Catalyst Global Real Estate UCITS Fund a Sub-Fund of MLC Global Multi Strategy UCITS Funds Plc Class I USD (IE00BMC3H439)

Objectives and Investment Policy

The Fund aims to create positive income and capital returns over the medium to long term. The Fund will be actively managed and will seek to pursue this objective by investing at least 75% of its net asset value ("NAV") in global listed equities of issuers operating in the Real Estate Sector. The remainder of the Fund (25%) may be invested in the following way:

0 - 25% - up to 25% of the Fund's NAV may be invested in cash or global listed bonds of corporate, sovereign or public institutions operating in the Real Estate Sector, 90% of which must be Investment Grade and may be fixed and/or floating rate; and

0 - 10% - up to 10% of the Fund's NAV may be invested in open-ended collective investment schemes ("CIS") including UCITS (provided such open-ended CIS are prohibited from investing more than 10% of net assets in other open-ended CIS).

The Fund will be diversified across countries, markets, currencies and industries within the real estate sector. The Fund will seek to invest in undervalued issuers and assets with attractive risk/reward profiles.

The Fund may use the following derivatives ("FDIs") for the purposes of hedging and efficient portfolio management: equity and bond options, swaps, forward contracts and futures; interest rate options, swaps and futures; and currency options, swaps and forward contracts.

The Fund measures its performance relative to a benchmark index (the FTSE EPRA/NAREIT Developed Rental Index Net Total Return) for reference or investor communication purposes, including in the Company's annual and half-yearly reports. However the performance of the Fund relative to the benchmark index is not factored in any

way into the investment process and the Fund does not operate any form of target to outperform the benchmark index.

For full investment objectives and policy details, please refer to the section entitled "Investment Objectives and Policies" of the Prospectus.

Further information on sustainability factors that may be relevant to this Fund can be found in the prospectus or on our website at www.sanlam.ie

You can sell your shares any day that banks are open in Ireland. You must submit your application to the Fund's Administrator before 1.00 p.m. one business day before the day you want to sell. Your shares do not pay you income, but instead the Fund reinvests it to grow your capital.

Recommendation: This Fund may not be appropriate for investors who plan to remove their money within 3 years.

Risk and Reward Profile

The Fund is in category 6 as it invests in securities that can vary significantly in price from day to day due to a variety of factors. Therefore the chance to make large gains means the risk of suffering large losses.

A category 1 fund is not a risk-free investment - the risk of losing your money is small, but the chance of making gains is also limited. With a category 7 fund, the risk of losing your money is high but there is also a chance of making higher gains.

The seven-category scale is complex. For example, a category 2 fund is not twice as risky as a category 1 fund. The category is based upon the annual calculation of the Fund's risk calculation relevant to the nature of the types of instruments the Fund invests in. The risk category shown is not guaranteed and may change over time.

The value of the shares may fall and you may not get back the amount you invested.

The value of the shares will be affected by the deduction of fees and expenses.

Market Risk: The value of the shares may move down in response to stock market conditions, changes in the economy or changes in a particular company's stock price. An individual stock may decline in value even when the value of stocks in general is rising.

Investment in real estate: The performance of the Fund is dependant on the performance of the real estate sector, should the sector take a downturn this may be reflected in the price of the shares of the Fund.

Political and/or Regulatory Risks: The value of the Sub-Fund's assets may be affected by uncertainties such as international political developments, changes in government policies, changes in taxation, restrictions on foreign investment and currency repatriation, currency fluctuations and other developments in the laws and regulations of countries in which investment may be made.

Counterparty Risk: A counterparty may fail in paying proceeds of sale of assets to the Fund and / or may fail in delivering securities purchased to the Fund. In addition, the insolvency of any institution providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments may expose the Sub-Fund to financial loss.

When categorizing the Fund it may happen that not all material risks were fully captured in the methodology. For a more detailed explanation of risks, please refer to the "Investment Risks" section of the Prospectus.
