The management company is FundRock Management Company S.A.

KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and risks of investing in the fund. You are advised to read it so you can make an informed decision about whether to invest.

OBJECTIVES AND INVESTMENT POLICY

Objective

To increase the value of shareholders' investments primarily through capital growth.

Investment policy

- The fund is actively managed.
- The fund invests principally in equities of smaller companies that are listed on a recognised stock exchange in the USA. Typically these are companies with a market capitalisation of less than \$10bn at the time of purchase.
- At times the fund may invest in equities of companies of equivalent size that are headquartered or exercise the predominant part of their economic activity in the USA, but which are listed on a regulated stock exchange outside the USA.
- Shares in the following types of companies (held either directly or indirectly via derivatives) are automatically excluded:
 - Tobacco: companies which derive more than 5% revenue from tobacco production;
 - Weapons: companies:
 - involved in the production of controversial weapons (including cluster munitions, landmines, biological and chemical weapons); or
 - which derive more than 10% revenue from conventional or nuclear weapons, related components and systems; or
 - which derive more than 10% revenue from manufacture or sale of civilian firearms or ammunition;
 - Coal: companies which derive more than 5% revenue from mining or sale of thermal coal;
 - Companies that the Investment Manager determines to be in breach of the United Nations Global Compact principles on human rights, labour rights, the environment and anti-corruption.
- The fund promotes environmental and/or social characteristics within the meaning of Article 8 of SFDR. The Investment Manager seeks to decrease the fund's exposure to climate risk and benefit from the opportunities associated with the transition to a net-zero emissions economy through investing in companies which are actively managing their carbon exposure and setting meaningful targets. Further information is contained in a methodology statement available on the Artemis website at www.artemisfunds.com/methodology-statement.
- The evaluation of environmental, social and governance factors is determined by the Investment Manager using information provided by the companies (for example company sustainability reports) and third-party data, focusing on scores and metrics which that the Investment Manager considers to be relevant.
- More information about the environmental or social characteristics for this fund is available in the pre-contractual disclosure for financial products referred to in Article 8 under SFDR in the fund's prospectus.
- The fund may use derivatives and other techniques for hedging and for efficient portfolio management. The fund's derivatives may include, but are not limited to, futures and forward currency contracts.
- Subject to the limits set out in the 'Investment Restrictions' section of the fund's prospectus, the fund may also hold ancillary liquid assets for treasury purposes.
- Subject to the limits set out in the 'Investment Restrictions' section of the fund's prospectus, the fund may invest in bank deposits, money market instruments and money market funds in order to achieve its investment goals, for treasury purposes and in case of unfavourable market conditions.
- The fund may invest up to 10% of its Net Asset Value in other collective investment schemes.

Benchmark information

- Russell 2000 TR
The benchmark is a point of reference against which the performance of the fund may be measured. Management of the fund is not restricted by this benchmark. The deviation from the benchmark may be significant and the portfolio of the fund may at times bear little or no resemblance to its benchmark. The benchmark does not take into account environmental and/or social characteristics promoted by the fund.

Other information

- Dealing frequency: Normally Monday to Friday except Luxembourg public holidays and non-dealing days. Visit www.artemisfunds.com/non-dealing-days for more information. Instructions received before 13:00 CET will be processed at 16:00 CET on the same day.
- Distribution policy: This is an accumulation class. Income received is reinvested in the value of the fund.

RISK AND REWARD PROFILE

- The fund is in the category shown due to historic volatility (how much and how quickly the value of shares in the fund may have risen and fallen in the past due to movements in markets, currencies and interest rates). It may not be a reliable indication of the future risk profile of the fund.
- The risk category has been calculated using historic data and may not be a reliable indicator of the fund's future risk profile.
- A risk indicator of "1" does not mean that the investment is "risk free".

The risk indicator may not fully take into account the following risks and the following may affect fund performance:

- Market volatility risk:** The value of the fund and any income from it can fall or rise because of movements in stockmarkets, currencies and interest rates, each of which can move irrationally and be affected unpredictably by diverse factors, including political and economic events.
- Currency risk:** The fund's assets may be priced in currencies other than the fund base currency. Changes in currency exchange rates can therefore affect the fund's value.
- Concentration risk:** The fund may have investments concentrated in a limited number of holdings. This can be more risky than holding a wider range of investments.
- Smaller companies risk:** Investing in small and medium-sized companies can involve more risk than investing in larger, more established companies. Shares in smaller companies may not be as easy to sell, which can cause difficulty in valuing those shares.
- Charges from capital risk:** Where charges are taken wholly or partly out of a fund's capital, distributable income may be increased at the expense of capital, which may constrain or erode capital growth.
- ESG risk:** The fund may select, sell or exclude investments based on ESG criteria; this may lead to the fund underperforming the broader market or other funds that do not apply ESG criteria. If sold based on ESG criteria rather than solely on financial considerations, the price obtained might be lower than that which could have been obtained had the sale not been required.

Please refer to the fund's prospectus for full details of these and other risks, including sustainability risks, which are applicable to this fund.

CHARGES FOR THE FUND

One-off charges taken before or after you invest

Entry charge	None
Exit charge	None

This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.

Charges taken from the fund over a year

Ongoing charge	0.510%
----------------	--------

Charges taken from the fund under certain specific conditions

Performance fee	None
-----------------	------

- The charges you pay are used to pay the costs of running the fund, including the costs of marketing and distributing it. The charges reduce the potential growth of your investment.
- The ongoing charges figure is an estimate rather than a historic figure because this better reflects the expected future charges. The charges may vary from year to year. The exact charges made for each financial year are contained in the fund's annual report.
- The annual management charge is taken from income.

For more information about charges, please see the fund's prospectus, which is available at www.artemisfunds.com or www.fundinfo.com.
