This document was produced on 18 February 2025.

What is this product?

Type:

This product is a UCITS Fund.

Term:

Open Ended Fund.

Objectives:

The objective of the Sub-Fund is to provide long-term capital appreciation.

To achieve this objective, the Sub-Fund invests (except when maintaining a temporary defensive position) at least 80% of its net assets in global debt securities of varying maturities that are issued by corporations and governments and in derivative instruments that provide investment exposure to such securities.

The types of debt securities in which the Sub-Fund may invest include notably: debt securities issued or guaranteed by national governments (their agencies, instrumentalities and political subdivisions), STRIPS (Separate Trading of Registered Interest and Principal of Securities), bonds; debt securities of supranational organizations, corporate debt securities, convertible bonds (which may embed a derivative instrument); mortgage-backed and assetbacked securities that are structured as debt securities, securitised participations in loans that are transferable securities, Eurodollar bonds and Yankee dollar instruments

(including senior and subordinated notes).

The Sub-Fund may invest up to 20% of its net assets in preferred stock and common stock of companies globally (and across all industry sectors).

The Sub-Fund is actively managed and does not aim to track or benchmark its performance against any index. An actively managed fund is a fund in which the investment manager makes decisions about how to invest the fund's capital. The Bloomberg US 1-3 Month T-Bill Index is used for comparison purposes only and it is not used for tracking or super performing purposes and not used to determine the composition of the fund.

Sustainable Investment Approach: This is an ESG Promotion Sub-Fund. This Sub-Fund promotes and integrates ESG risks factors and sustainable investments in its investment strategy within the meaning of Article 8 of the SFDR. Information related to environmental or social characteristics is available in the Appendix V – Sustainability Disclosure of the Prospectus and in the SFDR RTS Annex relevant to the Sub-Fund www.tcw.com/en/Literature/Prospectus.

Intended retail investor:

This product is intended for investors who are prepared to take on a relatively moderate level of risk of loss to their original capital in order to get a higher potential return, and who plan to stay invested for at least 5 years. It is designed to form part of a portfolio of investments.

What are the risks and what could I get in return?

Risk Indicator

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level and poor market conditions are very unlikely to impact the value of your investment. This ranking is typically used to indicate a level of risk that is greater than other Sub-Funds that invest in assets such as bonds issued by organizations with high credit quality domiciled in developed markets, but less than Sub-Funds that invest in assets such as equity.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

For other risks materially relevant to the product which are not taken into account in the summary risk indicator, please read the product's Annual Report or Prospectus available at www.tcw.com.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor / and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of TCW Income Fund over the last 10 years.

The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period: 5 years			
Investment: CHF 10,000			
Scenarios		If you exit after 1 year	If you exit after 5 years
Minimum: There is no minimum guaranteed return			
Stress	What you might get back after costs	7,220 CHF	7,330 CHF
	Average return each year	-27.80%	-6.02%
Unfavourable ¹	What you might get back after costs	8,300 CHF	8,700 CHF
	Average return each year	-17.04%	-2.75%
Moderate ²	What you might get back after costs	10,060 CHF	9,820 CHF
	Average return each year	0.62%	-0.37%
Favourable ³	What you might get back after costs	10,960 CHF	11,130 CHF
	Average return each year	9.65%	2.16%

¹ This type of scenario occurred for an investment between July 2021 and December 2024.

² This type of scenario occurred for an investment between July 2017 and July 2022.

³ This type of scenario occurred for an investment between July 2016 and July 2021.

What happens if Carne Global Fund Managers (Luxembourg) S.A. is unable to pay out?

You may face a financial loss should the manufacturer or depositary/custodian, Société Générale Luxembourg, default on their obligations.

There is no compensation or guarantee scheme in place which may offset, all or any of, this loss.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed, in the first year you would get back the amount that you invested (0% annual return). For the other holding period, we have assumed the fund performs as shown in the moderate scenario.

Investment: CHF 10,000	If you exit after 1 year	If you exit after 5 years
Total costs	179 CHF	848 CHF
Annual cost impact (*)	1.8%	1.8%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 1.4% before costs and -0.4% after costs.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	This includes distribution costs of 0.0%. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	0 CHF
Exit costs	We do not charge an exit fee for this product.	0 CHF
Ongoing costs taken each year		If you exit after 1 year
Management fees and other administrative or operating costs	1.7% of the value of your investment per year.	171 CHF
Transaction costs	0.1% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	8 CHF
Incidental costs taken under specific conditions		If you exit after 1 year
Performance fees	There is no performance fee for this product.	0 CHF

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

This product has no required minimum holding period but is designed for medium to long term investment; you should be prepared to stay invested for at least 5 years. You may sell your shares in the product, without penalty, on any day on which both the banks in Luxembourg and the New York Stock Exchange are normally open for business.

How can I complain?

If you have any complaints about the product, the conduct of the manufacturer or the person advising on the product, complaints can be lodged via the following methods:

- I. Phone: +352 26 73 23 54
- II. E-mail: rm@carnegroup.com
- III. Mail: 3, rue Jean Piret, L-2350 Luxembourg
- IV. Online: <https://funds.carnegroup.com>
