1%	1.2%

1. Recommended holding period.

2. This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 8.7% before costs and 7.6% after costs. **We may share part of the costs with the person selling you the product to cover the services they provide to you.**

Composition of costs

GBP 10,000 investment

		If you exit after 1 year (GBP)
One-off costs upon entry or exit		
Entry costs	The initial charge is typically waived. However, if applied, a charge of up to 5.00% of the invested amount may be made for the purposes of meeting distribution costs.	N/A
Exit costs	We do not charge an exit fee for this product.	N/A
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.0% of the value of your investment per year. This is an estimate based on the actual cost of managing the fund over the last year.	99
Transaction costs	0.1% of the value of your investment per year. This is an estimate of the costs of buying and selling investments the fund owns.	13
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	

How long should I hold it and can I take money out early?

Recommended holding period We recommend that you hold this investment for at least 5 years as the Fund is designed to be held over the long term.

Selling your investment You can request to take out some or all of your money at any time. You can typically request to buy or sell shares in the sub-fund on any business day (as set out in the Fund's prospectus).

If you sell before the end of the recommended holding period, this will increase the risk of lower investment returns or a loss.

How can I complain?

You can contact us by post, email or telephone using the contact details below including a brief description of the issue.

Address for complaints

Ninety One Guernsey Limited c/o CACEIS Bank, Luxembourg Branch, 14, Porte de France, L-4360 Esch-sur-Alzette, Luxembourg

Email: enquiries@ninetyone.com | Tel: +44 (0)203 938 1800
