

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Perpetua Global Equity UCITS Fund – Class A

A sub-fund of Sanlam Universal Funds plc (the “Company”)
Managed by Sanlam Asset Management (Ireland) Limited

ISIN: IE00BG1D0S77

Objectives and Investment Policy

Investment objective

The investment objective of Perpetua Global Equity UCITS Fund (the “Fund”) is to target capital growth over the long term.

Investment Policy

The Fund is actively managed and shall invest up to 100% of its assets primarily in a global range of equity securities of companies listed on stock exchanges set out in Appendix I of the Prospectus. The Fund may invest up to 50% of its assets in companies listed and traded in emerging or frontier markets.

The Fund may also invest in collective investment schemes (“CIS”) which invest in companies described above.

The Fund may invest up to 15% of its assets in interest bearing instruments, including but not limited to corporate bonds, and sovereign debt and money market instruments such as investment grade corporate bonds and government issued securities of less than 1 year maturity and cash deposits.

The Fund may use financial derivative instruments (“FDI”) for efficient portfolio management and hedging purposes. FDI are financial instruments, the value of which is linked to the expected future price movements on underlying assets. For example, an option is a contract that gives the owner the right, but not the obligation, to buy or sell assets at a specified price before a specified date. Futures are contracts that create an obligation to buy or sell another security on or before a specified future date.

The share class may use currency hedging techniques to reduce the effect of fluctuations in currency exchange rates.

The Fund measures its performance relative to a benchmark index (MSCI All Country World Index) for reference or investor communication purposes, including in the Company’s annual and half-yearly reports. As

the Investment Manager seeks to outperform the benchmark over all periods of five years or longer, the Fund is managed in reference to the benchmark.

Further information on sustainability factors that may be relevant to this Fund can be found in the prospectus or on our website at www.sanlam.ie

You can sell your shares in the Fund any day (except Saturday or Sunday) that banks are open in Ireland and the UK.

The Company does not declare a dividend in relation to your shares and therefore any income that your shares may earn will be retained within the Fund and the value of shares will rise accordingly

Recommendation: The Fund is suitable for investors with a time horizon of 5 years.

Risk and Reward Profile

Why is this Fund in category 6?

Investing in the shares of companies listed on stock exchanges globally means that currency exchange rate fluctuations will have an impact on the Fund.

The price of shares and the income from them may fall as well as rise and you may not get back the amount you have invested.

The Fund may invest in companies based in emerging or frontier markets which may involve additional risks not typically associated with other more established markets such as increased risk of social, economic and political uncertainty.

It may be difficult for the Fund in extreme market conditions to redeem its shares from a CIS at short notice without suffering a loss. Investing in a CIS may lead to payment by the Fund of additional fees and expenses in relation to those CIS.

Investment in debt securities may lead to credit risk where any of the corporations or governments which issue the debt securities become insolvent or suffer financial difficulties. The debt securities may in some cases be below investment grade, which means that while they may deliver a better return, there is potentially a higher risk of default and loss to the Fund.

The Fund may use FDI for efficient portfolio management and hedging. It may be that the use of FDI causes losses to the Fund.

What do these numbers mean?

They rate how a fund might behave and how much risk there is to your capital. Generally, the chance to make large gains means a risk of suffering large losses.

A **Category 1** fund is not a risk-free investment - the risk of losing your money is small, but the chance of making gains is also limited. With a **Category 7** fund, the risk of losing your money is high but there is also a chance of making higher gains. The seven-category scale is complex (for example, 2 is not twice as risky as 1).

More about this rating:

This rating system is based on the average fluctuations of the prices of funds over the past 5 years - that is, by how much the value of their assets taken together has moved up and down. Historical data, such as is used in calculating the synthetic risk indicator, may not be a reliable indication of the future risk profile of the Fund.

For a more detailed explanation of risks, please refer to the "Risk Factors" section of the prospectus.

Charges

These charges are used to pay the costs of running the Fund, including the costs of marketing and selling. Overall, they reduce the growth of your investment.

One-off charges taken before or after you invest	
Entry charge	5.00%
Exit charge	None
Switching charge	None
This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.	
Charges taken from the Fund over a year	
Ongoing charge	1.02%
Charges taken from the Fund under certain specific conditions	
Performance fee	None

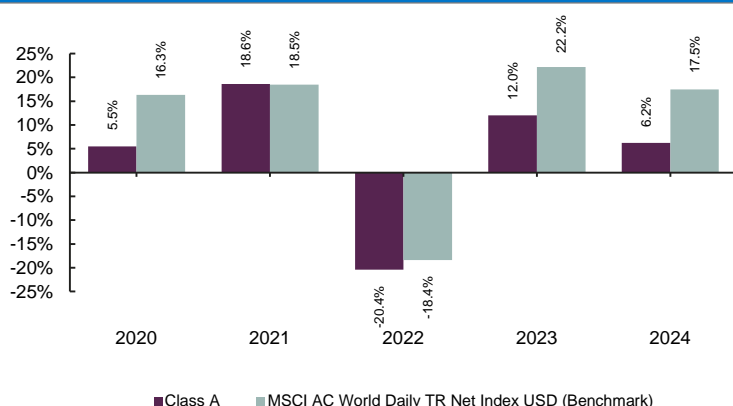

The entry and exit charges shown are the maximum figures. In some cases you might pay less - you can find this out from your financial adviser.

The ongoing charge is based on the expenses for the previous 12 month period ending December 2024. This figure, which excludes portfolio transaction costs, may vary from year to year.

The Fund's annual report for each financial year will include detail on the exact charges made.

You can find out more details about the charges by looking at the "Charges and Expenses" section of the prospectus.

Past Performance

Past performance is not a reliable indicator of future performance.

The past performance takes account of all charges and costs, excluding entry and exit charges.

The performance of this class is calculated in US Dollars.

The Fund launched on 1 February 2019. This class started to issue shares on 1 February 2019.

Practical Information

Fund Depository: Northern Trust Fiduciary Services (Ireland) Limited.
