## What is this product?

### Type:

- This product is a UCITS Fund.
- The Company has appointed The Bank of New York Mellon SA/NV, Dublin Branch, to act as the depositary of the Company's assets pursuant to the Depositary Agreement

### Term:

- This investment has no fixed maturity date.
- The Fund may be terminated at any time in line with the constitutional documents of the plc.

### Objectives:

- The Fund aims to maximise total returns over the long term through a combination of income and capital appreciation. There is no guarantee that a total return will be generated over any time period. The Fund invests in global corporate and government bonds from investment grade to high yield, with at least 80% of the Fund's assets allocated to developed markets. The Fund may also invest in other eligible asset classes as detailed within the prospectus. The Fund considers environmental or social characteristics, but does not have a sustainable investment objective. The Fund will invest in derivatives but it is not intended that their use will materially affect volatility. Derivatives are used to protect against currencies, credit and interest rate moves or for investment purposes. The use of derivatives may create leverage or gearing resulting in potentially greater volatility or fluctuations in the net

asset value of the Fund. A relatively small movement in the value of a derivative's underlying investment may have a larger impact, positive or negative, on the value of a fund than if the underlying investment was held instead. The Fund is actively managed in reference to the ICE BofA 1-3 Year Global Corporate Index (USD Hedged) (the "Benchmark") because it uses the Benchmark for performance comparison purposes. The Benchmark is not used to define the portfolio composition of the Fund and the Fund may be wholly invested in securities which are not constituents of the Benchmark.

- The process is designed to take advantage of inefficiencies in fixed income markets through a thorough understanding of the economic environment and detailed bottom up stock analysis. The process uses the same framework to garner a thorough understanding of the economic environment and for bottom up stock analysis: fundamentals, valuations and technicals (FVT).
- **Dealing Frequency:** Shares in the Fund can be bought and sold, either in whole or in part, every business day. An application must be submitted to the administrator, BNY Mellon Fund Services (Ireland) LIMITED, by 11:59 am on the business day of the purchase or sale.

### Intended retail investor:

- The Fund is considered to be suitable for investors seeking to maximise total return over a long term investment horizon (at least 5 years) and who are prepared to accept a low level of volatility. The Fund's potential use of derivatives may lead to a higher risk in the management of its assets.

## What are the risks and what could I get in return?

### Risk Indicator

- The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.
- We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the ability for you to receive a positive return on your investment.

- Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.
- Please note that even the lowest risk class can lose you money and that extreme adverse market circumstances can mean you suffer severe losses in all cases. The summary risk indicator only reflects the market risk and credit risk of the product. Other risks materially relevant to the product which are not taken into account in the summary risk indicator are: leverage, derivatives, liquidity, Index, market cap, style, diversification, ESG, hedging, counterparty, currency, portfolio concentration, emerging markets risk and the possibility of sanctions, where applicable. This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment. For full details of the Company's risks, please see the prospectus which may be obtained from Liontrust (address below) or online at [www.liontrust.com](http://www.liontrust.com).

### Performance scenarios

- The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your adviser or distributor.
- The figures do not take into account your personal tax situation, which may also affect how much you get back.
- What you will get from this product depends on future market performance.
- Market developments in the future are uncertain and cannot be accurately predicted.
- The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the ICE BofA 1-3 Year Global Corporate Index (GBP Hedged) benchmark or proxy over the last 10 years.
- Markets could develop very differently in the future.
- The stress scenario shows what you might get back in extreme market circumstances.

### What happens if FundRock Management Company (Ireland) Limited is unable to pay out?

- For the protection of investors the Fund's assets are held by an independent depositary, so the Fund's ability to pay out would not be affected by the insolvency of FundRock Management Company (Ireland) Limited. If the Fund is terminated or wound up, the assets will be liquidated, and you will receive an appropriate share of any proceeds but you may lose part or all of your investment. There is no compensation scheme protecting you from this scenario.
- The Company has appointed The Bank of New York Mellon SA/NV, Dublin Branch, to act as the depositary of the Company's assets pursuant to the Depositary Agreement.
- For further information on the depositary and the sub-fund structure, please refer to the Liontrust Global Funds plc Prospectus which can be found at: <https://www.liontrust.com/>.

### What are the costs?

- The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

## Costs over time

- The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.
- We have assumed, in the first year you would get back the amount that you invested (0 % annual return). For the other holding period, we have assumed the fund performs as shown in the moderate scenario and the investment is GBP 10,000.

Investment: GBP 10,000	If you exit after 1 year	If you exit after 5 years
<b>Total costs</b>	40 GBP	212 GBP
<b>Annual cost impact (*)</b>	0.40%	0.40%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 1.93% before costs and 1.53% after costs.

## Composition of costs

Ongoing costs taken each year		If you exit after 1 year
<b>Management fees and other administrative or operating costs</b>	0.37% of the value of your investment per year	37 GBP
<b>Transaction costs</b>	0.03% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	3 GBP
Incidental costs taken under specific conditions		If you exit after 1 year
<b>Performance fees</b>	This product does not have any performance fees.	0 GBP

## How long should I hold it and can I take money out early?

- Recommended holding period: 5 years**
- The Fund has daily liquidity. The recommended holding period of the Fund assumes the Fund being the sole or majority holding of the investor. The recommended holding period is primarily based on the historic volatility of the underlying investments and is not directly applicable if used in a portfolio based on the investor's risk profile. The fund is not intended for short term speculation purposes. In order to divest/redeem from the Fund you can send a completed signed redemption form by 11:59am (Irish time) on a daily basis (but not weekends or Bank Holidays).
- Please refer to the Supplement for further information on Minimum Redemption amounts as they may be applicable.
