

TRUST FACTSHEET

Covering the month of
March 2025

EDINBURGH INVESTMENT TRUST

The Trust, which was established in 1889, aims to invest primarily in UK securities with the long-term objectives of achieving an increase of the Net Asset Value per share in excess of the growth in the FTSE All-Share Index and growth in dividends per share in excess of the rate of UK inflation. The Liontrust Portfolio Managers construct a high-conviction portfolio of 40 to 50 holdings based on fundamental company research. The team's flexible investment process delivers a differentiated, diversified portfolio of listed equities.

Imran Sattar
Portfolio Manager

Emily Barnard
Deputy Portfolio Manager

Our regulator – the Financial Services Authority (FCA) – has removed the requirement to show the historical cost disclosure on the KID (Key Information Document) for investment trusts, including Edinburgh Investment Trust. In line with general market practice, we will not be showing a cost in the KID for this Trust from 1 February 2025. The factsheet will continue to show the Ongoing Charges Ratio for the Trust. For further information on costs, please visit the webpage below.

GLOSSARY

Gross Gearing: This reflects the amount of gross borrowings in use by a company and takes no account of any cash balances. It is based on gross borrowings as a percentage of net assets. Borrowings are at fair value.

Historic dividend per share: Dividends that have gone ex-dividend over the last 12 months (exclusive of special dividends).

Historic share price yield: Historic dividend per share divided by the share price (exclusive of special dividends).

Net Gearing: Net gearing reflects the amount of net borrowings

invested, i.e. borrowings less cash and cash equivalents (including investments in money market funds). It is based on net borrowings as a percentage of net assets. Borrowings are at fair value.

Ongoing Charges Ratio (OCR): This is an estimate of the ongoing administrative and investment management costs of operating the Company, expressed as a percentage of net asset value (debt at market value). The calculation incorporates charges allocated to capital in the financial statements as well as those allocated to revenue, but excludes non-recurring costs, transaction costs of investments, finance costs, taxation, and the costs of buying back or issuing shares.

Key risks: Past performance does not predict future returns. You may get back less than you originally invested.

We recommend the Edinburgh Investment Trust is held long term (minimum period of 5 years). We recommend that you hold the Edinburgh Investment Trust as part of a diversified portfolio of investments. The Net Asset value (NAV) return of the Edinburgh Investment Trust corresponds directly to the performance of the securities in which it invests and the income from them. The share price, which will determine the return to the investor, will also be affected by supply and demand. Consequently, the return to the investor may be higher or lower than the underlying NAV return. The Edinburgh Investment Trust can borrow money to invest in the stock market within prescribed limits, with the aim of enhancing returns. The use of borrowings may increase the volatility of the NAV and may reduce returns when asset values fall. The Edinburgh Investment Trust may invest in smaller companies which may result in a higher level of risk than a product that invests in larger companies. Securities of smaller companies may be subject to abrupt price movements and may be less liquid, which may mean they are not easy to buy or sell. The Edinburgh Investment Trust may use derivatives for efficient portfolio management which may result in increased volatility in the NAV.

Disclaimer: This document provides information about the Edinburgh Investment Trust ('the Company') and Liontrust Fund Partners LLP ('the Manager'). Liontrust Investment Partners LLP (2 Savoy Court, London WC2R 0EZ) is authorised and regulated in the UK by the Financial Conduct Authority (FRN 518552) to undertake regulated investment business. This document does not constitute or form part of, and should not be construed as, an invitation to buy or sell units/shares and neither this document nor anything contained or referred to in it shall form the basis of, or be relied on in connection with, any offer or commitment whatsoever. The value of shares and the income generated from them can fall as well as rise and are not guaranteed; investors may not get back the amount originally subscribed. Investments should always be considered as long term. Investors should not purchase shares in the Company except on the basis of information contained in the Company's Articles of Association. We recommend that investors who are not professional investors should contact their professional adviser. The Company's Articles of Association and Key Information Document (KID) are available from www.edinburgh-investment-trust.co.uk or direct from Liontrust.
