#### Share class NAV

EUR 602.99

### Fund objective

The Fund aims to achieve long term income and growth by investing in high yield corporate bonds issued by companies in both developed and emerging markets. The Fund invests in bonds issued which pay either a fixed or variable rate of interest. The Fund is actively managed with reference to the ICE BofA Developed Markets HY Constrained Index (EUR) (the "Index") which it seeks to outperform by 0.75% over the medium to long term. Russell Investments/ Money Managers have full discretion to select investments for the Fund.

This product is an Article 8 product, as defined under EU regulation - it promotes environmental or social characteristics and invests in companies that follow good governance practices. This product does not have sustainable investment as its objective.

### Fund update

The Fund ended the month in line with the benchmark. High yield credit outperformed investment grade while credit spreads diverged. Global high yield spreads tightened whereas US and European high yield spreads widened, the latter more noticeably. In US credit, an overweight to high yield financials was helpful although the positive impact was offset by underweights to high yield industrials and utilities. An overweight to US investment grade industrials was additive. In Europe, an overweight to high yield industrials contributed positively. In hard currency emerging market debt, an overweight to Latin America was helpful, as seen in recent months.

### Performance review (%)

Performance to period end Returns shown in EUR	1 month	3 months	Year to date	12 months	3 years	5 years	Since inception*
Return gross of management fee Class B Inc	-0.8	-1.1	-1.1	6.1	-0.4	2.3	3.2
