

Key Investor Information

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

Asia Total Return Bond Fund (the "Fund")

(formerly known as Asia Strategic Income Fund)

a sub-fund of Matthews Asia Funds (the "Company")

S Distribution USD (the "Class") ISIN LU1911630520

Management Company: Carne Global Fund Managers (Luxembourg) S.A. (the "Management Company")

Objective and Investment Policy

- Objective:** The Fund seeks to achieve total return over the long term, with an emphasis on income.
- Investment policy:** The Fund seeks to achieve its investment objective by investing at least 65% of its net assets in debt and debt-related instruments issued by governments, quasi-governmental entities, supra-national institutions and companies located in or with substantial ties to Asia. Debt and debt-related instruments include bonds, debentures, bills, securitized debt instruments, notes, certificates of deposit and other bank obligations, bank loans, senior secured bank debt, convertible debt securities (including contingent convertible bonds or "CoCos"), exchangeable bonds, credit-linked notes, inflation-linked instruments, repurchase agreements, payment-in-kind debt securities, preferred bonds and derivative instruments with debt characteristics. Investments in CoCos are allowed up to 20% of the Fund's net assets. Financial derivative instruments may be used for hedging and/or investment purposes, including swaps, managing interest rate, currency and credit exposure, involving a variety of underlying instruments. The Fund may invest in debt securities of any quality. On an ancillary basis, the Fund may invest in other permitted assets on a worldwide basis. For the purpose of this policy, Asia consists of all countries and markets in Asia.
- The Fund may invest in China A Shares or onshore debt securities listed on the Shanghai or Shenzhen Stock Exchanges, either directly via a Qualified Foreign Institutional Investor ("QFII") license awarded to the Company, or via the Shanghai-Hong Kong Stock Connect and/or Shenzhen-Hong Kong Stock Connect programs, China Interbank Bond Market, or indirectly via access products. Under normal market conditions, the Fund will hold less than 30% of its net assets in aggregate in China A and B Shares and onshore debt securities.
- As of 25 May 2020, the Fund changed its reference benchmark to a blended benchmark comprised of 50% Markit iBoxx Asian Local Bond Index (USD) and 50% J.P. Morgan Asia Credit Index (USD) and is indicated for performance comparison only. Prior to 25 May 2020, the Fund's reference benchmark was the Markit iBoxx Asian Local Bond Index (USD). The Fund is actively managed and does not aim to replicate or track the benchmark. Consequently, the Investment Manager may freely select the securities in which it invests, and the Fund's portfolio composition and performance may deviate materially from the benchmark.
- Dividend policy:** Unlike Accumulation shares of the Fund, substantially all of the income earned on investment is intended to be distributed periodically out of the Fund's gross income.
- Holding period:** The Fund has no minimum holding period, however, the Fund has a long-term investment horizon (typically 5 years or longer). This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.
- Share transactions:** An investor can buy and sell shares of the Fund on any Business Day in Luxembourg.

Risk and Reward Profile

- Interpretation of the Risk and Reward Indicator:** The Risk and Reward Indicator takes into account historical data which is not a reliable indicator of the future. The risk category was calculated using related historical performance data and it may not be a reliable indicator of the Fund's future risk profile. The risk category of the Fund is neither a target nor guaranteed to remain stable over time. A risk category of 1 does not mean a risk free investment.
- Why is this Fund in this category?** The Fund is in risk category 4 because it invests primarily in Asian bonds and other income-producing securities and these assets have not shown sharp changes in valuation ("volatility"). However, many Asian markets are considered to be emerging markets and may experience changes in valuation. Changes in valuation are expected to result in changes in the Fund's net asset value.
- Are there other particular risks you should consider?** The Risk and Reward Indicator does not provide an overall risk profile of the Fund, nor does it fully capture all the risks of investing in the Fund. Risks that you should consider include: market risk, interest rate risk, currency risk, foreign exchange risk, settlement risk, valuation risk, credit risk, liquidity risk, compliance risk, political risk, legal risk, custody risk, operational risk, counterparty risk, regional and country risk, risk of investing in China A shares or onshore debt securities, and high yield risk. Investments in less developed financial markets may expose the Fund to increased operational, legal and political risk. Derivative instruments are highly sensitive to changes in the value of the underlying asset that they are based on. Certain derivatives may result in losses greater than the amount originally invested. If a counterparty were to default, the unrealized profit on the derivative contract and its market exposure may be lost. The Fund intends to pay out all of the income earned by this Class. This may have the result that expenses of this Class may be paid out of capital. Payment of expenses out of capital amounts to a return or withdrawal of part of an investor's original investment, and limits its potential for generating income. For more details about risk, please refer to the Fund's Prospectus under "Risk Considerations," which is available at global.matthewsasiasia.com/prospectus.

Charges

ONE-OFF CHARGES TAKEN BEFORE OR AFTER YOU INVEST

Entry Charge Up to 5.00%

Exit Charge Not applicable

This is the maximum that might be taken out of your money before it is invested/before the proceeds of your investment are paid out.

CHARGES TAKEN FROM THE FUND OVER A YEAR

Ongoing Charges 0.75%

CHARGES TAKEN FROM THE FUND UNDER CERTAIN SPECIFIC CONDITIONS

Performance Fee Not applicable

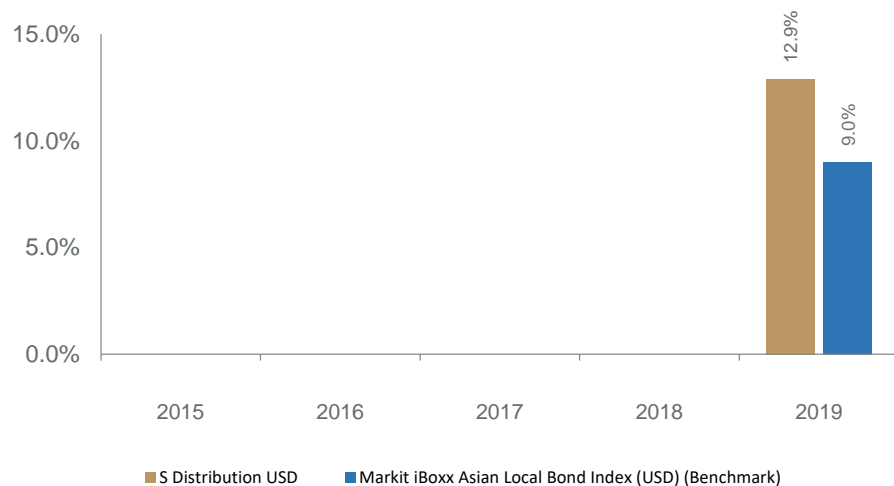

The charges you pay are used to cover the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

Entry/Exit Charges: The Fund may levy an Entry Charge of up to 5% on the value of your investment before it is invested in the Fund. In some cases you may pay an Entry Charge of less than 5%. Exit Charges are amounts taken out of the proceeds of your investment before they are paid out or invested in another sub-fund. All of these Charges reduce the size of your investment and your return. Actual amounts can be obtained from your financial advisor or distributor.

Ongoing Charges: The Ongoing Charges figure shown here is an estimate of the charges. As of 1 April 2020, an expense cap was introduced and the Investment Manager will bear any fees and expenses payable in respect of the Class where such fees and expenses exceed the cap. The Fund's annual report for each financial year will include detail on the exact charges made. Ongoing Charges exclude portfolio transaction costs (including taxes and brokerage commissions) and any borrowing costs, which are payable from the assets of the Fund and may impact returns on your investment.

For more information about Charges please see the Fund's Prospectus under "Fees and Expenses," which is available at global.matthewsasiasia.com/prospectus.

Past Performance

Calculation: The bar chart shows the Fund's yearly returns against the benchmark. As of 25 May 2020, the Fund changed its benchmark to a blended benchmark comprised of 50% Markit iBoxx Asian Local Bond Index (USD) and 50% J.P. Morgan Asia Credit Index (USD). Prior to 25 May 2020, the Fund's benchmark was the Markit iBoxx Asian Local Bond Index. Benchmark performance reflects the Markit iBoxx Asian Local Bond Index through 31 December 2019. The returns of the Fund are provided for all the years for which performance data is available for the complete calendar year since its launch on 10 December 2018. The Fund's return figures have been calculated in USD, net of the ongoing charges (but do not consider any potential Entry or Exit Charges), and with distributable income reinvested.

Interpretation of past performance: Please note that past performance is not an indicator for future performance.

Practical Information

Depository: Brown Brothers Harriman (Luxembourg) S.C.A.

Further information: You can find more information about the Company, all available sub-funds and share classes at global.matthewsasiasia.com.
