This document was produced on 18 February 2025.

### What is this product?

#### Type:

This product is a UCITS Fund.

#### Term:

Open Ended Fund.

#### Objectives:

The objective of the Sub-Fund is to seek the combination of long-term capital growth and income irrespective of general investment market conditions.

To achieve this objective, the Sub-Fund utilizes a flexible investment approach that allocates at least 80% of its investments across a wide range of global investment opportunities including equity, fixed income securities, and Alternative Asset Classes (up to 20% of the total net assets), and in derivatives or open-ended investment funds (including other TCW Funds) and Exchange Traded Funds that provide investment exposure to such securities.

Fixed-income securities include various types of bonds and other securities, typically corporate bonds, notes, collateralised bond obligations, collateralised debt obligations, mortgage-related and assetbacked securities, money-market securities, swaps, futures, municipal securities, options, credit default swaps, private placements (subject to the 10% limitation defined in Article 41.2 of the 2010 Law) and restricted securities. These debt securities may contain any type of interest rate payment or reset terms, including fixed rate, adjustable rate, zero coupon, contingent, deferred, payment-in-kind and those with auction rate features (being debt securities with long maturities (e.g., not less than 10 years) but with interest currently paying or accruing with reference to short-term interest rates from issuance, or subsequently actually converted or re-set to a short term rate, and auction rate debt securities). The Sub-Fund will not invest more than 5% of its net asset value in auction rate debt securities. Convertible securities, meaning securities that are or may become convertible into equity (e.g. convertible bonds, bonds with warrant attached, contingent convertible bonds, overall up to a maximum of 10% of the Subfund's total net assets, whereby the Subfund's exposure to coco-bonds is limited to a maximum of 5% of its total net assets.

Equity securities include common and preferred stock; equity securities of foreign companies listed on established exchanges; American Depository

Receipts (ADRs); Global Depository Receipts (GDRs); securities that may be converted into or exchanged for common or preferred stock, such as convertible stock, convertible debt, preferred stock, Eurodollar convertible securities, warrants and options; and other securities with equity characteristics.

The Sub-Fund will invest in both advanced economy and Emerging Market economy securities. Up to 30% of the Sub-Fund's total net assets may be invested in Emerging Market Countries and instruments that are economically tied to Emerging Market Countries.

The Sub-Fund may invest up to 30% in fixed income securities rated below investment grade as measured by Standard & Poor's, Moody's, or Fitch, or, if unrated, determined by the Investment Manager to be of comparable quality. The Sub-Fund may invest up to 20% of its net assets in collateralised bond obligations, collateralised debt obligations, asset-backed securities (ABS) and mortgage-backed securities (MBS). Alternative Asset Classes include but are not limited to, real estate, infrastructure, commodities and precious metals. The exposure to Alternative Asset Classes will only be made indirectly, through funds, private placements and other eligible assets for up to 20% of the total net assets.

The Sub-Fund is actively managed and does not aim to track or benchmark its performance against any index. An actively managed fund is a fund in which the investment manager makes decisions about how to invest the fund's capital. The Bloomberg US Treasury Bill: 1-3 Months Index + 4% is used for comparison purposes only and it is not used for tracking or super performing purposes and not used to determine the composition of the fund.

**Sustainable Investment Approach:** This is an ESG Promotion Sub-Fund. This Sub-Fund promotes and integrates ESG risks factors in its investment strategy within the meaning of Article 8 of the SFDR. Information related to environmental and/or social characteristics is available in the Appendix V – Sustainability Disclosure of the Prospectus and in the SFDR RTS Annex relevant to the Sub-Fund [www.tcw.com/en/Literature/Prospectus](http://www.tcw.com/en/Literature/Prospectus).

#### Intended retail investor:

This product is intended for investors who are prepared to take on a relatively high level of risk of loss to their original capital in order to get a higher potential return, and who plan to stay invested for at least 5 years. It is designed to form part of a portfolio of investments.

### What are the risks and what could I get in return?

#### Risk Indicator

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level and poor market conditions are unlikely to impact the value of your investment. This ranking is typically used to indicate a level of risk that is greater than other Sub-Funds that invest in assets such as bonds issued by organizations with high credit quality domiciled in developed markets, but less than Sub-Funds that invest in assets such as equity.

For other risks materially relevant to the product which are not taken into account in the summary risk indicator, please read the product's Annual Report or Prospectus available at [www.tcw.com](http://www.tcw.com).

This product does not include any protection from future market performance so you could lose some or all of your investment.

## Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor / and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of TCW Global Multi Asset Opportunities Fund over the last 10 years.

The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period: 5 years			
Investment: USD 10,000			
Scenarios Minimum: There is no minimum guaranteed return		If you exit after 1 year	If you exit after 5 years
Stress	What you might get back after costs Average return each year	5,060 USD -49.37%	5,620 USD -10.88%
Unfavourable <sup>1</sup>	What you might get back after costs Average return each year	8,010 USD -19.92%	10,090 USD 0.17%
Moderate <sup>2</sup>	What you might get back after costs Average return each year	10,580 USD 5.83%	12,440 USD 4.46%
Favourable <sup>3</sup>	What you might get back after costs Average return each year	12,260 USD 22.63%	14,810 USD 8.17%

<sup>1</sup> This type of scenario occurred for an investment between August 2021 and December 2024.

<sup>2</sup> This type of scenario occurred for an investment between November 2019 and November 2024.

<sup>3</sup> This type of scenario occurred for an investment between January 2016 and January 2021.

## What happens if Carne Global Fund Managers (Luxembourg) S.A. is unable to pay out?

You may face a financial loss should the manufacturer or depositary/custodian, Société Générale Luxembourg, default on their obligations.

There is no compensation or guarantee scheme in place which may offset, all or any of, this loss.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed, in the first year you would get back the amount that you invested (0% annual return). For the other holding period, we have assumed the fund performs as shown in the moderate scenario.

Investment: USD 10,000	If you exit after 1 year	If you exit after 5 years
Total costs	198 USD	1,158 USD
Annual cost impact (*)	2.0%	2.0%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.5% before costs and 4.5% after costs.

## Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	This includes distribution costs of 0.0%. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	0 USD
Exit costs	We do not charge an exit fee for this product.	0 USD
Ongoing costs taken each year		If you exit after 1 year
Management fees and other administrative or operating costs	1.9% of the value of your investment per year.	185 USD
Transaction costs	0.1% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	13 USD
Incidental costs taken under specific conditions		If you exit after 1 year
Performance fees	There is no performance fee for this product.	0 USD

## How long should I hold it and can I take money out early?

## Recommended holding period: 5 years

This product has no required minimum holding period but is designed for medium to long term investment; you should be prepared to stay invested for at least 5 years. You may sell your shares in the product, without penalty, on any day on which both the banks in Luxembourg and the New York Stock Exchange are normally open for business.

## How can I complain?

If you have any complaints about the product, the conduct of the manufacturer or the person advising on the product, complaints can be lodged via the following methods:

- I. Phone: +352 26 73 23 54
- II. E-mail: [rm@carnegroup.com](mailto:rm@carnegroup.com)
