

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

SIIP India Opportunities Fund – Class E (USD)

A sub-fund of Sanlam Universal Funds plc (the “Company”)
 Managed by Sanlam Asset Management (Ireland) Limited

ISIN: IE00BPYD7T74

Objectives and Investment Policy

Objectives

The investment objective of the SIIP India Opportunities Fund (the Fund) is to increase the value of your shares over the long term.

Investment policy

The Fund is actively managed and invests primarily in stocks and shares of companies which are listed or traded in India or which have their principal business activities in India.

The Fund may also invest in depository receipts which will provide the Fund with access to investment in companies in India.

The Fund may also invest indirectly in Indian securities through investment in collective investment schemes (CIS).

The Fund may also invest in cash or in instruments which have the same or similar effect as investing in cash to ensure that the Fund retains its ability to deal with redemptions as they fall due.

The Fund measures its performance relative to a benchmark index (such as the MSCI India USD) for reference or investor communication purposes, including in the Company’s annual and half-yearly reports. A performance fee is also charged on returns the Fund achieves above the MSCI India USD. As a result, the Fund would be managed in reference to this benchmark index.

Further information on sustainability factors that may be relevant to this Fund can be found in the prospectus or on our website at www.sanlam.ie

You can buy or sell your shares in the Fund any day (except Saturday or Sunday) that banks are open in Dublin.

It is not the intention of the Company to declare a dividend and therefore your shares do not pay you an income.

Recommendation: The Fund is suitable for investors with a time horizon of 5 years.

Risk and Reward Profile

Why is this Fund in category 6?

The Fund is rated 6 due to its exposure to shares and stocks, and to the nature of its investments which include the risks listed below. These factors may impact the value of the Fund's investments or expose the Fund to losses.

The Fund may invest in companies based in emerging markets which may involve additional risks not typically associated with other more established markets such as increased risk of social, economic and political uncertainty resulting in an increased risk of loss.

Investment in CIS may lead to payment by the Fund of additional fees and expenses in relation to those CIS.

Investing in international companies means that currency exchange rate fluctuations will have an impact on the Fund.

The price of shares and the income from them may fall as well as rise and investors may not get back the amount they have invested.

What do these numbers mean?

They rate how a fund might behave and how much risk there is to your capital. Generally, the chance to make large gains means a risk of suffering large losses.

A **Category 1** fund is not a risk-free investment - the risk of losing your money is small, but the chance of making gains is also limited. With a **Category 7** fund, the risk of losing your money is high but there is also a chance of making higher gains. The seven-category scale is complex (for example, 2 is not twice as risky as 1).

More about this rating:

This rating system is based on the average fluctuations of the prices of funds over the past 5 years - that is, by how much the value of their assets taken together has moved up and down. Historical data, such as is used in calculating the synthetic risk indicator, may not be a reliable indication of the future risk profile of the Fund.

For a more detailed explanation of risks, please refer to the "Risk Factors" section of the prospectus.

Charges

These charges are used to pay the costs of running the Fund, including the costs of marketing and selling. Overall, they reduce the growth of your investment.

One-off charges taken before or after you invest	
Entry charge	None
Exit charge	None
Switching charge	2.00%
This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.	
Charges taken from the Fund over a year	
Ongoing charge	0.19%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are the maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

The ongoing charges figure is an estimate based on the expected total charges as the figures based on last year's expenses are not representative. This figure, which excludes portfolio transaction costs, may vary from year to year.

You can find out more details about the charges by looking at the "Charges and Expenses" section of the prospectus.

Past Performance

Past performance is not a reliable indicator of future performance.

The past performance takes account of all charges and costs, excluding entry and exit charges.

The performance of this class is calculated in US Dollars.

The Fund launched on 24 August 2010. This class started to issue shares on 15 March 2011.

Practical Information

Fund Depository: Northern Trust Fiduciary Services (Ireland) Limited.

About the Fund
