<sup>6</sup> Reflects the annual rate at which dividends are being paid. It is the weighted average of each stock's annual dividend rate (including any one time special dividends) divided by the price of the stock as of September 30, 2020. Investment management fees, expenses and taxes are not included in this calculation that would have decreased the yield shown. Dividend yields can change based on the performance of underlying stocks.

### Important Information

Mutual Funds are not guaranteed, their values change frequently and past performance may not be repeated.

All rates of return shown are for periods ending October 31, 2020. Rates of return shown for less than one year are not annualized. All other data shown is as of October 31, 2020 with exception of Ten largest holdings, Holdings by sector, Number of holdings, Price to earnings, Price to book, Dividend yield, Weighted avg mkt cap, Market cap distribution and Regional allocations, which are as of September 30, 2020.
