

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Neuberger Berman Next Generation Space Economy Fund (the "Fund")

a sub-fund of Neuberger Berman Investment Funds plc

EUR 13 Accumulating Class - Unhedged, IE000KBH8HE5

This Fund is managed by Neuberger Berman Asset Management Ireland Limited.

OBJECTIVES AND INVESTMENT POLICY

The Fund seeks to achieve long-term capital appreciation through investing primarily in a portfolio of global equity holdings, focusing on companies that are involved in or derive benefit from the Next Generation Space Economy (as defined below).

The Next Generation Space Economy focuses on companies involved in space related industries, such as satellite technology and manufacturing, launch enablers, cyber and communication technologies and internet connectivity and navigation, and space tourism and insurance.

There can be no guarantee that the Fund will ultimately achieve its investment objective and capital invested is at risk. The Fund invests in equity securities (shares) that are listed or traded on Recognised Markets globally, which may include emerging (less developed) market countries.

The Fund invests in a mixture of companies of different sizes, from different industries and does not focus on any specific country. The Fund may invest in companies of any market capitalisation but shall typically invest in companies that have market capitalisation greater than USD 500 million at the time of purchase.

The Fund may invest in:

- up to 30% of the Fund's Net Asset Value ("NAV") in China A Shares listed on or dealt in the Shanghai Stock Connect or the Shenzhen Stock Connect;
- a maximum of 50% of the Fund's NAV in emerging market countries;

China A Shares: Shares in mainland China-based companies that trade on Chinese stock exchanges such as the Shanghai Stock Connect and the Shenzhen Stock Connect. China

A Shares are generally available for purchase by mainland citizens in China; foreign investment in China A Shares is subject to significant regulatory restrictions.

The Fund is actively managed, does not intend to track the benchmark and is not constrained by it, the MSCI All-Country World Index (ACWI) (Total Return, Net of Tax, USD) which is used for performance comparison purposes only. While the Fund may acquire securities which are components of the benchmark, it will not do so because of their inclusion in the benchmark.

The Fund complies with the Sustainable Criteria.

The Fund promotes environmental and social characteristics within the meaning of Article 8 of SFDR.

This Fund may not be appropriate for short-term investment and is more suitable as part of a diversified portfolio.

You may sell your shares on any day when the financial markets in London and New York are open for business.

As your shares are in Euro and the Fund is in US Dollars, fluctuating currency exchange rates may affect the value of your investment.

Your shares do not pay you income, but returns are reinvested to grow capital.

Transaction costs will reduce the Fund's return.

RISK AND REWARD PROFILE

This Fund is in category 6 due to its level of historical volatility. As the share class has less than 5 years of returns history, the historical volatility includes benchmark/representative portfolio returns. The Fund invests in a variety of investments, some of which can vary significantly in price from day to day due to a number of factors.

The main risks facing the Fund are:

- **Market Risk:** The risk of a change in the value of a position as a result of underlying market factors, including among other things, the overall performance of companies and the market perception of the global economy. In addition, as the Fund invests in businesses that are connected with less advanced countries and economies, certain risks exist. The market for investments in such countries may be less developed making it difficult for the Fund to sell its investments in such markets and political and social instability may lead to a reduction in the value of the investments in such countries. Accounting and auditing standards and availability of financial information may vary across the markets in which the Fund invests.
- **Liquidity Risk:** The risk that the Fund may be unable to sell an investment readily at its fair market value. This may affect the value of the Fund and in extreme market conditions its ability to meet redemption requests upon demand. To counter this risk the Fund actively monitors the liquidity of its investments. Smaller companies' shares can be harder to sell and their prices more volatile.
- **Counterparty Risk:** The risk that a counterparty will not fulfil its payment obligation for a trade, contract or other transaction, on the due date. The insolvency of any institution providing services such as the safekeeping of assets or acting as counterparty in respect of derivatives or other instruments may expose the Fund to financial loss.
- **Derivatives Risk:** The Fund is permitted to use certain types of derivative instruments to seek to protect its assets against some of the risks outlined in this section. Their use will create leverage, an investment technique which gives an investor a larger exposure to an asset than the amount it invested. The Fund's use of leverage may result in greater variations (both positive and negative) in the value of your shares. However, leverage is limited to 100% of the Fund's assets and the Investment Manager will ensure that the Fund's use of derivatives does not materially alter the overall risk profile of the Fund. Please refer to the Prospectus for a full list of the types of derivative that the Fund may utilise.

- **Operational Risk:** The risk of direct or indirect loss resulting from inadequate or failed processes, people and systems including those relating to the safekeeping of assets or from external events.
- **Concentration Risk:** The Fund's investments may be concentrated in a small number of investments or in bonds issued by a small number of issuers and its performance may therefore be more variable than the performance of a more diversified fund.
- **Currency Risk:** Investors who subscribe in a currency other than the base currency of the Fund are exposed to currency risk. Fluctuations in exchange rates may affect the return on investment. If the currency of this share class is different from your local currency, then you should be aware that due to exchange rate fluctuations the performance shown may increase or decrease if converted into your local currency.

For a more detailed explanation of risks, please refer to the "Investment Restrictions" and "Investment Risks" section of the Prospectus.

A category 1 fund is not a risk free investment - the risk of losing money is smaller than that of a category 7 fund, but the likelihood of making gains is also lower. The seven category scale is complex: for example, a category 2 fund is not twice as risky as a category 1 fund.

The category is calculated using past data, which cannot be used as a prediction for the future. Therefore the risk classification may change over time.

CHARGES

One-off charges taken before or after you invest	
Entry Charge	None
Exit Charge	None
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing Charges	0.80%
Charges taken from the fund under certain specific conditions	
Performance Fee	None

These charges are used to pay the costs of running the Fund, including the costs of marketing and distributing it.

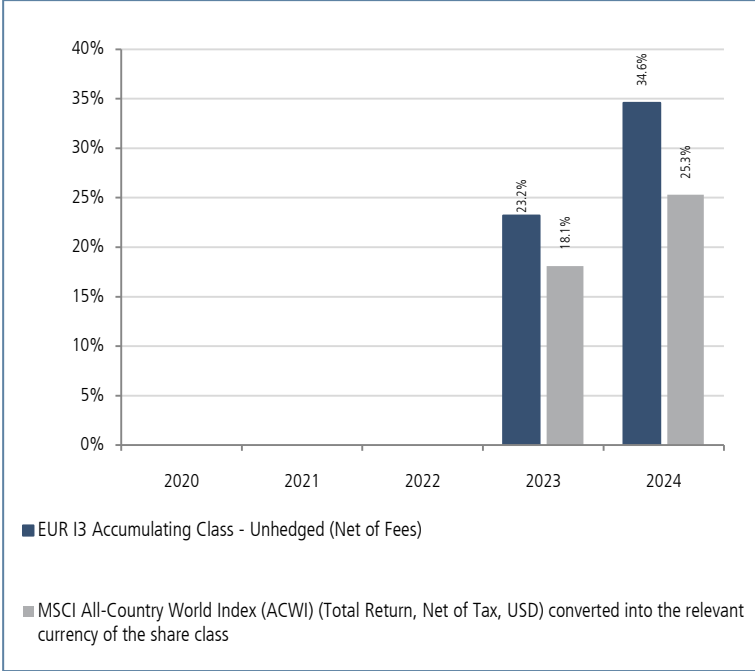

These charges reduce the potential growth of your investment.

The one-off charges shown are the maximum figures. In some cases they may be less. You can find out your actual charges from your financial adviser.

The ongoing charges figure is based on the expenses for the period ending 31 December 2024. This figure may vary from year to year.

You can find more details on these charges in the "Fees and Expenses" section of the Prospectus.

PAST PERFORMANCE

Past performance is not a reliable indicator of future results.

The past performance takes account of all charges and costs.

The value of this class is calculated in Euro.

The Fund launched on 10 May 2022.

This class started to issue shares on 10 May 2022.

The performance is compared against MSCI All-Country World Index (ACWI) (Total Return, Net of Tax, USD) converted into the relevant currency of the share class.

PRACTICAL INFORMATION

Depository: Brown Brothers Harriman Trustee Services (Ireland) Limited.

Further information: Copies of the Prospectus, latest annual and half-yearly reports, and the Fund Supplement may be obtained free of charge in English, German, French, Italian and Spanish from www.nb.com/europe/literature, from local paying agents, a list of which can be found in Annex III of the Prospectus, or by writing to Neuberger Berman Investment Funds plc, c/o Brown Brothers Harriman Fund Administration Services (Ireland) Ltd, 30 Herbert Street, Dublin 2, Ireland, D02 W329.
