

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

FountainCap Greater China Select UCITS (the "Fund"), a Sub-fund of Aravis Funds (Ireland) ICAV (the "ICAV")

Class FC GBP Distribution, ISIN: IE000HSCWGH7

The Fund is managed by Carne Global Fund Managers (Ireland) Limited (the "Manager")

Objectives and Investment Policy

Investment Objective

The Fund's investment objective is to generate long term capital growth by investing in high quality companies that are traded on regulated markets in the People's Republic of China, Hong Kong and Taiwan ("Greater China").

Investment Policy

In order to achieve its investment objective, the Fund will invest primarily in shares of companies that are located in Greater China. The Investment Manager will focus on companies that are expected to benefit from the growth and transformation of the economy of China into a more consumption-driven and service-oriented market economy. The Investment Manager will seek to invest in megatrends arising from such transformation including but not limited to technology innovation, clean environment, and middle-class-led consumption boom.

The aggregate exposure to onshore and offshore Chinese equities may be 100% of the Fund's total Net Asset Value ("NAV"). The Fund's investment is not limited to a particular range of market capitalisations or to any industry or sectoral allocation. The Fund will typically hold no fewer than 35 stocks at any one time.

The Fund does not intend to invest in financial derivative investments ("FDIs") as a direct investment or for the purposes of efficient portfolio management and will not enter into any stock lending, repurchase, reverse repurchase or total return swaps. The Fund will enter into forward foreign exchange contracts for hedging purposes only. Share Classes entering into currency hedging may incur transaction costs. Any costs and gains or losses will accrue solely to the relevant share class.

Under the Central Bank Regulations, the Fund will apply for a derogation (exemption) from some of the investment restrictions for six months from the date of approval of the Fund in accordance with the UCITS

For more information about the investment policy and strategy of the Fund, please refer to the sections entitled "Investment Objective, Investment Policy and Investment Strategy" of the Fund's Supplement.

Regulations but will observe the principle of risk-spreading.

The Fund is actively managed in reference to MSCI China All Shares Net Total Return Index [Ticker: MXCNANM] (the "Benchmark"). Performance of the Fund is measured against the Benchmark for comparative purposes only. The Benchmark is intended solely for the purposes of calculating the Performance Fee; meaning that while the Fund measures performance against the Benchmark, it does not target any particular level of outperformance of the Benchmark as an objective. Securities selection is not constrained by the Benchmark.

The investment manager will also integrate environmental, social and governance ("ESG") factors in accordance with its ESG strategy in order to promote characteristics including sound corporate governance and strong disclosures on sustainability and impact.

The base currency of the Fund is USD.

Distribution Policy

For accumulating share classes, income will be automatically reinvested in the Fund and reflected in the NAV per share. For distributing share classes, income will be paid in the form of a dividend.

Dealing Frequency

You can buy and redeem shares on each Business Day, meaning every day on which banks in Ireland and the U.S. are open for normal business or such other day(s) as the Directors may determine and notify shareholders in advance.

Recommendation

The Fund is suitable for investors who require a medium-term Investment portfolio who are willing to accept a medium to high level of risk.

The indicator above is based on historical data and may not be a reliable indication of the future risk profile of the Fund. The risk category shown is not guaranteed and may change over time. The lowest category does not mean a risk-free investment.

This Fund is in risk category 6 due to the historic performance of a fund with a similar investment policy.

This indicator above is based on historical data and may not be a reliable indication of the future risk profile of the Fund. The risk category shown is not guaranteed and may change over time. The lowest category does not mean a risk-free investment.

The Fund may be subject to risks which are not included in the calculation of the risk-reward indicator.

Key risk factors:

Market Risk: A risk that the market will go down in value with the possibility that such changes will be sharp and unpredictable.

Geographical Risk: The Fund may invest primarily in Greater China, which means that it may be more sensitive to local economic, market, political or regulatory events in Greater China, and may be more affected by these events than other funds that invest in a broader range of regions.

Emerging Market Risk: Investment in emerging markets and People Republic of China may expose the Fund to more social, political, regulatory, and currency risks than securities in other markets. The fiduciary duties of issuers and the levels of investor protection imposed by regulators is generally less comprehensive in emerging market countries than in developed markets.

Operational Risk (including safekeeping of assets): The Fund and its assets may experience material losses as a result of technology/system failures, insolvency of service providers cybersecurity breaches, human error, policy breaches and/or incorrect valuation of units.

Liquidity Risk: The Fund may invest in securities which may, due to negative market conditions, become difficult to sell or may need to be sold at an unfavourable price. This may affect the overall value of the Fund.

Equities Risk: The Fund may invest in equity securities which are subject to greater fluctuations than other assets. The Fund invests in shares of companies, and the value of these shares can be negatively affected by changes in the company, its industry or the economy in which it operates.

Concentration Risk: The Fund may invest in fewer companies than other funds which invest in shares usually do. Where this is the case, it means that the Fund does not spread its risk as widely as other funds and will therefore be affected more if an individual company has significant losses.

Currency Risk: Changes in the exchange rate between the base currency and such denominated currency of a currency share class may lead to a depreciation of the value of such shares as expressed in the denominated currency. Fluctuations in the exchange rate between the currency(ies) of a fund's underlying assets and the currency of a share class may lead to currency risk for the holders of shares in the relevant class. Shareholders of hedged share classes should be aware that they may be substantially limited from benefiting if the denominated currency falls against the base currency and/or the currency/currencies in which the assets of the Fund are denominated.

Attention is drawn to the risk that the value of the principal invested in the Fund may fluctuate.

For more information on risks, please see the section entitled "Risk Factors" in the Prospectus of the ICAV and Supplement for the Fund.

Charges

The charges you pay are used to pay for the costs of running the fund, which include the marketing and distributing costs. These charges reduce the potential growth of your investment.

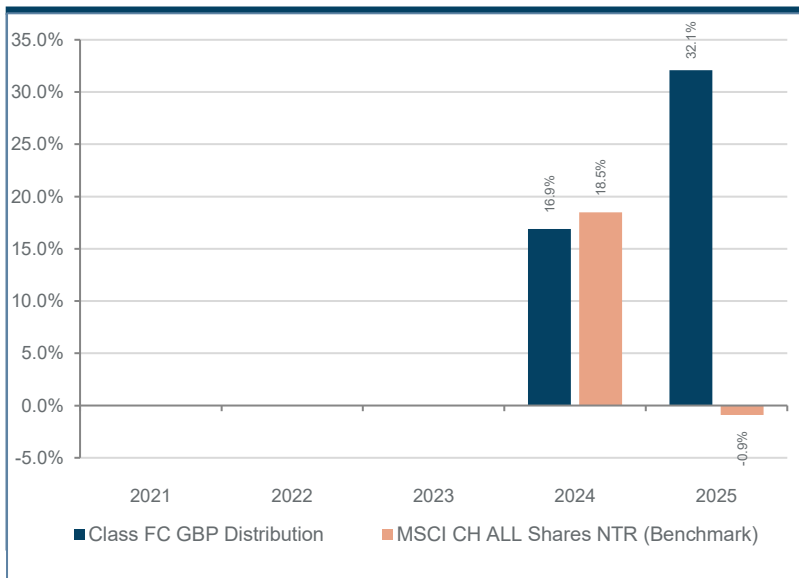

One-off charges taken before or after you invest	
Entry charge	3.00%
Exit charge	None
This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charges	0.90%
Charges taken from the fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum figures. In some cases, you might pay less - for further details please speak to your financial advisor.

The ongoing charges figure is based on expenses for the year ending December 2025. The Fund's annual report for each financial year will include details on the exact charges made. The ongoing charge figure may vary from year to year and excludes performance fees and portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective investment undertaking.

Please refer to the "Fees and Expenses" section of the ICAV's Prospectus and Supplement to the Prospectus for further detail on charges and relevant definitions, including detail of the incentive fee calculation and definition of "High Water Mark".

Past Performance

The fund was launched in July 2021.

The Fund does not track the Benchmark, it is used for comparative purposes only.

Past performance is not a guarantee of future performance. In general, past performance takes into account of all ongoing charges, but not any entry, exit or switching charge. Past performance shall be calculated in British Pounds. **The value of your investment may go down as well as up and you may not get back the amount you originally invested.**
