⁶ As of March 31, 2023. Management expense ratio (MER) is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period.

⁷ Reflects the annual rate at which dividends are being paid. It is the weighted average of each stock's annual dividend rate (including any one time special dividends) divided by the price of the stock as of March 31, 2024. Investment management fees, expenses and taxes are not included in this calculation that would have decreased the yield shown. Dividend yields can change based on the performance of underlying stocks.
